Come, Let Us Reason Together Fleur S. Houston, 2024-01-22 John Oman 1860 1939 was one of the most original and profound theologian philosophers of his generation Drawing on previously unpublished archival sources Houston traces the influences on Oman s Orkney childhood and his student days in Edinburgh University and the Divinity Hall of the United Presbyterian Church She reviews Oman s subsequent publications during his ministry in Alnwick and his influential career as professor of systematic theology and college principal at Westminster College Cambridge Houston describes the extent to which Oman s view of the world was challenged and affirmed by his experience of the First World War Oman s theological and religious perspectives summarized as reverence freedom and

sincerity are rooted in the concerns of daily life Oman's experiences and reflections are sure to stimulate challenge and inspire readers today as much as they did in his own time John Hick's Pluralist Philosophy of World Religions Paul Rhodes Eddy, 2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick's model of religious pluralism all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick's model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and an up to date summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world's religions understand the divine in often contradictory ways **Nonconformist Theology in the Twentieth Century** Alan P.F. Sell, 2012-09-17 This book is the first

comprehensive study of the systematic doctrinal and constructive theology produced within the major Nonconformist traditions during the twentieth century By the end of the nineteenth century modern biblical critical methods were fairly widely adopted evolutionary thought was in the air and doctrinal modifications especially concerning the fatherhood of God were underway Sell charts the influence on Nonconformist thinking in the twentieth century of the New Theology associated with R.J. Campbell the First World War the reception of Karl Barth the theological excitement of the 1960s and growing religious pluralism The second lecture concerns the major Christian doctrines of God Christ the Holy Spirit and the Trinity Whereas in the early decades of the century there was considerable emphasis upon the atonement during the concluding two decades the Trinity received more attention than had formerly been the case In Lecture Three attention is directed to ecclesiological and ecumenical themes The Nonconformists are presented as Protestant and as displaying some zeal in propagating their particular understanding of the Church The doctrinal aspects of their national and international moves toward inner family unity and of their broader ecumenical relationships are considered Eschatology is treated in the concluding lecture prior to Sell's assessment of the significance of twentieth century Nonconformist theology and his observations regarding its current state its future content and its practitioners **The Theological Education of the Ministry** Alan P.F. Sell, 2013-05-10 Unwilling on conscientious grounds to submit to the religious tests imposed by the Universities of Oxford and Cambridge the English and Welsh Dissenters of the second half of the seventeenth century established academies in which their young men many of them destined for the ministry might receive a higher education

From the eighteenth century onwards theological colleges devoted exclusively to ministerial education were founded while in Scotland historically and in England and Wales over the past 120 years freestanding university faculties of divinity theology have provided theological education to ordinands and others These diverse educational contexts are all represented in this collection of papers but the focus is upon those who taught in them Caleb Ashworth Daventry Academy John Oman Westminster Presbyterian College Cambridge N H G Robinson University of St Andrews Geoffrey F Nuttall New Congregational College London T W Manson University of Manchester Owen Evans University of Manchester and Hartley Victoria Methodist College the lone Methodist scholar discussed here and W Gordon Robinson and J H Eric Hull University of Manchester and Lancashire Independent College Between them these scholars covered the core disciplines of theological education biblical studies ecclesiastical history philosophy doctrine and systematic theology

The Changing Shape of English Nonconformity, 1825-1925 Dale A. Johnson, 1999 This book addresses several dimensions of the transformation of English Nonconformity over the course of an important century in its history It begins with the question of education for ministry considering the activities undertaken by four major evangelical traditions Congregationalist Baptist Methodist and Presbyterian to establish theological colleges for this purpose and then takes up the complex three way relationship of ministry churches colleges that evolved from these activities As author Dale Johnson illustrates this evolution came to have significant implications for the Nonconformist engagement with its message and with the culture at large These implications are investigated in chapters on the changing perception or understanding of ministry itself religious authority theological

questions such as the doctrines of God and the atonement and religious identity In Johnson's exploration of these issues conversations about these topics are located primarily in addresses at denominational meetings conferences that took up specific questions and representative religious and theological publications of the day that participated in key debates or advocated contentious positions While attending to some important denominational differences *The Changing Shape of English Nonconformity 1825-1925* focuses on the representative discussion of these topics across the whole spectrum of evangelical Nonconformity rather than on specific denominational traditions Johnson maintains that too many interpretations of nineteenth century Nonconformity especially those that deal with aspects of the theological discussion within these traditions have tended to depict such developments as occasions of decline from earlier phases of evangelical vitality and appeal This book instead argues that it is more appropriate to assess these Nonconformist developments as a collective necessary and deeply serious effort to come to terms with modernity and further to retain a responsible understanding of what it meant to be evangelical It also shows these developments to be part of a larger schema through which Nonconformity assumed a more prominent place in the English culture of the nineteenth and early twentieth centuries

