Fighting For Time The Image Of War Volume 4:

The Image of War; Volume 4 William Davis, 1983 **Andersonvilles of the North** James Massie Gillispie, 2008 Andersonvilles of the North by James M Gillispie represents the first broad study to argue that the image of Union prison officials as negligent and cruel to Confederate prisoners is severely flawed This study is not an attempt to whitewash Union prison policies or make light of Confederate prisoner mortality But once the careful reader disregards unreliable postwar polemics and focuses exclusively on the more reliable wartime records and documents from both Northern and Southern sources then a much different less negative picture of Northern prison life emerges While life in Northern prisons was difficult and potentially deadly no evidence exists of a conspiracy to neglect or mistreat Southern captives Confederate prisoners suffering and death were due to a number of factors but it would seem that Yankee apathy and malice were rarely among them BOOK JACKET The Business of Captivity Michael P. Gray, 2001 One of the many controversial issues to emerge from the Civil War was the treatment of prisoners of war At two stockades the Confederate prison at Anderson and the Union prison at Elmira suffering was accute and mortality was high This work explores the economic and social impact of The Bell Irvin Wiley Reader Hill Jordan, James I. Two Civil Wars Katherine Bentley Jeffrey, 2016-04-11 Two Civil Wars is both an edition of an unusual Civil War era double journal and a narrative about the two writers who composed its contents The initial journal entries were written by thirteen year old Celeste Repp while a student at St Mary's Academy a prominent but short lived girls school in midcentury Baton Rouge Celeste's French compositions dating from 1859 to 1861 offer brief but poignant meditations describe seasonal celebrations and mention by name both her headmistress Matilda Victor and French instructor and priest Father Darius Hubert Immediately following Celeste's prettily decorated pages a new title page intervenes introducing An Abstract Journal Kept by William L Park of the U S gunboat Essex during the American Rebellion Park's diary is a fulsome three year account of military engagements along the Mississippi and its tributaries the bombardment of southern towns the looting of plantations skirmishes with Confederate guerillas the uneasy experiment with contrabands freed slaves serving aboard ship and the mundane circumstances of shipboard life Very few diaries from the inland navy have survived and this is the first journal from the ironclad Essex to be published Jeffrey has read it alongside several unpublished accounts by Park s crewmates as well as a later memoir composed by Park in his declining years It provides rare insight into the culture of the ironclad fleet and equally rare firsthand commentary by an ordinary sailor on events such as the sinking of CSS Arkansas and the prolonged siege of Port Hudson Jeffrey provides detailed annotation and context for the Repp and Park journals filling out the biographies of both writers before and after the Civil War In Celeste's case Jeffrey uncovers surprising connections to such prominent Baton Rouge residents as the diarist Sarah Morgan and explores the complexity of wartime allegiances in the South through the experiences of Matilda Victor and Darius Hubert She also unravels the mystery of how a southern youngster's school scribbler found its way into the hands of a Union sailor In so doing she provides a richly detailed picture of occupied Baton Rouge and especially of events surrounding the Battle of Baton Rouge in August 1862 These two unusual personal journals linked by curious happenstance in a single notebook open up intriguing provocative and surprisingly complementary new vistas on antebellum Baton Rouge and the Civil War on the Mississippi The North American Indian. W. M. Hichberger, 2017-03-01 In an age when engraving and photography were making artistic images available to a much wider public artists were able to influence public attitudes more powerfully than ever before This book examines works of art on military themes in relation to ruling class ideologies about the army war and the empire The first part of the book is devoted to a chronological survey of battle painting integrated with a study of contemporary military and political history. The chapters link the debate over the status and importance of battle painting to contemporary debates over the role of the army and its function at home and abroad The second part discusses the intersection of ideologies about the army and military art but is concerned with an examination of genre representations of soldiers Another important theme which runs through the book is the relation of English to French military art During the first eighty years of the period under review France was the cynosure of military artists the school against which British critics measured their own and the place from which innovations were imported and modified In every generation after Waterloo battle painters visited France and often trained there The book shows that military art or the absence of it was one of the ways in which nationalist commentators articulated Britain's moral superiority. The final theme which underlies much of the book is the shifts which took place in the perception of heroes and hero worship Brown's Body Franny Nudelman, 2015-12-01 Singing John Brown's Body as they marched to war Union soldiers sought to steel themselves in the face of impending death As the bodies of these soldiers accumulated in the wake of battle writers artists and politicians extolled their deaths as a means to national unity and rebirth Many scholars have followed suit and the Civil War is often remembered as an inaugural moment in the development of national identity Revisiting the culture of the Civil War Franny Nudelman analyzes the idealization of mass death and explores alternative ways of depicting the violence of war Considering martyred soldiers in relation to suffering slaves she argues that responses to wartime death cannot be fully understood without attention to the brutality directed against African Americans during the antebellum era Throughout Nudelman focuses not only on representations of the dead but also on practical methods for handling studying and commemorating corpses She narrates heated conflicts over the political significance of the dead whether in the anatomy classroom or the Army Medical Museum at the military scaffold or the national cemetery the corpse was prized as a source of authority Integrating the study of death oppression and war John Brown s Body makes an important contribution to a growing body of scholarship that meditates on the relationship between violence and culture **Meserve Civil War Record** Richard Alden Huebner,1987
