*Jon Vickers* Jeannie Williams, 2007-05-31 The first biography of a legendary tenor More Than a Labour of Love Meg Luxton, 1980 Originally published in 1980 this new edition of More Than a Labour of Love is the first of our Women's Press Classics series which celebrates our most enduring titles Based on participant observation and in depth interviews this book describes the work women do in their homes caring for children and partners and maintaining the house It shows how their lives are shaped by domestic responsibilities and challenges the ways in which their work is neither recognized nor valued Arguing that the work they do is socially necessary and central to the economy it calls for a transformation of current social and economic relations Toward Defining the Prairies Robert Wardhaugh, 2001-04-30 New ways of thinking about literature and history have radically changed how we think about or even define a region like the Prairie West In fact the very concept of defining has come into question by new theoretical approaches and it may now seem a hopeless endeavour But the process of defining can be just as important as the actual production of a definition Toward Defining the Prairies highlights recent approaches to thinking about the Prairie West Bounded by pieces from well known historian Gerald Friesen and Governor General's Award winning writer Robert Kroetsch these 13 essays are as diverse as the region itself In their examination of different aspects of Prairie history literature climate society culture and identity they help to provide a new understanding of this place and of the complexities of its definition **The Geography of Manitoba** John Welsted, John Everitt, Christoph Stadel, 1996-03-15 Manitoba is more than one of Canada's three prairie provinces Encompassing 649 950 square kilometres its territory ranges from Canadian Shield to grassland parkland and subarctic tundra Its physical geography has been shaped by ice age glaciers while its human geography reflects the influences of its various inhabitants from the First Nations who began arriving over 9 000 years ago to its most recent immigrants This fascinating range of geographical elements has given Manitoba a distinct identity and makes it a unique area for study Geography of Manitoba is the first comprehensive guide to all aspects of the human and physical geography of this unique province Representing the work of 47 scholars and illustrated with over 200 maps diagrams and photographs it is divided into four main sections covering the major areas of the province's geography Physical Background People and Settlements Resources and Industry and Recreation As well as studying historical developments the contributors to Geography of Manitoba analyse recent political and economic events in the province including the effect of federal and provincial elections and international trade agreements They also comment on future prospects for the province considering areas as diverse as resource management and climatic trends *The History of Mining* Michael Coulson, 2012-11-12 THE INDUSTRY THAT FORGED THE MODERN WORLD Throughout history metals and raw materials have underpinned human activity So it is that the industry responsible for extracting these materials from the ground mining has been ever present throughout the history of civilisation from the ancient world of the Egyptians and Romans to the industrial revolution and the British Empire and through to the present

day with mining firms well represented on the world's most important stock indexes including the FTSE100. This book traces the history of mining from those early moments when man first started using tools to the present day where metals continue to underpin economic activity in the post industrial age. In doing so the history of mining methods, important events, technological developments, the important firms and the sparkling personalities that built the industry are examined in detail. At every stage as the history of mining is traced from 40 000BC to the present day the level of detail increases in accordance with the greater social and industrial developments that have played out as time has progressed. This means that a particular focus is given to the period since the industrial revolution and especially the 20th century. A look is also taken into the future in an effort to chart the direction this great industry might take in years to come. Many books have been written about mining, the majority have focused on a particular metal, geographical area, mining event or mining personality but **The History of Mining** has a broader scope and covers all of these essential and fascinating areas in one definitive volume. **Going Top Shelf**

Michael P. J. Kennedy, 2005. **Going Top Shelf** brings together for the first time in one collection some of Canada's best hockey poems and song lyrics. And for music lovers with a taste for contemporary Canadian music, this entertaining collection includes lyrics by The Tragically Hip, The Rheostatics, Kathleen Edwards, Stompin' Tom Connors and others. **Going Top Shelf** represents a cross section of Canada's poets and composers ranging from 19th century romantic poet Sir Charles G. C. Roberts to contemporary pop songstress Jane Siberry. Altogether more than 30 authors and songwriters from across Canada reflect an intriguing diversity of forms and literary expression. Yet in all the poems, ice or the sport played to extensively in Canada, upon it is used to express the ideas, beliefs and attitudes of this diverse group of Canadian authors. For the poetry scholar, for the lover of good music, for the hockey fan, this is a collection to be enjoyed. Indeed **Going Top Shelf** represents a literary top shelf of hockey poetry without equal. **Sept. 15, 1975** United States. Congress. House.
