One Health Case Studies: Addressing Complex Problems in a Changing World Susan C. Cork, David Hall, Karen Liljebjelke, 2016-11-14 One Health refers to an interdisciplinary approach to solving complex problems at the interface of human and animal health and the wider ecosystem. It represents an integrated and collaborative approach and addresses diverse issues such as the detection and management of emerging and re-emerging infectious and non-infectious diseases, food and water security, food hygiene, and global trade. Many complex problems that we currently face must consider anthropogenic factors as well as climate change, environmental impact, international collaboration, tourism, the human-animal bond, economics, plant health, and myriad other factors. This book discusses complex concepts in One Health such as preparedness, planning, national level governance, inter-agency co-operation, climate change, human activity in sensitive ecosystems, the global food trade, and food safety, antimicrobial resistance, surveillance, and communication from policy level to practical application. The book uses real-world case studies from different geographical regions ranging from Asia to the Arctic, different environments from the jungle to the oceans, and different species including bees, fish, domestic and wild animals, and humans. The cases are prepared by experts with a diverse range of experience and provide a unique and fascinating on-the-ground approach to One Health topics in practice. One Health Case Studies is an ideal resource for students and practitioners in veterinary medicine, human medicine, public health, agriculture, wildlife management, ecosystem health, and environmental management. 5m Books

[Handbook of International and Cross-Cultural Leadership Research Processes](#) Yulia Tolstikov-Mast, Franziska Bieri, Jennie L. Walker, 2021-11-29 An invaluable contribution to the area of leadership studies, the *Handbook of International and Cross-Cultural Leadership Research Processes: Perspectives, Practice, Instruction* brings together renowned authors with diverse cultural, academic, and practitioner backgrounds to provide a comprehensive overview and analysis of all stages of the research process. The handbook centers around authors' international research reflections and experiences with chapters that reflect and analyze various research experiences in order to help readers learn about the integrity of each stage of the international leadership research process with examples and discussions. Part I introduces philosophical traditions of the leadership field and discusses how established leadership and followership theories and approaches sometimes fail to capture leadership realities of different cultures and societies. Part II focuses on methodological challenges and opportunities. Scholars share insights on their research practices in different stages of international and cross-cultural studies. Part III is forward-looking in preparing readers to respond to complex realities of the leadership field, teaching, learning, publishing, and applying international and cross-cultural leadership research standards with integrity. The unifying thread amongst all the chapters is a shared intent to build knowledge of diverse and evolving leadership practices and phenomena across cultures and societies. The handbook is an excellent resource for a broad

audience including scholars across disciplines and fields such as psychology management history cognitive science economics anthropology sociology and medicine as well as educators consultants and graduate and doctoral students who are interested in understanding authentic leadership practices outside of the traditional Western paradigm **Human**
