stopping at villages towns and sites which have featured so prominently in this region s artistic history From as early as the  
fourteenth century painting found a home beneath the azure skies of Roman civilization and prestigious art schools grew up  
in the prosperous cities of Nice Aix and Avignon Though initially the landscapes of Provence were relegated to the  
background of altarpieces the early presence of artists in the area prepared the terrain for a new flourishing of talent five  
centuries later Focusing on painters of the nineteenth and early twentieth centuries the author looks at works by local artists  
including Cezanne a native of Aix en Provence but also at the paintings of van Gogh Picabia Picasso Signac Cross Braque and  
Matisse The region s rich vegetation mountains shorelines and mesmerizing light became the catalyst for an explosive  
expression of talent van Gogh painted furiously during and after his stay in the asylum at Saint Remy the Fauves wildly  
colored paintings were inspired by the vibrant colors along the coast Bonnard s lush sense of color developed in his  
contemplation of the views from his villa in Le Cannet in Arles a ninety year old Picasso attended bullfights and sketched  
daily Over 130 paintings and 40 period photographs of the region illustrate the different styles inspired by Provence from  
realistic landscapes in the classical tradition to Impressionist and Fauve renditions This work is completed by a guide to the  
principal museums in the region and biographies of the artists discussed      *Peintres sculpteurs, architectes et autres*
