Feuding And Fighting:

Fighting Words and Feuding Words Thomas R. Walsh, 2005-01-01 Fighting Words and Feuding Words engages the powerful tools of Homeric poetic analysis and the anthropological study of emotion in an analysis of two anger terms highlighted in the Iliad by the Achaean prophet Calchas Walsh argues that kotos and kholos locate two focal points for the study of aggression in Homeric poetry the first presenting Homer's terms for feud and the second providing the native terms that designate the martial violence highlighted by the Homeric tradition **Feuding and Warfare** Keith F.

Otterbein, 2020-12-22 Originally published in 1994 the late Keith F. Otterbein's scholarship had followed an overall design since 1962 when he began conducting comparative studies of warfare using both ethnographic and cross-cultural methods. Through a conceptual framework derived from systems theory he made signal contributions to our understanding of the role of warfare in human social evolution. He formulated a Fraternal Interest Group theory utilizing it to explain not only feuding and warfare but also rape and capital punishment. Believing that armed combat is learned behaviour he posed questions about its learning process that had yet to be answered. He acted as a major synthesizer of the growing literature on warfare and led attempts among anthropologists to apply their knowledge of war and peace to current events. This volume will serve both as a useful introduction to the anthropology of war and as a needed compendium of Professor Otterbein's ideas. The Anglo-Saxons from the Migration Period to the Eighth Century John Hines, 2003 The culture of early Anglo-Saxon England explored from an interdisciplinary perspective. A stimulating contribution to the field of Anglo-Saxon studies. MEDIEVAL ARCHAEOLOGY A mind-stretching read. NOTES AND QUERIES The papers contained in this volume by leading researchers in the field cover a wide range of social, economic and ideological aspects of the culture of early Anglo-Saxon England from an interdisciplinary perspective. The status of Anglo-Saxondom and Englishness as cultural and ethnic categories are a recurrent focus of debate while other topics include the reconstruction of settlement patterns, social and political structures, farming in medieval England and the spiritual world of the Anglo-Saxons. As a whole the contributions offer fascinating insights into key contemporary research questions and projects and into the character and problems of interdisciplinary approaches. Dr JOHN HINES is Reader in the School of History and Archaeology at the University of Wales Cardiff. Contributors: WALTER POHL, IAN WOOD, DELLA HOOKE, DOMINIC POWLES, LAND HEINRICH H. The Mujahideen paved the way for the Taliban regime to exist, having all but defeated the Russian Army in the late 80s. The author Brigadier Mohammad Yousaf was head of the Afghan Bureau of Pakistan's Inter Service Intelligence and as such was effectively the Mujahideen's commander in chief. He controlled the flow of thousands of tons of arms across Pakistan and

