**John Cage** Rob Haskins, 2013-02-15 American writer composer artist and philosopher John Cage 1912-92 is best known for his experimental composition 4 33 a musical score in which the performer does not play an instrument during the duration of the piece The purpose Cage said was for the audience to listen to the sounds of the environment around them while the piece was performed Groundbreaking pieces such as 4 33 as well as Sonatas and Interludes not only established Cage as a leading figure in the postwar avant garde movement but also cemented the enduring controversy surrounding his work In this new biography Rob Haskins explores Cage's radical approach to art and aesthetics and his belief that everyday life and art are one and the same Scrutinizing Cage's emphasis on chance over intention which rejected traditional artistic methods and caused an uproar among his peers Haskins elucidates the ideas that lay behind these pillars of Cage's work

Haskins also demystifies the influence of Eastern cultures particularly Zen Buddhism on Cage including his use of the Chinese text I Ching as his standard composition tool in all his work after 1951 Adding to our understanding of the art music and ideas of the twentieth century this book provides an engaging look at a man who continues to challenge and inspire artists worldwide

John Cage Julia Robinson, 2011-08-12 An extended trajectory of Cage literature from early critical reaction to writing by contemporaries to current scholarship John Cage 1912 1992 defined a radical practice of composition that changed the course of modern music and shaped a new conceptual horizon for postwar art Famous for his use of chance and silence in musical works a pioneer in electronic music and the nonstandard use of instruments Cage was one of the most influential composers of the last century This volume traces a trajectory of writings on the artist from the earliest critical reactions to the scholarship of today If the first writing on Cage in the American context often written by close associates with Cage s involvement seemed lacking in critical distance younger scholars a generation removed have recently begun to approach the legacy from a new perspective with more developed theoretical frameworks and greater skepticism This book captures that evolution The texts include discussions of Cage s work in the context of the New Music scene in Germany in the 1950s Yvonne Rainer s essay looking back on Cage and New York experimentalism of the 1960s a complex and original mapping of Cage s place in a wider avant garde genealogy that includes Le Corbusier and Moholy Nagy a musicologist s account of Cage s process of defining and formalizing his concept of indeterminacy and an analysis of Cage s project that considers his strategies of self representation as key to his unique impact on modern and postmodern art

John Cage's Theatre Pieces William Fetterman, 2012-10-12 The experimental composer John Cage 1912 1992 is best known for his works in percussion prepared piano and electronic music but he is also acknowledged to be one of the most significant figures in 20th century theatre In Cage s work in theatre composition there is a blurring of the distinctions between music dance literature art and everyday life Here William Fetterman examines the majority of those compositions by Cage which are audial as well as visual in content beginning with his first work in this genre in 1952 and continuing through 1992 Much of the information in this study comes from previously undocumented material discovered among the unpublished scores and notes of Cage and his frequent collaborator David Tudor as well as author s interviews with Cage and with individuals closely associated with his work including David Tudor Merce Cunningham Bonnie Bird Mary Caroline Richards and Ellsworth Snyder

missives range from lengthy reports of his early trips to Europe in the 1930s through his years with the dancer Merce Cunningham. They include correspondence with Peter Yates, David Tudor and Pierre Boulez among many others. Readers will enjoy Cage's commentary about the people and events of a transformative time in the arts as well as his meditations on the very nature of art. John Cage was one of America's most renowned composers from the 1940s until his death in 1992. But he was also a much admired writer and artist and a uniquely attractive personality able to present his ideas engagingly wherever he went. As an interview subject, he was a consummate professional. The main source of CageTalk, Dialogues with and about John Cage, is a panoply of vivid and compulsively readable interviews given to Peter Dickinson in the late 1980s for a BBC Radio 3 documentary. The original BBC program lasted an hour, but the full discussions with Cage and many of the main figures connected with him were not published until the first edition of this book. CageTalk also includes earlier BBC interviews with Cage, including ones by the renowned literary critic Frank Kermode and art critic David Sylvester. And Dickinson, the editor of this volume, contributes little-known source material about Cage's Musicircus and Roaratorio as well as a substantial introduction exploring the multiple roles that Cage's varied and challenging output played during much of the twentieth century and continued to play in the early twenty-first. Apart from the long interview with Cage himself, there are discussions with Bonnie Bird, Earle Brown, Merce Cunningham, Minna Lederman, Otto Luening, Jackson Mac Low, Peadar Mercier, Pauline Oliveros, John Rockwell, Kurt Schwertsik, Karlheinz Stockhausen, Virgil Thomson, David Tudor, La Monte Young and Paul Zukovsky. Most of the interviews were given to Peter Dickinson, but there are others involving Rebecca Boyle, Anthony Cheevers, Michael Oliver and Roger Smalley. Peter Dickinson, British composer and pianist, is Emeritus Professor, University of Keele and University of London, and has written or edited several books about twentieth-century music, including *Copland: Connotations* (Boydell Press, 2002) and *The Music of Lennox* (Berkeley, Boydell Press).

The Planetary Clock Paul Giles, 2021-02-11 The theme of *The Planetary Clock* is the representation of time in postmodern culture and the way temporality as a global phenomenon manifests itself differently across an antipodean axis To trace postmodernism in an expansive spatial and temporal arc from its formal experimentation in the 1960s to environmental concerns in the twenty first century is to describe a richer and more complex version of this cultural phenomenon Exploring different scales of time from a Southern Hemisphere perspective with a special emphasis on issues of

Indigeneity and the Anthropocene The Planetary Clock offers a wide ranging revisionist account of postmodernism reinterpreting literature film music and visual art of the post 1960 period within a planetary framework By bringing the culture of Australia and New Zealand into dialogue with other Western narratives it suggests how an antipodean impulse involving the transposition of the world into different spatial and temporal dimensions has long been an integral if generally occluded aspect of postmodernism Taking its title from a Florentine clock designed in 1510 to measure worldly time alongside the rotation of the planets The Planetary Clock ranges across well known American postmodernists John Barth Toni Morrison to more recent science fiction writers Octavia Butler Richard Powers while bringing the US tradition into juxtaposition with both its English Philip Larkin Ian McEwan and Australian Les Murray Alexis Wright counterparts By aligning cultural postmodernism with music Messiaen Ligeti Birtwistle the visual arts Hockney Blackman Fiona Hall and cinema Rohmer Haneke Tarantino this volume enlarges our understanding of global postmodernism for the twenty first century
