**Primates** Peter M. Kappeler,David P. Watts,2012-01-06 Some primate field studies have been on going for decades covering significant portions of individual life cycles or even multiple generations In this volume leading field workers report on the history and infrastructure of their projects in Madagascar Africa Asia and South America More importantly they provide summaries of their long term research efforts on primate behaviour ecology and life history highlighting insights that were only possible because of the long term nature of the study The chapters of this volume collectively outline the many scientific reasons for studying primate behaviour ecology and demography over multiple generations This kind of research is typically necessitated by the relatively slow life histories of primates Moreover a complete understanding of social organization and behaviour factors often influenced by rare but important events requires long term data collection Finally long term field projects are also becoming increasingly important foci of local conservation activities      **Field Studies of the Crown-gall**

Kreske, 1996-08-01 Environmental Impact Statements focuses on the roles of the various participants in the EIS review process Whether you are an EIS author or reviewer member of a public agency a private sector consultant a developer environmental activist or private citizen understanding your own role and the roles of others in the process will increase your effectiveness reduce duplication of effort and save time and money This hands on guide offers a unique comprehensive approach to preparing managing and reviewing an EIS It chronicles the preparation process step by step from kickoff meeting through final submission and unlike other books it integrates technical discussions on the regulatory environment and impact analysis into the planning chronology instead of treating them independently The book's combined emphasis on process and interaction of roles enables participants to adapt each step to their own federal or state EIS projects

Author Diori Kreske explains all concepts needed to understand the EIS process and presents them first at an introductory level and later in greater detail. In the first half of the book she introduces readers to the EIS process, defines the roles and responsibilities of major participants and discusses the process in relation to federal and state requirements and court decisions. Then Kreske concentrates on the nuts and bolts of preparing and managing an EIS. She describes how to build an EIS team, establish the statement's framework, manage the preparation process, determine when and how to involve the public and write and review EISs. Whatever your role in the EIS process and wherever your interests lie, this invaluable resource will help you develop a clear understanding of your responsibilities within the defined requirements and ensure that the process will be more effective in accomplishing its stated purpose to reduce the negative impacts of our actions on the environment. Environmental Impact Statements is the first book to approach the preparation and management of the EIS process through the roles and responsibilities of process participants. It enables participants to reduce conflicts, avoid duplication of effort and most importantly produce a more useful EIS. This invaluable book provides a step by step guide to preparing an EIS that can be readily adapted to any state or federal EIS project. It also explains major participants' roles and how their responsibilities and goals can be effectively integrated into the process. Describes the responsibilities and perspectives of both the public and private sectors. Gives how to advice on preparing and managing the EIS process. Offers suggestions on how EIS teams can streamline the process and reduce time effort and paperwork. Provides case studies that illustrate the preparation and management of EISs. Includes numerous illustrations, an extensive list of acronyms and appendices useful in preparing EISs including NEPA and CEQ regulations. For anyone involved in the EIS process, this unique resource will make you a more effective participant and help you produce a more accurate, reliable and effective EIS.
