McCall, 2010-07 Mrs McCall's roster of Georgia soldiers in the Revolution was compiled over many years The work as a whole is cumulative with only slight albeit significant differences in the kinds of information which may be found in one volume versus another Volume I of this work contains the records of hundreds of Revolutionary War soldiers and officers of Georgia with genealogies of their families and lists of soldiers buried in Georgia whose graves have been located Volumes II and III are also published by Clearfield Company The arrangement of Volume II is similar to that of Volume I however it contains records of officers and soldiers not only from Georgia but from other states many of whose descendants later came to Georgia because of liberal land grants Volume III the longest of the work is similar in scope to Volume II except that the majority of the entries are for Georgia officers and soldiers with only some material relating to other states The three volumes each of which is indexed refer to as many as 20 000 persons overall *Democratic Enterprise: Ethical business for the 21st century* Diarmuid McDonnell, 2012 The United Nations has declared 2012 to be the International Year of Co operatives in recognition of the impact that co operative

enterprise has on more than three billion people across the globe Co operatives contribute to national and local economies in virtually every country by championing an ethical approach to business underpinned by internationally agreed values and principles Yet despite the wide ranging successes of co operatives in financial terms as well as in the development of sustainable communities the study of these democratic forms of enterprise remains surprisingly absent from the curricula of most university business schools around the world Designed primarily for undergraduate students Democratic Enterprise provides an introductory level analysis of democratic models of enterprise namely co operatives and employee owned businesses A supplement to any course that deals with these topics it also stands alone as a template for academics who wish to incorporate material on democratic models of enterprise into courses relating to economics business studies sustainable development enterprise and organizational theory and behavior
