

INQUIRY-BASED LEARNING

There are many great models for inquiry-based learning. Each model uses different terminology and different structures. However, in general, there are certain trends you see within the conceptual models. Often, it is cyclical and moves from questions through research, data analysis, and sharing of conclusions.

Interactional Research Into Problem-Based Learning Susan M. Bridges,Rintaro Imafuku,2020-08-15 Problem based learning PBL has been deployed as a student centered instructional approach and curriculum design in a wide range of academic fields across the world The majority of educational research to date has focused on knowledge based outcomes addressing why PBL is useful Researchers of PBL are developing a growing interest in qualitative research with a process driven orientation to examining learning interactions It is essential to broaden this research base so as to support PBL designs and approaches to leading students into higher order thinking and a deeper approach to learning Interactional Research Into Problem Based Learning explores how students learn in an inquiry led approach such as PBL Included are studies that focus on learning in situ and go beyond measuring the outcomes of PBL The goal is to further expand the PBL research base of qualitative investigations examining the social dimension and lived experience of teaching and learning within the PBL process A second aim of this volume is to shed light on the methodological aspects of researching PBL adding new perspectives to the current trends in qualitative studies on PBL Chapters cover ethnographic approaches to video analysis introspective protocols such as stimulated recall and longitudinal qualitative studies using discourse based analytic approaches Specifically this book will further contribute to the current

educational research both theoretically and empirically in the following key areas students learning processes in PBL over time and across contexts the nature of quality interactions in PBL tutorials the inter cultural aspects of learning in PBL facilitation processes and group dynamics in synchronous and asynchronous face to face and blended PBL and the developing nature of PBL learner identity *Moral Distress in the Health Professions* Connie M. Ulrich,Christine Grady,2018-01-31 This is the first book on the market or within academia dedicated solely to moral distress among health professionals It aims to bring conceptual clarity about moral distress and distinguish it from related concepts Explicit attention is given to the voices and experiences of health care professionals from multiple disciplines and many parts of the world Contributors explain the evolution of the concept of moral distress sources of moral distress including those that arise at the unit team and organization system level and possible solutions to address moral distress at every level A liberal use of case studies will make the phenomenon palpable to readers This volume provides information not only for academia and educational initiatives but also for practitioners and the research community and will serve as a professional resource for courses in health professional schools bioethics and business as well as in the hospital wards intensive care units long term care facilities hospice and ambulatory practice sites in which moral distress originates **Threshold Concepts in**

Problem-based Learning Maggi Savin-Baden,Gemma Tombs,2019-02-26 Threshold Concepts in Problem based Learning provides a critical discussion and guidance for educational researchers teachers innovators and policy makers wanting to explore the interrelationship of PBL and threshold concepts Beginning with an introduction to both areas and offering an overview of the current issues this volume delivers 11 innovative research based chapters from around the world It outlines the major threshold concepts faced by those disciplines that have adopted PBL and then examines the impact of threshold concepts on student learning What is unique about this text is the way it examines PBL as a pedagogy in which students get stuck in the learning process and the thresholds they encounter as they learn to adapt **Public Participation in Health**

Community-Based Health Interventions in an Institutional Context Steven L. Arxer, John W. Murphy, 2019-09-13 Community Based Health Interventions in an Institutional Context examines challenges of institutionalizing community based health care While the community based or localized model is growing in popularity and importance in the United States in practice it must often be brought in to larger institutions in

order to grow to scale The typical goals of an institution standardization formalization and control may be seen as antithetical to those of a community based healthcare provider such as spontaneity customization and flexibility The contributions to this work raise questions about how the community based model can be scaled up through institutions and how institutionalization can be rethought from a bottom up approach They provide not only an overview of community based organizations but also delve into practical topics such as establishing budgets training workers incorporating technology as well as more theoretical topics like goal setting policy effects like the ACA and relationships between patient and community This work will be of interest for researchers interested in exploring the community based health care model as well as practitioners in health care and health policy
