Ethics And Foreign Policy

Robert W. McElroy

Ethics And Foreign Policy:

Ethics and Foreign Policy Karen E. Smith, Margot Light, 2001-09-13 Democratic citizenship possible MERVYN FROST

Rethinking Ethical Foreign Policy David Chandler, Volker Heins, 2006-11-28 This new volume moves beyond the limits of current debate to show how today's foreign policy is increasingly about values rather than interests and why ethics are now playing a central role. Rather than counterposing interests and ethics, trying to find hidden agendas or emphasizing the double standards at play in ethical foreign policy, this book brings together leading international theorists and a variety of stimulating approaches to develop a critical understanding of the rise of ethical foreign policy and to analyze the limits of ethical policy making on its own terms. They deal with the limits of ethical foreign policy both in the light of the internal dynamic of these policies themselves and with regard to the often unintended consequences of policies designed to better the world. This book also shows how the transformation of both the domestic and the international spheres of politics means that ethics has become a rallying point for non-state actors and experts who gather around values and norms in order to force institutions to justify their behavior. This process results from different structural changes and the transformation of the international system, the individualization of Western societies and the growing importance of expertise in the justification of decisions in risk-adverse societies. It leads to a transformation of norms and to a redefinition of a global ethical framework that needs to be clarified. This book will be of great interest to all students and researchers of foreign policy formation, politics and international relations. The Ethics of Foreign Policy David B. MacDonald, Robert G. Patman, Betty

Mason-Parker, 2007-01-01 This ground-breaking volume considers the ethical aspects of foreign policy change through five interrelated dimensions: conceptual, security, economic, normative and diplomatic. An impressive group of international scholars and practitioners makes it ideally suited to courses on international relations, security studies, ethics and human rights, philosophy, media studies and international law.

The Ethics of Foreign Policy Betty Mason-Parker, Assoc Prof David B MacDonald, Professor Robert G Patman, 2013-03-28 This ground-breaking volume considers the ethical aspects of foreign policy change through five interrelated dimensions: conceptual, security, economic, normative and diplomatic. Defining ethics and what an ethical foreign policy should be is highly contested. The book includes many very different viewpoints to reflect the strong divergence of opinion on such issues as humanitarian intervention, free trade, the doctrine of preemption, political corruption and human rights. The thematic approach provides this volume with a clear organizational structure, giving readers a balanced overview of a number of important conceptual and practical issues central to the ethical analysis of states' conduct and foreign policy making. An impressive group of international scholars and practitioners, including a New Zealand Foreign Minister, a US National Security Advisor and an ICJ Justice, makes this volume ideally suited to courses on international relations, security studies, ethics and human rights, philosophy, media studies and international law. **Ethics**

As Foreign Policy Dan Bulley, 2009-05-07 Ethical foreign policy has often been considered utopian, unrealistic and

potentially very dangerous Dan Bulley argues for a reconceptualisation of ethics as foreign policy as both look to how we can and ought to relate to others Inspired by the deconstructive thought of Jacques Derrida Bulley studies the ethical claims of British 1997 2007 and EU 1999 2004 foreign policy These claims are read against themselves to illustrate their deep ambiguity A textual analysis of speeches statements and interviews given by foreign policy makers shows that a responsibility to save Africa to protect Iraqis and to hospitably welcome the Balkans into the EU are also irresponsible inhospitable and unethical The author contends that foreign policies making a claim to morality are ethical and unethical in their own terms suggesting that while a truly ethical foreign policy remains ultimately unachievable it does not justify abandoning a responsible relation to others Rather a negotiation of ethics as foreign policy suggests potential individual context bound decisions which remain open to contestation and permanent critique Bulley argues that the goal of ethical foreign policy must be maintained as a productive hope of what is neither completely impossible nor entirely possible Ethics As Foreign Policy Dan Bulley, 2009-05-07 This book increases understanding of significant periods in contemporary British and EU foreign policy by reading them through the concepts of subjectivity responsibility and hospitality Ethical Foreign Policy? Chih-Hann Chang, 2011 While the 1990s gave rise to a wealth of literature on the notion of ethical foreign policy it has tended to simply focus on a version of realism which overlooks the role of ethics in international affairs This book explores ethical realism as a theoretical framework *Ethics in Foreign Policy* Šárka Waisová, Ladislav Cabada, 2011 Two important positions might be observed in the discussion about the importance of ethics for international politics and the relevance of ethics for the theoretical analysis of international relations Some deny any connection between ethics and international politics others believe that moral values are an essential component of international relations The contributors assume that in an epoch of military interventions waged in the name of humanity and just war it is impossible to deny moral and ethical demands in international politics The main hypothesis of this book is that the post modern states are playing the role of norm entrepreneurs and promote Kantian ethics in international relations The articles analyse in five case studies the development in post modern states towards a moral foreign policy Canada Germany Norway the Netherlands and Slovenia are included in this analysis showing that Kantian ethics in international affairs is the ideal typical position and that some states have developed a foreign policy tending to this position **Ethical Foreign Policy?** Chih-Hann Chang, 2016-05-13 While the 1990s gave rise to a wealth of literature on the notion of ethical foreign policy it has tended to simply focus on a version of realism which overlooks the role of ethics in international affairs lacking an empirical analysis of foreign policy decision making with relation to ethical values in the post Cold War period This book addresses this gap in the literature by exploring ethical realism as a theoretical framework and in particular by looking at US humanitarian interventions at an empirical level to analyse ethical foreign policy in practice Furthermore it moves beyond the debate on legality or legitimacy of humanitarian interventions and focuses on whether a state would intervene for humanitarian purposes Chang provides a

