Sociological Life Course Research Matthias Wingens, 2022-08-04 This introductory book provides an insight into sociological life course research and informs about its theoretical assumptions analytical concepts and main results Sociological life course research like biographical research has developed into an independent and fruitful field of research since the end of the 1960s It is true that half a century earlier in their famous study of The Polish Peasant in Europe and America 1918 20 Thomas and Znaniecki had already used life records to examine the connection between social change social structures and the life histories of individuals However such a research perspective was supplanted by other methodological conceptual approaches to empirical social research for over fifty years It was not until the 1960s that sociological interest in life course and biographical theoretical issues reawakened Today life course research is considered one of the most important conceptual innovations in sociology in recent decades The content The life course as a social construction What is life course research The life course as an institution Collective life courses generations cohorts and social change Structures of the life course Life course research a conceptual perspective Life course research quo vadis The author Prof Dr Matthias Wingens teaches sociology at the University of Bremen Bremen International Graduate School of Social Sciences BIGSSS **Work, Family and Religion in Contemporary Society** Nancy Tatom Ammerman, Wade Clark Roof, 2014-02-04 Until recently religious institutions have been organized to suit the traditional American family where the wife stayed at home caring for children Today churches and synagogues are beginning to adapt to the reality of the American family dual career marriages high levels of divorce interfaith marriages partnerships that may not be marriages Religious organizations must serve families that don t fall into the Ozzie and Harriet mold The first group of papers in this edited volume documents changing trends in the connection between religion work and the family In the second part of the book we see how changing families and flexible congregations are experimenting with new forms of religious life *The Concept of Work* Herbert Applebaum, 1992-09-30 This book presents an analysis and review of work starting with the Homeric period then dealing with classical Greece and classical Rome the early Christians and Jews the early Middle Ages the era of Charlemagne the high Middle Ages the views of Luther and Calvin the English and French Enlightenment the nineteenth century the twentieth century and prospects for the future of work It offers a rich and varied tapestry on the complexity of

values regarding work criss crossing through crafts occupations and professions through slave and free born employments through lay and religious figures and through rural and urban contexts The permutations of work and its meanings are traced and related to the social and cultural contexts of each period of history dealt with ancient medieval and modern Applebaum offers projections for work in the future based on modern day technologies along with work within the context of new social conditions created by industrial cultures in the modern period The future of work is examined as one of the key elements for the possibility of change in the social structure of industrial cultures At a time when so many people are questioning the work ethic this book provides a valuable perspective on work in past societies how it has developed and been transformed and what are its prospects for the future

Short-time Compensation Esther R. Johnson,1987 The New Spirit of Capitalism Luc Boltanski,Eve Chiapello,2018-01-16 New edition of this major work examining the development of neoliberalism In this established classic sociologists Luc Boltanski and Eve Chiapello get to the heart of contemporary capitalism Delving deep into the latest management texts informing the thinking of employers the authors trace the contours of a new spirit of capitalism They argue that beginning in the mid 1970s capitalism abandoned the hierarchical Fordist work structure and developed a new network based form of organization founded on employee initiative and autonomy in the workplace a putative freedom bought at the cost of material and psychological security This was a spirit in tune with the libertarian and romantic currents of the period as epitomized by dressed down cool capitalists such as Bill Gates and Ben and Jerry and as the authors argue a more successful pernicious and subtle form of exploitation In this new edition the authors reflect on the reception of the book and the debates it has stimulated

The New Spirit of Capitalism Eve Chiapello,Luc Boltanski,2018-01-16 In this major work sociologists Luc Boltanski and Eve Chiapello go to the heart of the changes in contemporary capitalism Via an unprecedented analysis of the latest management texts that have formed the thinking of employers in their reorganization of business the authors trace the contours of a new spirit of capitalism They argue that from the middle of the 1970s onwards capitalism abandoned the hierarchical Fordist work structure and developed a new network based form of organization that was founded on employee initiative and autonomy in the workplace a freedom that came at the cost of material and psychological security The authors connect this new spirit with the children of the libertarian and romantic currents of the late 1960s as epitomised by dressed down cool capitalists such as Bill Gates and Ben and Jerry arguing that they practice a more successful and subtle form of exploitation Now a classic work charting the sociological structure of neoliberalism Boltanski and Chiapello show how the new spirit triumphed thanks to a remarkable recuperation of the left s critique of the alienation of everyday life that simultaneously undermined their social critique In this new edition the two authors reflect on the reception of the book and the debates it has stimulated

Productive Engagement in Later Life Nancy Morrow-Howell,Ada C. Mui,2014-06-11 Productive Ageing is the involvement of older adults in society through employment volunteering caregiving education and skill building In 2020 there will be 248 million people

in China aged 60 and over At the same time the birth rate continues to drop and family structures are being transformed In the face of such pressing demographic challenges the productive engagement of older adults is a clear cut strategy to strengthen families and communities while simultaneously promoting the health of older adults From a human capital perspective an ageing population represents resources to address societal needs and the active engagement of older adults can enhance and maintain the physical mental and cognitive health of the older adults The challenge is to develop policies that support productive engagement and implement evidence based programs that create opportunities for older adults in active engagement in the community Contributions of older adults will be necessary for social and economic development of families communities and society Productive Engagement in Later Life covers the 2009 China conference on productive aging and discusses how to initiate and build productive aging agenda in China and around the globe This book was originally published as a special issue of China Journal of Social Work **Routledge Library Editions: Leisure Studies** Various,2021-07-14 This set of 12 volumes originally published between 1938 and 2001 amalgamates a wide breadth of research on Leisure Studies including works on young people and leisure the family and political influence on the leisure industry This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject how it has evolved over time and will be of particular interest to students of sociology and leisure studies

Current Issues in Labour Relations Alan Gladstone,Russell Landsbury,Jack Stieber,Tiziano Treu,Manfred Weiss,2019-07-08 No detailed description available for Current Issues in Labour Relations **The changing face of welfare** Goul Andersen, Jørgen,Guillemard, Anne-Marie,2005-10-12 There have been major shifts in the framework of social policy and welfare across Europe Adopting a multi level comparative and interdisciplinary approach this book develops a critical analysis of policy change and welfare reform in Europe The book applies a dynamic and change oriented perspective to shed light on policy changes that are often poorly understood in the welfare literature and contributes to a further development of the theoretical and conceptual frameworks for understanding social change Using citizenship as a focus several dimensions of change are analysed simultaneously changes in the discipline of social policy itself the changing character of social problems changes in social policy and citizenship and the emergence of new forms of social integration The book also speculates on how different dimensions of change are interlinked **The Sociology of Time** Jiří Šubrt,2021-10-26 In a critical comparative study of the sociological literature this book explores the term time and the various interconnections between time and a broad cluster of topics that create a conceptual labyrinth Various understandings of time manifest themselves in the context of many individual social problems there is no single vision in sociology of how to grasp time and address within social theory This book therefore attempts to define an approach to the concept of time and its associated terms duration temporality acceleration compression temporal structures change historical consciousness and others The volume is guided by a critical engagement with three main questions a the formation of human

understanding of time b the functioning of temporal structures at different levels of social reality c the role and place of time in general sociological theory
