Williams Mellor, Phillips Foster, Russell H. Brannon, United States. Agency for International Development. Economics and  
Sector Planning Division, Wayne A. Schutjer, William Charles Merrill, 1975 *The President's Commission on Income  
Maintenance Programs: Technical Studies* United States President of the United States, 1970 Latinos in a Changing  
Society Edwin Meléndez, Martha Montero-Sieburth, 2007-02-28 Given the importance of Latino issues in the current social  
and economic times the publication of *Latinos in a Changing Society* is both timely and prescient in its contributions to the  
current discourse of how Latinos are being influenced by U S norms and culture and how Latinos are also affecting U S  
society This volume contributes to our need for comprehensive analysis of how Latin communities compare and contrast with  
other underserved groups It also examines how changes are taking place within specific Latino groups particularly between  
first and second generation Cubans returning Puerto Ricans Dominican poverty and emergent Mexican leaders in the New  
England area The opportunities that Latinos and dominant mainstream interests share are identified in this volume but so are  
the many areas in need of change In this current atmosphere of anger and suspicion toward immigrants this volume presents  
an analytical perspective that is too often absent from politically motivated debates about Latinos and their role in a changing  
society Undocumented immigrants are often portrayed as people who come to this country to take advantage of a generous  
welfare system contributing little to the economic and social development of the country This volume critically examines  
issues such as the Latino commitment to labor participation the ways that Latino parents engage in schools and in their  
communities health access and social programs the policing concerns within the Latino community the academic adjustments  
made by Latino college students as well as the educational opportunities that exist for Latinos across the country Unlike  
publications that seek to summarize knowledge about the Latino population in the United States *Latinos in a Changing  
Society* provides a broader range of insights into the types of policy analysis research and public consciousness needed to  
advance the educational social cultural and political participation and incorporation of Latinos in the new century This  
volume critically examines such issues as the disparity in poverty among Latino groups the lack of access to health services  
the Latino commitment to labor participation the ways that Latino parents engage in schools and in their communities and  
the educational dropout rates of Latinos across the country and the underlying causes of those rates Unlike publications that

*Foreign Direct Investment and the Chinese Economy* Chunlai Chen,2017-10-27 Foreign Direct Investment and the Chinese Economy provides a comprehensive overview of the impact of foreign direct investment with extensive empirical evidence on the Chinese economy over the last three and a half decades Migration and Remittances during the Global Financial Crisis and Beyond Ibrahim Sirkeci,Jeffrey H. Cohen,Dilip Ratha,2012-05-31 During the 2008 financial crisis the possible changes in remittance sending behavior and potential avenues to alleviate a probable decline in remittance flows became concerns This book brings together a wide array of studies from around the world focusing on the recent trends in remittance flows The authors have gathered a select group of researchers from academic practitioner and policy making bodies Thus the book can be seen as a conversation between the different stakeholders involved in or affected by remittance flows globally The book is a first of its kind attempt to analyze the effects of an ongoing crisis on remittance flows globally Data analyzed by the book reveals three trends First The more diversified the destinations and the labour markets for migrants the more resilient are the remittances sent by migrants Second the lower the barriers to labor mobility the stronger the link between remittances and economic cycles in that corridor And third as remittances proved to be relatively resilient in comparison to private capital flows many remittance dependent countries became even more dependent on remittance inflows for meeting external financing needs There are several reasons for migration and remittances to be relatively resilient to the crisis First remittances are sent by the stock cumulative flows of migrants not only by the recent arrivals in fact recent arrivals often do not remit as regularly as they must establish themselves in their new homes Second contrary to expectations return migration did not take place as expected even as the financial crisis reduced employment opportunities in the US and Europe Third in addition to the persistence of migrant stocks that lent persistence to remittance flows existing

migrants often absorbed income shocks and continued to send money home Fourth if some migrants did return or had the intention to return they tended to take their savings back to their country of origin Finally exchange rate movements during the crisis caused unexpected changes in remittance behavior as local currencies of many remittance recipient countries depreciated sharply against the US dollar they produced a sale effect on remittance behavior of migrants in the US and other destination countries