deeper understanding of ethical foreign policy in theory and practice by applying ethical realism as a theoretical framework to evaluate the Clinton administration's foreign policy on humanitarian intervention. She addresses concepts of moral leadership and pragmatic foreign policy in the field of international relations in general and foreign policy analysis in particular.

Morality and American Foreign Policy Robert W. McElroy, 2014-07-14 Most international relations specialists since World War II have assumed that morality plays only the most peripheral role in the making of substantive foreign policy decisions. To show that moral norms can and do significantly affect international affairs, Robert McElroy investigates four cases of American foreign policy making: U.S. food aid to the Soviet Union during the Russian famine of 1921; Nixon's decision to alter U.S. policies on biochemical weapons production in 1969; the signing of the Panama Canal Treaties in 1978; and the bombing of Dresden during World War II. Originally published in 1992, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Ethics and International Relations Richard Ned Lebow, 2020-10 Lebow shows how and why foreign policies consistent with ethical norms are more likely to succeed and those at odds with them to fail.

Ethical Foreign Policy? Dr Chih-Hann Chang, 2013-03-28 While the 1990s gave rise to a wealth of literature on the notion of ethical foreign policy, it has tended to simply focus on a version of realism which overlooks the role of ethics in international affairs, lacking an empirical analysis of foreign policy decision making with relation to ethical values in the post-Cold War period. This book addresses this gap in the literature by exploring ethical realism as a theoretical framework and, in particular, by looking at US humanitarian interventions at an empirical level to analyse ethical foreign policy in practice. Furthermore, it moves beyond the debate on legality or legitimacy of humanitarian interventions and focuses on whether a state would intervene for humanitarian purposes. Chang provides a deeper understanding of ethical foreign policy in theory and practice by applying ethical realism as a theoretical framework to evaluate the Clinton administration's foreign policy on humanitarian intervention. She addresses concepts of moral leadership and pragmatic foreign policy in the field of international relations in general and foreign policy analysis in particular.

Moral Dimensions of American Foreign Policy Kenneth Winfred Thompson, 1984-01-01 Addressing recurrent themes and unresolved problems in foreign policy, this volume makes important distinctions between realism and idealism, prudential behavior and practical morality, and power and force. Contributors elaborate on conflicting views of international cooperation and development, national interest and interdependence, and differing concepts of political morality. Initially published by Transaction in 1984, the volume addresses issues of enduring significance in a post-Cold War environment and comes at a significant time in world history when policymakers are

compelled to reconsider the basis of conflict and consensus In terms other than pro Western or pro Communist values It has proven to be an essential resource for political scientists and theorists policymakers ethics scholars and historians Ethics and Security in Canadian Foreign Policy Rosalind Irwin,2002 An analysis of the ever evolving nexus of ethics security and international relations Organized thematically the chapters include theoretical and policy relevant commentaries on Canadian nuclear policy democratization human rights economic development peacekeeping and more Theorizing Foreign Policy in a Globalized World Knud Erik Jørgensen,2015-04-29 In this collection of refreshing and provocative essays the contributors to Theorizing Foreign Policy in a Globalized World reflect on the game changing political impact of globalization outlining the situation as it currently stands and suggesting strategies for analyzing foreign policy and global governance Ethics and Foreign Policy Series ,1964 *Feminist Foreign Policy Analysis* Karin Aggestam,Jacqui True,2024-11-26 How can feminist scholarship advance the field of foreign policy analysis to better understand contemporary foreign policy actions and challenges This groundbreaking book provides the state of the art in the study of gender feminisms and foreign policy Bringing together contributors from around the world chapters offer new analyses of foreign policy topics including diplomacy trade defence environment peacebuilding disinformation and development assistance The book advances new theories concepts and empirical knowledge for the emerging field of feminist foreign policy analysis The book stands as a vital resource for scholars students and practitioners seeking to understand and respond to the multifaceted gendered dynamics of global politics **International Ethics in the Nuclear Age (Ethics and Foreign Policy Series, Vol 4)** Robert John Myers,1987-12-18 *Christian Ethics & U.S. Foreign Policy* Mark R. Amstutz,1987 *Ethics and United States Foreign Policy* Ernest W. Lefever,1986-04-04 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com)
