John Soane An Accidental Romantic:

John Soane Gillian Darley,1999-01-01 John Soane 1753 1837 was one of the most influential and original of all English architects In this lavishly illustrated biography Darley places Soane s life and buildings side by side and her insights into this complex man and his turbulent life add a great deal to the understanding of his extraordinary work 235 illustrations 75 in color Sir John Soane? Influence on Architecture from 1791 Oliver Bradbury,2017-07-05 Sir John Soane s Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect s impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753 1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane s late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane s influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane s is a continuing not negated legacy in architecture

Hidden Patrons Amy Boyington,2023-11-02 An enduring myth of Georgian architecture is that it was purely the pursuit of male architects and their wealthy male patrons History states that it was men who owned grand estates and houses who commissioned famous architects and who embarked upon elaborate architectural schemes *Hidden Patrons* dismantles this myth revealing instead that women were at the heart of the architectural patronage of the day exerting far more influence and agency than has previously been recognised Architectural drawing and design discourse and patronage were interests shared by many women in the eighteenth century Far from being the preserve of elite men architecture was a passion shared by both sexes intellectually and practically as long as they possessed sufficient wealth and autonomy In an accessible readable account *Hidden Patrons* uncovers the role of women as important patrons and designers of architecture and interiors in eighteenth century Britain and Ireland Exploring country houses Georgian townhouses villas estates and gardens it analyses female patronage from across the architectural spectrum and examines the work of a range of pioneering women from grand duchesses to businesswomen to lowly courtesans Re examining well known Georgian masterpieces alongside lesser known architectural gems *Hidden Patrons* unearths unseen archival material to provide a fascinating new view of the role of women in the architecture of the Georgian era *Architects' Drawings* Kendra Schank Smith,2006-08-11 Sketches from prominent architects drawn from an international selection A unique insight into how architects use sketches to develop

and transfer complex concepts into physical form enabling readers to improve the connection between their own ideas and designs Reveals the secrets of the most successful sketching techniques used by architects for today s designers **London**

Tim Adams,Robert Kahn,2001 Weather Architecture Jonathan Hill,2013-06-17 Weather Architecture further extends Jonathan Hill s investigation of authorship by recognising the creativity of the weather At a time when environmental awareness is of growing relevance the overriding aim is to understand a history of architecture as a history of weather and thus to consider the weather as an architectural author that affects design construction and use in a creative dialogue with other authors such as the architect and user Environmental discussions in architecture tend to focus on the practical or the poetic but here they are considered together Rather than investigate architecture s relations to the weather in isolation they are integrated into a wider discussion of cultural and social influences on architecture The analysis of weather s effects on the design and experience of specific buildings and gardens is interwoven with a historical survey of changing attitudes to the weather in the arts sciences and society leading to a critical re evaluation of contemporary responses to climate change

Articulating British Classicism Elizabeth McKellar,2017-07-05 Whereas the past decades have seen a profound reconsideration of eighteenth century visual culture the architecture of that century has undergone little evaluation Its study unlike that of the early modern period or the twentieth century has continued to use essentially the same methods and ideas over the last fifty years Articulating British Classicism reconsiders the traditional historiography of British eighteenth century architecture as it was shaped after World War II and brings together for the first time a variety of new perspectives on British classicism in the period Drawing on current thinking about the eighteenth century from a range of disciplines the book examines such topics as social and gender identities colonialization and commercialization notions of the rural urban and suburban as well as issues of theory and historiography Canonical constructions of Georgian architecture are explored including current evaluations of the continental intellectual background the relationship with mid seventeenth century Stuart court classicism and the development of the subject in the twentieth century **Glorious Visions** Helene

Furján,2011-05-05 Focusing on the house and museum and its considerable collections of architectural fragments models drawings folios and publications this book is about thirteen Lincoln s Inn Fields in London England built in the early 1800s by the renowned eighteenth century architect Sir John Soane The book maps the influences references connections extensions and productions at play in Soane s house museum The house still a public museum was highly original in its period and it continues to influence and impress architects and historians alike Today s visitor is confronted by a dense complex series of spaces a strange accumulation of rooms objects and effects This book examines the ways in which Soane enlisted light shadow color fiction and narrative vistas spatial complexity the fragment and the mirror to produce a spectacular space

The Oxford Dictionary of Architecture James Stevens Curl,Susan Wilson,2015 With over 6 000 entries this is the most authoritative dictionary of architectural history available *Cities and the Grand Tour* Rosemary Sweet,2012-10-04 A

fascinating study of how British travellers experienced described and represented the cities they visited on the Grand Tour

The Oxford Handbook of Victorian Medievalism Joanne Parker, Corinna Wagner, 2020 The Oxford Handbook of Victorian Medievalism Covers all aspects of medievalism in Victorian Britain Contextualizes the phenomenon historically with chapters looking at earlier centuries Relates Victorian medievalism to medievalism in other countries Book jacket **Res** Francesco Pellizzi, 2008-02-15 Res is a journal of anthropology and comparative aesthetics dedicated to the study of the object in particular cult and belief objects and objects of art The journal presents contributions by philosophers art historians archaeologists critics linguists architects artists among others *Freemasonry and Rudolf Steiner* N.V.P

