occurred and explores what happens when opera is projected onto the medium of film Michal Grover Friedlander finds striking affinities between film and opera from Lon Chaney's classic silent film *The Phantom of the Opera* to the Marx Brothers' *A Night at the Opera* to Fellini's *E la nave va* One of the guiding questions of this book is what occurs when what is aesthetically essential about one medium is transposed into the aesthetic field of the other For example Grover Friedlander's comparison of an opera by Poulenc and a Rossellini film both based on Cocteau's play *The Human Voice* shows the relation of the vocal and the visual to be surprisingly affected by the choice of the medium Her analysis of the Marx Brothers' *A Night at the Opera* demonstrates how as a response to opera's infatuation with death cinema comically acts out a correction of opera's fate Grover Friedlander argues that filmed operas such as Zeffirelli's *Otello* and Friedrich's *Falstaff* show the impossibility of a direct transformation of the operatic into the cinematic Paradoxically cinema at times can be more operatic than opera itself thus capturing something essential that escapes opera's self-understanding A remarkable look at how cinema has been haunted and transformed by opera *Vocal Apparitions* reveals something original and important about each medium

**Drama and the World of Richard Wagner** Dieter Borchmeyer, 2003-11-30 Richard Wagner continues to be the most controversial artist in history a perpetually troubling figure in our cultural consciousness The unceasing debate over his works and their impact for and against is one reason why there has been no genuinely comprehensive modern account of his musical dramas until now Dieter Borchmeyer's book is the first to present an overall picture of these musical dramas from the standpoint of literary and theatrical history It extends from the composer's early works still largely ignored to the Ring Cycle and *Parsifal* and includes Wagner's unfinished works and operas he never set to music Through lively prose we come to see Wagner as a librettist and as a man of letters rather than primarily as musical composer Borchmeyer uncovers a vast field of cultural and historical cross references in Wagner's works In the first part of the book he sets out in search of the various archetypal scenes opening up the composer's dramatic workshop to the reader He covers all of Wagner's operas from early juvenilia to the canonical later works The second part examines Wagner in relation to political figures including King Ludwig II and Bismarck and importantly in light of critical reactions by literary giants Thomas Mann whom Borchmeyer calls a guiding light in this exploration of the fields that Wagner tilled and Nietzsche whose appeal to philology is a key source of inspiration in attempts to grapple with Wagner's works For more than twenty years Borchmeyer has placed his scholarship at the service of the famed Bayreuth Festival With this volume he gives us a summation of decades of engagement with the phenomenon of Wagner and at the same time the result of an abiding critical passion for his works *The Young Woman's Journal*, 1914 **The World Book**, 1918 **Sailors of the Cloud Ships** David Fooks, 2023-10-10 The Age of Sail wrought the greatest change to the world in the history of mankind possibly until the Age of Space Exploration From 1450 to 1850 the Western world experienced explosive and violent change most of it brought about by the great sailing ships of the era and driven by the personal ambition for power and riches in a handful of men and women who in many cases didn't have a clue

what they were getting into Today this exciting era receives just superficial coverage names dates and what was accomplished But behind these were real people and digging into their lives can bring up startling facts Columbus spent much of his life as a pirate Magellan wasn't the first to circumvent the globe Horatio Nelson England's greatest naval hero suffered from violent seasickness America's most famous lightkeeper recognized for saving as many as 32 drowning men over 52 years was a woman Women served as crew in the British Navy and fought alongside their husbands a two year old boy served as a midshipman and babies were born on Nelson's flagship during both the Battles of Trafalgar and the Nile The British monarchy financed and provided oversight for the largest slave transport company in history History can be humorous surprising and even shocking and it is anything but dull     *Nights at the opera* Nights,1905     Wagner's Life and Works: Biography.
