century Work and Family in America Leslie Stebbins, 2001-08-13 Surveying current research findings social trends and public controversies Work and Family in America examines the changing cultures of the workplace family and home Once viewed as a women and day care problem work family now encompasses a vast and complex set of issues Eldercare Fatherhood Telecommuting Pay equity Employee productivity and retention Feminism Child care and childcare development Youth violence Welfare Nontraditional families and family values This extensive overview of this burgeoning field includes everything from a detailed history and statistics comparing trends in the United States and abroad to key legislation and legal cases It gives biographical sketches of well known activists like Betty Friedan Arle Hothschild and Rosabeth Moss Kanter Lesser known advocates like James A Levine director of the Fatherhood Project at the Family and Work Institute and MIT professor Lotte Bailyn who believes work should be organized around tasks not time are also included **Catching a Wave** Rory Dicker, Alison Piepmeier, 2016-02-01 Young women today have benefited from the strides made by grassroots social activists in the 1960s and 1970s yet they are hesitant to identify themselves as feminists and seem apathetic about carrying the torch of older generations to redress persistent sexism and gender based barriers Contesting the notion that we are in a post feminist age this provocative collection of original essays identifies a third wave of feminism The contributors argue that the next generation needs to develop a politicized collective feminism that both builds on the strategies of second wave feminists and is grounded in the material realities and culture of the twenty first century Organized in five sections that mirror the stages of consciousness raising this is an engaging often edgy look at a broad range of perspectives on the diversity complexity multiplicity and playfulness of the third wave It is also a call to action for new voices to redefine a feminism that is not only personally aware but also politically involved *9 to 5 Newsline*, 1997 **Office Worker Update**, 1995 Feminists Who Changed America, 1963-1975 Barbara J. Love, 2006-09-22 Documenting key feminists who ignited the second wave women s movement Barbara J Love s Feminists Who Changed America 1963 1975 will be the first comprehensive directory to document many of the founders and leaders including both well known and grassroots organizers of the second wave women s movement It tells the stories of more than two thousand individual women and a few notable men who together reignited the women s movement and made permanent changes to entrenched customs and laws The biographical entries on these pioneering feminists represent their many factions all parts of the country all races and ethnic groups and all political ideologies Nancy Cott s foreword discusses the movement in relation to the earlier first wave and presents a brief overview of the second wave in the context of other contemporaneous social movements The Work-Family Challenge Suzan Lewis, Jeremy Lewis, 1996-09-28 In The Work Family Challenge contributors from the United Kingdom Europe and the United States explore the possibilities of challenging traditional employment structures to take account of contemporary work and family realities They take a critical look at the notion of family friendly employment and explore ways in which the rapidly changing needs of both organizations and the workforce can be met The volume argues

that real progress requires moving the focus from specific policies and practices towards more systemic organizational change. It examines the contexts and opportunities global international national sociopolitical legal and economic for this change. The book concludes that positive solution

Couples Therapy Linda Berg Cross, 2013-12-16 Harness the power of an integrative approach to couples counseling. Why do marriages fail? The behaviorist or cognitive therapist explains that unhappy couples have self-defeating ways of thinking about their spouses and themselves. The sociologically oriented counselor points to the impact of social trends and dramatic changes in child rearing and social expectations. A therapist oriented toward psychodynamics or systems theory sees the destructive patterns of childhood replayed in the marriage with spouses taking on rigid roles. The pastoral or humanist counselor believes that partners who cannot experience self-fulfillment through commitment and trust will feel less love and grow more and more disconnected. **Couples Therapy Second Edition** brings together all these points of view to make a unified whole. This integrative approach proposes a new model of successful marriage based on four cornerstones: resiliency, social support, adaptability, and self-fulfillment. Weaving together theory and research, **Couples Therapy Second Edition** explores how common issues can lead to trouble in relationships. It suggests specific interventions so therapists can teach clients to deal with such problem areas as anger management, domestic violence, depression, anxiety, parenting conflicts, in-laws, work pressures, and sexual dissatisfaction. **Couples Therapy Second Edition** offers a sound theoretical framework as well as practical ideas. Through clinical vignettes and up-to-date research, it makes the common conflicts and developmental stages of marriage so understandable that it can be profitably read by clients as well as counselors. Its invaluable resources for the couples therapist include end-of-chapter professional development questions, therapeutic exercises, answers to frequently asked professional and ethical questions, intervention suggestions for the therapist, self-assessment questionnaires, book and video recommendations on each chapter topic. Written in clear, readable prose, **Couples Therapy Second Edition** offers practical help for the experienced clinician as well as theoretical overviews for the counselor in training.