Franklin, 2020-10-16 Today some six million Freemasons around the world continue to perform their rituals regularly an enormous legacy of spiritual endeavour kept largely in secret In Britain alone there are over 7 000 lodges with a quarter of a million members What is this wealth this appeal and how did the philosopher and spiritual scientist Rudolf Steiner reinterpret or reconstruct Freemasonry's time worn legacy Unless one is a Freemason the masonic world with its arcane conventions and language remains largely unknown an obscurity that is almost impossible to fathom Yet understanding its traditions and style are invaluable when approaching Goethe Mozart Herder Lessing and Novalis as well as Rudolf Steiner Steiner himself renewed the Royal Art of Freemasonry from 1906 to 1914 through his ritual work known as *Mystica terna* When Steiner invigorated education medicine the social order and religion he fully intended that committed and professional individuals should assume responsibility for the new initiatives But this was not the case with the Masonic Order he founded whose leadership he took upon himself Even the celebration of his passing in 1925 led by Marie Steiner was entirely Masonic in character In the context of continuing resistance and misrepresentation N V P Franklin uncovers the living heart of Freemasonry and reveals why it was and still is immensely relevant to anthroposophy With profound research into its older rituals and teachings this detailed and conscientious study is a unique contribution to comprehending freemasonry and anthroposophy both historically and in the present day **Place-making** John Phibbs, 2017-05-22 Lancelot Capability Brown

1716-1783 is the iconic figure at the head of the English landscape style a tradition that has dominated landscape design in the western world He was widely acclaimed for his genius in his own day and his influence on the culture of England has arguably been as great as that of Turner Telford and Wordsworth Yet although Brown has had his biographers his work has generated very little analysis Brown was prolific he has had a direct influence on half a million acres of England and Wales The astonishing scale of his work means that he did not just transform the English countryside but also our idea of what it is to be English and what England is His work is everywhere but goes largely unnoticed His was such a naturalistic style that all his best work was mistaken for untouched nature This has made it very difficult to see and understand Visitors to Brown landscapes do not question the existence of the parkland he created and there has been little professional or academic analysis of his work This book for the first time looks at the motivation behind Brown's landscapes and questions their value

and structure whilst at the same time placing him within the English landscape tradition It aims primarily to make landscape legible to show people where to stand what to look at and how to see **John Evelyn** Gillian Darley,2006-01-01 This new biography is the first to make full use of Evelyn s huge unpublished archive deposited at the British Library in 1995 This crucial source evokes a broader and richer picture of Evelyn his life and his friendships than permitted by his own celebrated diaries Dust jacket **Travel and the British country house** Jon Stobart,2017-11-06 Travel and the British country house explores the ways in which travel by owners visitors and material objects shaped country houses during the long eighteenth century It provides a richer and more nuanced understanding of this relationship and how it varied according to the identity of the traveller and the geography of their journeys The essays explore how travel on the Grand Tour and further afield formed an inspiration to build or remodel houses and gardens the importance of country house visiting in shaping taste amongst British and European elites and the practical aspects of travel including the expenditure involved Suitable for a scholarly audience including postgraduate and undergraduate students but also accessible to the general reader Travel and the British country house offers a series of fascinating studies of the country house that serve to animate the country house with flows of people goods and ideas *Metropolitan Art and Literature, 1810-1840* Gregory Dart,2012-07-26 Gregory Dart expands upon existing notions of Cockneys and the Cockney School in the late Romantic period by exploring some of the broader ramifications of the phenomenon in art and periodical literature He argues that the term was not confined to discussion of the Leigh Hunt circle but was fast becoming a way of gesturing towards everything in modern metropolitan life that seemed discrepant and disturbing Covering the ground between Romanticism and Victorianism Dart presents Cockneyism as a powerful critical currency in this period which helps provide a link between the works of Leigh Hunt and Keats in the 1810s and the early works of Charles Dickens in the 1830s Through an examination of literary history art history urban history and social history this book identifies the early nineteenth century figure of the Cockney as the true ancestor of modernity **Lodgers, Landlords, and Landladies in Georgian London** Gillian Williamson,2021-07-15 A large proportion of London s population lived in lodgings during the long 18th century many of whom recorded their experiences In this fascinating study Gillian Williamson examines these experiences recorded in correspondences and autobiographies to offer unseen insights into the social lives of Londoners in this period and the practice of lodging in Georgian London Williamson draws from an impressive array of sources archives newspapers OBSP trials and literary representations to offer a thorough examination of lodging in London to show how lodging and lodging houses sustained the economy of London during this time Williamson offers a fascinating insight into the role lodging houses played as the facilitators of encounters and interactions which offers an illuminating depiction of social relations beyond the family The result is an important contribution to current historiography of interest to historians of Britain in the long 18th century Imperial Conversations Shanti Jayewardene-Pillai,2007 The eighteenth century was a time of profound upheaval when economic and political control

of southern India passed from native kings to the East India Company Hand in hand with the resultant conflicts and skirmishes a process of cultural sharing was gaining ground which went on to manifest itself in the form of a flourishing imperial cultural in the nineteenth century

Boconnoc Catherine Lorigan, 2017-07-01 The story of the estate at Boconnoc situated near Lostwithiel in south east Cornwall is an extraordinary one As this history demonstrates members of the Cornish families who have owned the estate over many centuries have played important roles within the immediate locality and in national events Catherine Lorigan explores their eventful lives or in many cases deaths dragged over a cliff by greyhounds slain in battle executed for treason or killed in duels She traces how the medieval fortified tower house evolved into a Georgian mansion discusses how the grounds and gardens have been transformed and examines the relationship of the estate with the agricultural and industrial landscape in which it is set Still family owned and run Boconnoc retains the qualities that give it its magical and timeless ambience while simultaneously it has become a dynamic and successful business for the twenty first century
