Joe The Only Boy In The World:

Joe Michael Blastland, 2011-05-26 An exceptionally haunting memoir that also shows us what it is to be really human In a hardware store Joe sits on a display toilet amidst the throng of customers and wees smiling serenely He thumps crying babies He is amazed when the car he runs in front of actually hits him Joe is ten and mentally disabled He s funny fascinating and maddening and this memoir tells his moving story but also argues that until we know Joe s life we can t understand our own Through philosophy psychology and medical research the author explains how we are mind readers how we make sense of other people and how we understand guilt and innocence and shows that Joe sets our humanity in sharp relief But in that case is Joe part of it The author who asks that outrageous question is Joe s father **Autism, Humanity and Personhood**

Jennifer Anne Cox, 2017-05-11 Theological anthropology is charged with providing an understanding of the human but there are numerous challenges to this Autism is a pervasive developmental disorder the main characteristic of which is difficulty in social interaction In its severest form a person with low functioning autism may be both intellectually impaired and unable to relate to others as persons Theological anthropology can exclude people who are cognitively impaired because it has historically upheld reason as the image of God Recent theology of intellectual disability has bypassed this difficulty by emphasising relationality as the image of God However this approach has the unfortunate consequence of excluding people with severe low functioning autism This calls for a new approach to theological anthropology Autism Humanity and Personhood provides a Christ centred inclusive anthropology which does not exclude people with severe autism The book takes a conservative evangelical approach to severe autism and the challenges it poses to theological anthropology It considers significant aspects of salvation history creation incarnation atonement and resurrection in order to build a solid theological foundation for an inclusive theological anthropology As long as we look within the individual it is difficult to find a solid basis for the humanity of people who are severely intellectually and developmentally impaired Instead of trying to ground humanity and personhood within the individual with autism the book outlines an extrinsic basis for theological anthropology That extrinsic basis is the gift of humanness and personhood from Jesus Christ who alone is fully human and the true image of God Jesus has overcome sin and death which have wreaked havoc on the human person Therefore his incarnate life death and resurrection are more than enough basis to declare that people with the most severe intellectual and developmental impairment are truly human persons **Boys of the World** ,1870 *American Magazine* ,1927
