The Complete Poems of John Donne Robin Robbins, 2014-06-06 The Poems of John Donne is one volume paperback edition of the poems of John Donne 1572 1631 based on a comprehensive re evaluation of his work from composition to circulation and reception Donne's output is tremendously varied in style and form and demonstrates his ability to exercise his rhetorical capabilities according to context and occasion This edition aims to present the text of all his known poems from the epigrams songs and satires written for fellow young men about town to the more mature verse epistles and memorial elegies written for his patrons The Longman Annotated English Poets series traditionally aims to present poems in chronological order in this edition however the principle has been observed only within generic sections. This organisation reproduces the manner in which Donne's original readers first encountered the poems in the various manuscripts of his elegies and satires that circulated in Donne's lifetime Volume One contains the Epigrams Verse Letters to Friends Love Lyrics Love Elegies and Satires Volume Two contains the religious poems Wedding Celebrations Verse Epistles to Patronesses Commemorations and the Anniversaries The lyrics have been arranged alphabetically for ease of reference and because in all but a few cases precise date of composition is impossible to determine Each poem has extensive editorial commentary designed to put the twenty first century reader in possession of all that is necessary fully to appreciate Donne s work A substantial headnote sets each poem in its historical and literary context while the annotations give detailed guidance on the wealth of classical and religious allusions and give full representation to the literary historical and philosophical culture out of which the poems grew In keeping with the traditions of the series Donne's own text has been modernised in punctuation and spelling except where to do so would alter or disrupt a rhyme **Selected Poetry** John Donne, 1998 John Donne 1572 1631 is perhaps the most important poet of the seventeenth century In his day it seemed to his admirers that Donne had changed the literary universe and he is now widely regarded as the founder of the metaphysical school Donne's poetry is highly distinctive and individual adopting a multitude of rhythms images forms and personae from irresistible seducer to devout believer His greatness stems from the subtleties and ambivalences of tone that convey his remarkably modern awareness of the instability of the self This collection of Donne s verse is chosen from the Oxford Authors critical edition of his major works It includes a wide selection from his secular and divine poems such as the rebellious and libertine satires and love elegies the virtuoso Songs and Sonnets and the desperate passionate Holy Sonnets John Carey's introduction and extensive notes provide valuable insights into Donne s poetic genius John Donne: Collected Poetry John Donne, 2012-10-04 Regarded by many as the greatest of the Metaphysical poets John Donne 1572 1631 was also among the most intriguing figures of the Elizabethan age A sensualist who composed erotic and playful love poetry in his youth he was raised a Catholic but later became one of

the most admired Protestant preachers of his time The Collected Poetry reflects this wide diversity and includes his youthful songs and sonnets epigrams elegies letters satires and the profoundly moving Divine Poems composed towards the end of his life From joyful poems such as The Flea which transforms the image of a louse into something marvellous to the intimate and intense Holy Sonnets Donne breathed new vigour into poetry by drawing lucid and often startling metaphors from the world in which he lived His poems remain among the most passionate profound and spiritual in the English language **Complete Poems of John Donne...** John Donne, 1873 The Complete Poems of John Donne,...
