## **Florence And The Medici The Pattern Of Control:**

*Florence and the Medici* John Rigby Hale, 1983      Florence and the Medici J. R. Hale, 2001 The enduring fascination of the Medici emanates from their ability as individuals and as a family to control the government of Florence first within a quasi democratic system and finally through dynastic inheritance Based on the latest research Professor Hale s masterly study thus presents an account of the Medici that serves as a history of Florence from the early fifteenth to the early eighteenth century      **2000 Lectures and Memoirs** British Academy, 2001 Volume 111 of the Proceedings of the British Academy contains 12 British Academy lectures and 17 obituaries of Fellows of the British Academy      *Reforming Priests and Parishes* Kathleen Comerford, 2006-09-30 Reforming Priests and Parishes consists of case studies of diocesan seminaries in the Grand Duchy of Tuscany and the Republic of Lucca from 1563 1660s The major cases are Arezzo Siena Volterra and Lucca and the dioceses and institutions are examined in their financial educational and religious milieux Several other cases Florence Montepulciano Pienza and Pisa are treated in less detail to provide contextual interpretative focal points Most of the seminaries have never been treated in English language studies before and no comparative study exists in any language All of the case studies contain in depth analysis of rare primary source material      Florence and the Medici J. R. HALE, 1973

**The Marvel of Maps** Francesca Fiorani, 2005-01-01 Among the most beautiful and compelling works of Renaissance art painted maps adorned the halls and galleries of princely palaces This book is the first to discuss in detail the three dimensional display of these painted map cycles and their full meaning in Renaissance culture Art historian Francesca Fiorani focuses on two of the most significant and marvelous surviving Italian map murals the Guardaroba Nuova of the Palazzo Vecchio Florence commissioned by Duke Cosimo de Medici and the Gallery of Maps in the Vatican commissioned by Pope Gregory XIII Both cycles were not only pioneering cartographic enterprises but also powerful political and religious images Presenting an original interpretation of the interaction between art science politics and religion in Renaissance culture the book also offers fresh insights into the Medici and papal courts      **Building Renaissance Venice** Richard John Goy, 2006-01-01 This book brings to life the story of the construction of some of the most outstanding early Renaissance buildings in Venice Through a series of individual case studies Richard J Goy explores how and why great buildings came to be built He addresses the practical issues of constructing such buildings as the Torre dell Orologio in Piazza San Marco the Arsenale Gate and the churches of Santa Maria della Carita and San Zaccaria focusing particular attention on the process of patronage The book is the first to trace the complete process of creating important buildings from the earliest conception in the minds of the patrons the Venetian state or other institutional patrons through the choice of architect the employment of craftsmen and the selection of materials In an interesting analysis of the participants roles Goy highlights the emerging importance of the superintending master the protomaestro      Early Modern Habsburg Women Anne J. Cruz, Maria Galli Stampino, 2016-05-06 As the first comprehensive volume devoted entirely to women of both the Spanish and Austrian

Habsburg royal dynasties spanning the sixteenth and the seventeenth centuries this interdisciplinary collection illuminates their complex and often contradictory political functions and their interrelations across early modern national borders The essays in this volume investigate the lives of six Habsburg women who as queens consort and queen regent duchesses a vicereine and a nun left an indelible mark on the diplomatic and cultural map of early modern Europe Contributors examine the national and transnational impact of these notable women through their biographies and explore how they transferred their cultural religious and political traditions as the women moved from one court to another Early Modern Habsburg Women investigates the complex lives of Philip II's daughter the Infanta Catalina Micaela 1567-1597 her daughter Margherita of Savoy Vicereine of Portugal 1589-1655 and Maria Maddalena of Austria Grand Duchess of Florence 1589-1631 The second generation of Habsburg women that the volume addresses includes Philip IV's first wife Isabel of Borbón 1602-1644 who became a Habsburg by marriage Rudolph II's daughter Sor Ana Dorotea 1611-1694 the only Habsburg nun in the collection and Philip IV's second wife Mariana of Austria 1634-1696 queen regent and mother to the last Spanish Habsburg Through archival documents pictorial and historical accounts literature and correspondence as well as cultural artifacts such as paintings jewelry and garments this volume brings to light the impact of Habsburg women in the broader historical political and cultural contexts The essays fill a scholarly need by covering various phases of the lives of early modern royal women who often struggled to sustain their family loyalty while at the service of a foreign court even when protecting and preparing their heirs for rule

Interpreting the Renaissance Manfredo Tafuri, 2006-01-01 Tafuri studies the theory and practice of Renaissance architecture offering new and compelling readings of its various social intellectual and cultural contexts while providing a broad understanding of uses of representation that shaped the entire era He synthesizes the history of architectural ideas and projects through discussions of the great centers of architectural innovation in Italy Florence Rome and Venice key patrons from the middle of the fifteenth century Pope Nicholas V to the early sixteenth century Pope Leo X and crucial figures such as Leon Battista Alberti Filippo Brunelleschi Lorenzo de Medici Raphael Baldassare Castiglione and Giulio Romano Interpreting the Renaissance is an essential book for anyone interested in the architecture and culture of fifteenth and sixteenth century Italy

