**No Duty to Retreat** Richard Maxwell Brown, 1992-01-23 In 1865 Wild Bill Hickok killed Dave Tutt in a Missouri public square in the West's first notable walkdown One hundred and twenty nine years later Bernhard Goetz shot four threatening young men in a New York subway car Apart from gunfire what could the two events possibly have in common Goetz writes Richard Maxwell Brown was acquitted of wrongdoing in the spirit of a uniquely American view of self defense a view forged in frontier gunfights like Hickok's When faced with a deadly threat we have the right to stand our ground and fight We have no duty to retreat No Duty to Retreat offers an engrossing account of how this idea of self defense emerged focusing in particular on the gunfights of the frontier and their impact on our legal traditions The right to stand one's ground Brown tells us appeared relatively recently Under English common law the threatened party had a legal duty to retreat to the wall before fighting back But from the nineteenth century on such authorities as Justice Oliver Wendell Holmes rejected this doctrine as unsuited to both the American mind and the age of firearms Brown sketches the influence of frontier violence demonstrating the tremendous impact of the famous gunmen and the prevalence of what he calls grassroots gunfighters unsung men who resorted to their guns at a moment's notice These duels ambushes and firefights he writes were more than personal vendettas They were part of a Western Civil War of Incorporation pitting gunmen usually Republicans and Unionists who sided with the expanding banks railroads and businesses against cowboys and independent farmers who were often Democrats sympathizing with the Confederacy Brown examines the gunfight near the O K Corral in this light showing how it was a climax of tensions between Tombstone's Republican businessmen represented by Wyatt Earp and the county's cowboys led by the Clantons and McLaurys He also looks at such lesser known battles as the Mussel Slough war in which resisting farmers imbued with the no retreat ethic fought for their independent lifestyle against encroaching rail barons This Civil War of Incorporation fed the violence of the West and reinforced the legal doctrine of no duty to retreat The frontier days are long past but Brown shows how the ethic of no retreat continues to shape everything from our entertainment to our foreign policy including President Bush's line drawn in the sand to our politics to cases like that of Bernhard Goetz Though challenged as never before by the values of peace and social activism it remains a central theme in American thought and character

**Represented** Brenna Wynn Greer,2019-06-14 In 1948 Moss Kendrix a former New Deal public relations officer founded a highly successful Washington D C based public relations firm the flagship client of which was the Coca Cola Company As the first black pitchman for Coca Cola Kendrix found his way into the rarefied world of white corporate America His personal phone book also included the names of countless black celebrities such as

bandleader Duke Ellington singer actress Pearl Bailey and boxer Joe Louis with whom he had built relationships in the course of developing marketing campaigns for his numerous federal and corporate clients Kendrix along with Ebony publisher John H Johnson and Life photographer Gordon Parks recognized that in the image saturated world of postwar America media in all its forms held greater significance for defining American citizenship than ever before For these imagemakers the visual representation of African Americans as good citizens was good business In *Represented* Brenna Wynn Greer explores how black entrepreneurs produced magazines photographs and advertising that forged a close association between blackness and Americanness In particular they popularized conceptions of African Americans as enthusiastic consumers a status essential to postwar citizenship claims But their media creations were complicated subject to marketplace dictates they often relied on gender class and family stereotypes Demand for such representations came not only from corporate and government clients to fuel mass consumerism and attract support for national efforts such as the fight against fascism but also from African Americans who sought depictions of blackness to counter racist ideas that undermined their rights and their national belonging as citizens The story of how black capitalists made the market work for racial progress on their way to making money reminds us that the path to civil rights involved commercial endeavors as well as social and political activism
