Flight Today And Tomorrow:

Flight, 1923 **Terbium** André Ford, 2022-02-11 Canada's far north A vast frozen and barren land where survival is never guaranteed and where the northern lights gather in the sky like silent witnesses It's in this environment that Mike Gagnon an experienced pilot and former police officer runs chartered flights to remote areas of the Canadian Arctic hauling freight and transporting passengers His life is routine and regimented until the day he and his partner Mario interact with a Chinese prospection team roaming the Arctic It's then that they begin to suspect things may not be quite what they seem Meanwhile in Ottawa a CSIS deputy director Claudine St Germain comes across relevant intelligence indicating that Chinese personnel are extracting valuable Rare Earths minerals illegally on an island in the Northwest Territories But when she takes what she's learned further up the chain of command she encounters resistance from a quarter she never could've imagined the prime minister himself There are foreign invaders on Canadian soil The nation's Arctic sovereignty is in jeopardy And Mike Mario and Claudine may be the only ones willing to gather help to counteract this mastery theft **The Journal** N. only to Ivar and that secret is at the heart of his disappearance At the most revered site in all the Himalayas the world of pioneering cancer research and the art of ancient medicine are about to collide with the designs of a vengeful madman With the lives of the world s most vulnerable children at stake events will occur that will change the lives of all involved forever