BOOK JACKET In Praise of Commercial Culture Tyler Cowen, Tyler Cowen, 2009-06-30 Does a market economy encourage or discourage music literature and the visual arts Do economic forces of supply and demand help or harm the pursuit of creativity This book seeks to redress the current intellectual and popular balance and to encourage a more favorable attitude toward the commercialization of culture that we associate with modernity Economist Tyler Cowen argues that the capitalist market economy is a vital but underappreciated institutional framework for supporting a plurality of coexisting artistic visions providing a steady stream of new and satisfying creations supporting both high and low culture helping consumers and artists refine their tastes and paying homage to the past by capturing reproducing and disseminating it Contemporary culture Cowen argues is flourishing in its

various manifestations including the visual arts literature music architecture and the cinema Successful high culture usually comes out of a healthy and prosperous popular culture Shakespeare and Mozart were highly popular in their own time Beethoven's later less accessible music was made possible in part by his early popularity Today consumer demand ensures that archival blues recordings a wide array of past and current symphonies and this week's Top 40 hit sit side by side in the music megastore High and low culture indeed complement each other Cowen's philosophy of cultural optimism stands in opposition to the many varieties of cultural pessimism found among conservatives neoconservatives the Frankfurt School and some versions of the political correctness and multiculturalist movements as well as historical figures including Rousseau and Plato He shows that even when contemporary culture is thriving it appears degenerate as evidenced by the widespread acceptance of pessimism He ends by considering the reasons why cultural pessimism has such a powerful hold on intellectuals and opinion makers

*Real Lives in the Sixteenth Century* Rebecca Ard Boone, 2018-04-19 *Real Lives in the Sixteenth Century* presents a global history using four sets of biographies to illustrate similar situations in different geographical regions The vibrant narratives span four continents and include the following pairs Henry IV of France and Hideyoshi of Japan H rrem Sultan Roxelana of the Ottoman Empire and Lady Zheng of the Ming Dynasty Afonso I of Kongo and Elizabeth I of England and Pope Clement VII and Moctezuma II of Mexico Through exploring the lives of eight individuals from a variety of cultural settings this book encourages students to think about the big questions surrounding human interactions and the dynamics of power It introduces them to a number of key historical concepts such as feudalism dynasticism religious syncretism and slavery and is a springboard into the history of the wider world blending together aspects of political cultural intellectual and material history Accessibly written and containing timelines genealogical tables and a number of illustrations for each biography *Real Lives in the Sixteenth Century* is the ideal introductory text for undergraduates of pre modern World History and of the sixteenth century in particular

**Roscoe and Italy** Stella Fletcher, 2016-04-08 Anglo Italian cultural connections in the eighteenth and nineteenth centuries have been the subject of numerous studies in recent decades Within that wider body of literature there has been a growing emphasis on appreciation of the history and culture of Renaissance Italy especially in nineteenth century Britain In 1954 J R Hale's *England and the Italian Renaissance* was a pioneering account of the subject followed in 1992 by Hilary Fraser's monograph *The Victorians and Renaissance Italy* and in 2005 by *Victorian and Edwardian Responses to the Italian Renaissance* edited by John E Law and Lene stermark Johansen There is however an obvious gap in the literature concerning the pivotal figure of William Roscoe 1753-1831 the first English language biographer of Lorenzo de Medici and of Pope Leo X The *Life of Lorenzo de Medici* called the Magnificent proved to be so popular as to prompt the claim that Roscoe effectively invented the Italian Renaissance as it has become understood by subsequent generations of readers in the English speaking world This collection of ten essays redresses the balance by examining Roscoe as biographer as a connoisseur of Italian literature and as a