The Quest for Authority Matthew Prevett, 2021-10-29 Authority lies at the very center of what it means to be called together in an ecclesial community and shapes how the Church understands its purpose and orders its activity It can manifest itself as something owned and used by those in power yet it is something fundamental to the entirety of Church life However while some polities exude authority in every pronouncement and every action other ecclesiologies find it more difficult to locate and express authority often needing a quest to explore and discover the authority that shapes the Church's life Focusing on the United Reformed Church in the United Kingdom this book explores the particular shaping and bringing

together that is a characteristic of a United and Reformed ecclesiology and examines how this influences ecclesial polity and practice Matthew Prevett argues that authority in ecclesial life can be understood historically and empirically drawing deeply from the well of tradition and history yet inspired by the social political and technological challenges of the twenty first century **An Introduction to Theology in Global Perspective** Stephen B. Bevans,2009 [Grasping Truth and Reality](#)

Donald Le Roy Stults,2009-02-26 When Lesslie Newbigin returned to Britain in 1974 after years of missionary service he observed that his homeland was as much a mission field as India where he had spent the majority of his missionary career He concluded that the Western world needed a missionary confrontation Instead of the traditional approach to missions however Newbigin realized that the Western world needed to be confronted theologically From his earliest days at Cambridge University Newbigin developed the theological convictions that shaped his understanding of the Christian faith and he used these theological convictions as criteria to evaluate the belief system of Western culture and to provide an answer to its dilemma The Enlightenment reintroduced humanism and dualism into Western culture which resulted on the loss of purpose and the rise of scepticism This book discusses Newbigin s theological convictions and how they factored into both his critique of and his solution to Western culture s spiritual and worldview problems Donald Le Roy cleverly explains Newbigin s solution to reintroduce the Christian belief system into Western culture in order to restore purpose and truth to Westerners and put them back in contact with true reality through Jesus Christ **An Actological Theology** Malcolm Torry,2024-05-30

An actology introduced by the first book in this series Actology Action Change and Diversity in the Western Philosophical Tradition understands reality as action in changing patterns Actological Readings in Continental Philosophy reads a number of continental philosophers through this lens and An Actology of the Given explores the concepts of the gift givenness and giving in the light of reality understood as action in changing patterns Mark s Gospel An Actological Reading is what it says it is An Actological Metaphysic is a more systematic treatment of cosmology and of such concepts as truth knowledge causality time space life and society to see what happens when they are understood actologically that is with reality understood as action in changing patterns An Actological Theology similarly asks what Christian theology might look like if God the universe ourselves and everything else is understood as action in changing patterns **Does God Love the Coronavirus?**

Stephen Bevans,Clemens Sedmak,2021-10-14 This book is a correspondence between two theologians and friends during the COVID 19 pandemic in 2020 21 In it the authors reflect on the nature of God the efficacy of prayer the value of experience the nature of theology itself the importance of Christian hope and many other topics The style is familiar and light rich and full of wisdom **Reformed Theology for the Third Christian Millennium** Brian Albert Gerrish,2003-01-01 This book is

comprised of the 2001 Sprunt Lectures at Union Theological Seminary and the Presbyterian School of Christian Education The pieces address differing aspects of Reformed theology from a variety of views each focusing on an important issue that engages Reformed thought at the beginning of the third Christian millennium Perspectives and contexts for the essays are

provided in the Introduction by B A Gerrish one of the most distinguished contemporary Reformed theologians *A Tangled Web* R. John Elford, David Gareth Jones, 2009 This book is the outcome of collaboration between medical and theological writers from within the Christian tradition Its aim is to explore ways in which medicine and theology can be complementary and to counter the frequent examples of the two disciplines being in disagreement The subjects chosen for discussion are selective and are grouped under three headings Theological Background Moral Boundaries and Regulation and Policy This enables the discussion to proceed from theology to specifics in medicine with a concluding emphasis on the practicalities of regulation and policy The book can therefore be read as an essay in applied ethics It seeks to discover how cherished theological beliefs can work themselves out in relation to some of the specific questions raised by modern medical technologies The argument throughout shows why theology has to listen carefully to medicine and how theology can then be of practical benefit in enabling medicine to exercise its social responsibilities
