**EU development cooperation** Karin Arts, Anna Dickson, Anna K. Dickson, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license It is increasingly recognised that EU development cooperation policy has failed to meet its stated aims In this book Arts and Dickson ask the obvious and important question if the policy doesn't work why bother with it The authors assess why EU development policy has become largely ineffective citing among the external causal factors the liberalisation of trade and the growing influence of US and international actors such as the World Bank and the International Monetary Fund upon EU policy It also considers contributing factors within the EU such as the enlargement of its membership and the resulting shifts in priorities It is this analysis of internal and external factors affecting the decline of EU development policy that makes this study both innovative and unique It brings together an impressive range of contributors from different disciplines resulting in a thorough and intelligent assessment of the debate This study will appeal to advanced level undergraduates and academics of European politics in general EU integration development studies and International Relations