collector of Italian works of art      **Twilight of the Renaissance** Daniel A. Crews, 2008-01-01 Crews focuses on Vald s s service as an imperial courtier and how his employments in Italy influenced both Spanish diplomacy and his own religious thought      Renaissance and Reformation James Patrick, 2007 Provides alphabetically arranged entries on the people issues and events of the European Renaissance and Reformation as well as individual entries on each country      **Between Worlds** Hava Tirosh-Rothschild, 2012-02-01 It is a work of sound scholarship dealing with an interesting historical figure and his unique cultural world The author focuses correctly on the transition from Italian to Ottoman Jewish culture in the life of David Messer Leon and reveals much about the continuities and discontinuities between both societies He nicely fuses social and intellectual history and uses a life to illuminate a number of interesting and important cultural trends among early modern Jews particularly the integration of kabbalah and philosophy Humanism and Thomism The presentation of the symbiotic nature of Jewish culture with contemporary intellectual trends and the appropriation of Christian theological strategies by a Jewish thinker to explain Judaism make this study a fascinating one      **The Late Medieval Age of Crisis and Renewal, 1300-1500** Clayton J. Drees, 2000-11-30 As part of a unique series covering the grand sweep of Western civilization from ancient to present times this biographical dictionary provides introductory information on 315 leading cultural figures of late medieval and early modern Europe Taking a cultural approach not typically found in general biographical dictionaries the work includes literary philosophical artistic military religious humanistic musical economic and exploratory figures Political figures are included only if they patronized the arts and coverage focuses on their cultural impact Figures from western European countries such as Italy France England Iberia the Low Countries and the Holy Roman Empire predominate but outlying areas such as Scotland Scandinavia and Eastern Europe are also represented Late medieval Europe was an age of crisis With the Papacy removed to Avignon the schism in the Catholic Church shook the very core of medieval belief The Hundred Years War devastated France The Black Death decimated the population Yet out of this crisis grew an age of renewal leading to the Renaissance The great Italian city states developed Humanism reawakened interest in the cultures of ancient Greece and Rome Dante and Boccaccio began writing in their Tuscan vernacular Italian artists became humanists and flourished As the genius of Italy began spreading to northern and western Europe at the end of the 15th century the age of renewal was completed This book provides thorough basic information on the major cultural figures of this tumultuous era of crisis and renewal      *Viewing Renaissance Art* The Open University, Open University Staff, 2007-01-01 This book focuses on the values priorities and motives of patrons and the purposes and functions of art works produced north and south of the Alps and in post Byzantine Crete It begins by considering the social range and character of Renaissance patronage and ends with a study of Hans Holbein the Younger and the reform of religious images in Basle and England *Viewing Renaissance Art* considers a wide range of audiences and patrons from the rulers of France to the poorest confraternities in Florence The overriding premise is that art was not a neutral matter of stylistic taste but an aspect

of material production in which values were invested whether religious cultural social or political **Piero di Cosimo**

Dennis Geronimus, Michael Kwakkelstein, 2019-03-25 The study of Piero di Cosimo belongs no less to the history of the imagination than to the history of art As was true for Giorgio Vasari five centuries ago Piero's intensely personal visual language remains a moving target for modern scholars Yet as surprising and strange as his pictorial solutions appear we have never known as much about Piero as we do today Freed from the powerful spell of Vasari's biography cum cautionary tale the Piero that emerges is not solely a conjurer of the uncanny but a sensitive observer of the emotions the natural and manmade worlds humans and beasts surfaces and coloristic effects phenomena material and ephemeral The conference from which the thirteen essays in this volume spring provided a forum for international scholars to continue the ongoing conversation and to ask new questions The latter address Piero's relationship to his artistic contemporaries north and south of the Alps the master's Marian imagery his intellectual engagement with classical traditions the dual themes of naturalism and exoticism and the latest technical findings Topics of investigation thus range as broadly as Piero's own versatile production uniting diverse fields and methods traversing regional boundaries and often venturing far beyond Florence's city walls into the wild Contributors are Ianthi Assimakopoulou Marina Belozerskaya Jean Cadogan Elena Capretti Alessandra Galizzi Kroegel Dennis Geronimus Guy Hedreen Sarah Blake McHam Anna Teresa Monti Paula Nuttall Roberta J M Olson Lesley Stevenson Lisa Venerosi Pesciolini and Elizabeth Walmsley *Southern Europe* Trudy Ring, Noelle Watson, Paul Schellinger, 2013-11-05 This five volume set presents some 1 000 comprehensive and fully illustrated histories of the most famous sites in the world Entries include location description and site details and a 3 000 to 4 000 word essay that provides a full history of the site and its condition today An annotated further reading list of books and articles about the site completes each entry The geographically organized volumes include Volume 1 The Americas 1 884964 00 1 Volume 2 Northern Europe 1 884964 01 X Volume 3 Southern Europe 1 884964 02 8 Volume 4 Middle East Africa 1 884964 03 6 Volume 5 Asia Oceania 1 884964 04 4 *Arts of Power* Randolph Starn, Loren Partridge, 2023-12-22 Jacob Burckhardt claimed that the state in Renaissance Italy became a work of art In this book the authors illuminate the corollary that art in Italy became a work of state They study centres of power under three distinctive governments a civic republic of the 14th century a princely court of the 15th and an absolutist state of the 16th The authors argue that no less than armies laws and taxes painted halls of state were strategic instruments tactical weapons and technical machines of government Jacob Burckhardt claimed that the state in Renaissance Italy became a work of art In this book the authors illuminate the corollary that art in Italy became a work of state They study centres of power under three distinctive governments a civic repu
