Fighters Fiasco:

The Great Betrayal David L. Phillips, 2018-11-29 The twentieth century saw dramatic changes in the once Kurd dominated Kirkuk region of Iraq Despite having repeatedly relied on the Kurdish population of Iraq for military support on three occasions the United States have abandoned their supposed allies in Kirkuk The Great Betrayal provides a political and diplomatic history of the Kirkuk region and its international relations from the 1920s to the present day Based on first hand interviews and previously unseen sources it provides an accessible account of a region at the very heart of America s foreign policy priorities in the Middle East In September 2017 Iraqi Kurdistan held an independence referendum intended to be a starting point on negotiations with the Iraqi Government in Baghdad on the terms of a friendly divorce Though the US Turkey and Iran opposed it the referendum passed with 93% of the vote Rather than negotiate Iraq s Prime Minister Heider al Abadi issued an ultimatum and then attacked the region Iraq s Kurdish population have been abandoned once again by their supposed allies in the US In this book David L Phillips reveals the failings of America s policies towards Kirkuk and the devastating effects of betraying an ally

An Uncertain Ally David L. Phillips, 2017-02-28 Under the rule of Recep Tayyip Erdogan Turkey has descended into a dictatorship promotes the Islamist agenda abuses human rights limits freedom of expression in the press and wages war against the Kurds While Turkey has historically been important geopolitically it has become an outlier in Europe and an uncertain ally of the United States An Uncertain Ally is a straightforward indictment of Erdogan Drawing on inside sources in his Justice and Development Party AKP and the police the book reveals corruption and money laundering schemes that benefitted Erdogan his cronies and family members Erdogan has polarized Turkish society and created conditions that led to the coup attempt of July 2016 He has also deepened divisions by accusing Fethullah Gulen an Islamic teacher in Pennsylvania of establishing a parallel state and masterminding the coup attempt Erdogan has seized on the failed coup to justify a witch hunt arresting thousands and ordering the wholesale dismissal of alleged coup sympathizers Rather than foster reconciliation he pursued vendettas and turned Turkey into a gulag An Uncertain Ally exposes Turkey s ties to jihadists in Syria and the Islamic State questioning its suitability as a NATO member Under Erdogan Turkey faces a dark future that poses a danger to the region and internationally

Lessons Unlearned Pat Proctor, 2020-03-09 Colonel Pat Proctor s long overdue critique of the Army s preparation and outlook in the all volunteer era focuses on a national security issue that continues to vex in the twenty first century Has the Army lost its ability to win strategically by focusing on fighting conventional battles against peer enemies Or can it adapt to deal with the greater complexity of counterinsurgent and information age warfare In this blunt critique of the senior leadership of the U S Army Proctor contends that after the fall of the Soviet Union the U S Army stubbornly refused to reshape itself in response to the new strategic reality a decision that saw it struggle through one low intensity conflict after another some inconclusive some tragic in the 1980s and 1990s and leaving it largely unprepared when it found itself engaged seemingly forever in wars in

Afghanistan and Iraq The first book length study to connect the failures of these wars to America s disastrous performance in the war on terror Proctor s work serves as an attempt to convince Army leaders to avoid repeating the same mistakes

Alarmstart: The German Fighter Pilot's Experience in the Second World War Patrick G. Eriksson, 2017-09-15 The experiences of the German fighter pilots in the Second World War based on extensive recollections of veterans as well as primary documents and diary and flying log book extracts with photographs from the veterans themselves many never previously published *Aircraft Carriers* Norman Polmar, 2006-09-01 Aircraft Carriers is the definitive history of world aircraft carrier development and operations Norman Polmar's revised and updated two volume classic describes the political and technological factors that influenced aircraft carrier design and construction meticulously records their operations and explains their impact on modern warfare Volume I provides a comprehensive analysis of carrier developments and warfare in the first half of the twentieth century and examines the advances that allowed the carrier to replace the battleship as the

dominant naval weapons system Polmar gives particular emphasis to carrier operations from World War I through the Japanese strikes against China in the 1930s to World War II in the Atlantic Mediterranean Arctic and Pacific theaters It begins with French inventor Clément Ader's remarkably prescient 1909 description of an aircraft carrier The book then explains how Britain led the world in the development of aircraft carrying ships soon to be followed by the United States and Japan While ship based aircraft operations in World War I had limited impact they foreshadowed the aircraft carriers built in the 1920s and 1930s The volume also describes the aircraft operating from those ships as well as the commanders who pioneered carrier aviation Aircraft Carriers has benefited from the technical collaboration of senior carrier experts Captain Eric M Brown and General Minoru Genda as well as noted historians Robert M Langdon and Peter B Mersky Aircraft Carriers is heavily illustrated with more than 400 photographs some never before published and maps Volume II which is forthcoming from Potomac Books in the winter 2006 2007 ISBN 978 1 57488 665 8 will cover the period 1946 to the present

The American Mercury Henry Louis Mencken, 1929 *Schweinfurt-Regensburg 1943* Marshall Michel III, 2020-01-23 This is an up to date history of the US Army Air Force's pioneering but costly raids on Germany's Messerschmitt and ball bearing factories in World War II In 1943 the USAAF and RAF launched the Combined Bomber Offensive designed to systematically destroy the industries that the German war machine relied on At the top of the hit list were aircraft factories and plants making ball bearings a component thought to be a critical vulnerability Schweinfurt in southern Germany was home to much of the ball bearing industry and together with the Messerschmitt factory in Regensburg which built Bf 109 fighters it was targeted in a huge and innovative strike Precision required that the targets were hit in daylight but the raid was beyond the range of any existing escort fighter so the B 17s would go in unprotected The solution was to hit the two targets in a coordinated double strike with the Regensburg strike hitting first drawing off the defending Luftwaffe fighters and leaving the way clear for the Schweinfurt bombers The Regensburg force would carry on over the Alps to North Africa the first example of US shuttle bombing Although the attack on Regensburg was successful the damage to Schweinfurt only temporarily stalled production and the Eighth Air Force had suffered heavy losses It would take a sustained campaign not just a single raid to cripple the Schweinfurt works However when a follow up raid was finally launched two months later the losses sustained were even greater This book explains how the USAAF launched its daylight bombing campaign in 1943 the technology and tactics available for the Schweinfurt Regensburg missions and how these costly failures forced a change of tack
