**Counterculture Green** Andrew G. Kirk, 2007 For many it was more than a publication it was a way of life. The Whole Earth Catalog billed itself as Access to Tools and it grew from a Bay Area blip to a national phenomenon catering to hippies do it yourselfers and anyone interested in self sufficiency independent of mainstream America now known as living off the grid. In recovering the history of the Catalog's unique brand of environmentalism historian Kirk recounts how Stewart Brand and the Point Foundation promoted a philosophy of pragmatic environmentalism that celebrated technological achievement human ingenuity and sustainable living. Kirk shows us that Whole Earth was more than a mere counterculture fad. At a time when many of these ideas were seen as heretical to a predominantly wilderness based movement it became a critical forum for environmental alternatives and a model for how complicated ecological ideas could be presented in a hopeful and even humorous way.
