clear exposition of both sides of this argument and assumes no prior knowledge of philosophy Topics discussed include moral observation moral motivation amorality and wickedness moral weakness cultural relativism and utilitarianism The book concludes that a convincing case can be made out for a radical form of moral realism in which moral virtue is found not in the following of correct moral principles but rather in the development of moral sensitivity Moral Vision is a clear and engaged introduction to an important and often troubling debate And Introduction to Ethics William Lillie, 2021 *Ethics* Simon Blackburn, 2003-05-08 Our self image as moral well behaved creatures is dogged by scepticism relativism hypocrisy and nihilism by the fear that in a Godless world science has unmasked us as creatures fated by our genes to be selfish and tribalistic or competitive and aggressive In this sparkingly clear Guardian introduction to ethics Simon Blackburn tackles the major moral questions surrounding birth death happiness desire and freedom showing us how we should think about the meaning of life and how we should mistrust the soundbite sized absolutes that often dominate moral debates ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Introduction to Applied Ethics** Robert L.