into its occupied neighbor arms that were bought with CIA and Saudi Arabian funds from the USA One of the Mujahideen s close allies was none other than Osama Bin Laden This compelling book was put together with great skill the by military historian Mark Adkin in conjunction with Brigadier Mohammad Yousaf and is essential reading for anyone interested in the truth behind the Afghanistan War which led to the conditions that exist there today A hardback edition of this book was published by Casemate in 2001 under the title Afghanistan The Bear Trap *Feud* Altina L. Waller,2012-12-01 The Hatfield McCoy feud the entertaining subject of comic strips popular songs movies and television has long been a part of American folklore and legend Ironically the extraordinary endurance of the myth that has grown up around the Hatfields and McCoys has obscured the consideration of the feud as a serious historical event In this study Altina Waller tells the real story of the Hatfields and McCoys and the Tug Valley of West Virginia and Kentucky placing the feud in the context of community and regional change in the era of industrialization Waller argues that the legendary feud was not an outgrowth of an inherently violent mountain culture but rather one manifestation of a contest for social and economic control between local people and outside industrial capitalists the Hatfields were defending community autonomy while the McCoys were allied with the forces of industrial capitalism Profiling the colorful feudists Devil Anse Hatfield Old Ranel McCoy Bad Frank Phillips and the ill fated lovers Roseanna McCoy and Johnse Hatfield Waller illustrates how Appalachians both shaped and responded to the new economic and social order **Gender and Emotions in Medieval and Early Modern Europe: Destroying Order, Structuring Disorder** Susan Broomhall,2016-03-03 States of emotion were vital as a foundation to society in the premodern period employed as a force of order to structure diplomatic transactions shape dynastic and familial relationships and align religious beliefs practices and communities At the same time societies understood that affective states had the potential to destroy order creating undesirable disorder and instability that had both individual and communal consequences These had to be actively managed through social mechanisms such as children s education acculturation and training and also through religious intellectual and textual practices that were both socio cultural and individual Presenting the latest research from an international team of scholars this volume argues that the ways in which emotions created states of order and disorder in medieval and early modern Europe were deeply informed by contemporary gender ideologies Together the essays reveal the critical roles that gender ideologies and lived structured and desired emotional states played in producing both stability and instability **Waging War in Waziristan** Andrew M. Roe,2010 A career soldier with on the ground experience presents a gripping history of the imperial British experience in Waziristan a remote area of Pakistan Distills the hard earned British experience and offers some potentially useful lessons for the West and its current troubles in the same region once described as the epicenter of terrorism and reputedly the hiding place of Osama bin Laden **California. Triumph of the Spirit Lionel Lyles, 2000-12-14 One of the most formidable tasks that an individual faces today is to learn this simple truth That is life is a journey of self realization Getting thoughts create barriers that prohibit understanding An affected person is unconsciously misled to believe that the only reality that exists is the one experienced by the five senses As such spirituality is reduced to a mechanical affair where the soul is bound and heaven is perceived as being a distant place that is unexperienceable until after death The message contained in this book illuminates the idea heaven is a choice and it can be experienced NOW To claim this miracle for self it is necessary to re work the thoughts in the mind Those that create what is not wanted must be let go and as a mother bear protects her cub one must guard the thoughts allowed into the mind Taking personal responsibility is at the heart of this self work This personal revolution is a process Any courageous enough to claim it can expect to create the following intimate

The Human Potential for Peace Douglas P. Fry, 2006 In *The Human Potential for Peace An Anthropological Challenge to Assumptions about War and Violence* renowned anthropologist Douglas P Fry shows how anthropology with its expansive time frame and comparative orientation can provide unique insights into the nature of war and the potential for peace Challenging the traditional view that humans are by nature primarily violent and warlike Professor Fry argues that along with the capacity for aggression humans also possess a strong ability to prevent limit and resolve conflicts without violence He draws on data from cultural anthropology archaeology and sociology as well as from behavioral ecology and evolutionary biology to construct a biosocial argument that challenges a host of commonly held assumptions

Peyote Religion Omer Call Stewart, 1987 Describes the peyote plant the birth of peyotism in western Oklahoma its spread from Indian Territory to Mexico the High Plains and the Far West its role among such tribes as the Comanche Kiowa Kiowa Apache Caddo Wichita Delaware and Navajo Indians its conflicts with the law and the history of the Native American Church

Deterrence and Crime Prevention David M. Kennedy, 2012-08-06 Deterrence is at the heart of the preventive aspiration of criminal justice Deterrence whether through preventive patrol by police officers or stiff prison sentences for violent offenders is the principal mechanism through which the central feature of criminal justice the exercise of state authority works it is hoped to diminish offending and enhance public safety And however well we think deterrence works it clearly often does not work nearly as well as we would like and often at very great cost Drawing on a wide range of scholarly literatures and real world experience Kennedy argues that we should reframe the ways in which we think about and produce deterrence He argues that many of the ways in which we seek to deter crime in fact facilitate offending that simple steps such as providing clear information to offenders could transform deterrence that communities may be far more effective than legal authorities in deterring crime that apparently minor sanctions can deter more effectively than draconian ones that groups rather than individual offenders should often be the focus of deterrence that existing legal tools can be used in unusual but greatly more effective ways that even serious offenders can be reached through deliberate moral engagement and that authorities communities and offenders no matter how divided share and can occupy hidden common ground The result is a sophisticated but ultimately common sense and profoundly hopeful case that we can and should use new deterrence strategies to address some of our most important crime problems Drawing on and expanding on the lessons of groundbreaking real world work like Boston s Operation Ceasefire credited with the Boston Miracle of the 1990s Deterrence and Crime Prevention is required reading for scholars law enforcement practitioners and all with an interest in public safety and the health of communities
