Liundi,2011-12-29 President Julius Kambarge Nyerere was the first President of the United Republic of Tanzania and Founder of the Nation He came into power through the ballot a democratic process held in 1961 and remained in power for more than two decades Mwalimu Nyerere was a gifted and morally upright man He was a true son of Africa a PanAfricanist a nationalist charismatic orator steadfast thinker diplomat and above all a teacher He chose to be called simply Mwalimu Teacher Throughout his term of office he gave hundreds of speeches some were prepared in advance others given extemporaneously The Mwalimu Nyerere Foundation founded by Mwalimu Nyerere himself in 1996 has assembled and put his speeches and writings into books The Quotations in this book are only those picked from the books in Freedom Series and his University Lectures They are presented and arranged under the following themes Philosophy of life Equality of Man Colonialism Tanzanias Revolution Democracy Selfreliance Rural Development Nonalignment African Unity the United Nations Leadership and Education Kwanzaa Molly Aloian,2009 Kwanzaa is an African American holiday celebrated from December 26 to January 1 while celebrating Kwanzaa people eat delicious foods wear special clothes sing dance and celebrate their ancestors From African Peer Review Mechanisms to African Queer Review Mechanisms? Artwell Nhemachena,Victor Warikandwa,2019-04-22 Tracing recent bouts of globalised Mugabephobia to Robert Mugabes refusal to be neoimperially penetrated this book juxtaposes economic liberalisation with the mounting liberalisation of African orifices Reading land repossession and economic structural adjustment programmes together with what they call neoimperial structural adjustment of African orifices the authors argue that there has been liberalisation of African orifices in a context where Africans are ironically prevented from repossessing their material resources Juxtaposing recent bouts of Mugabephobia with discourses on homophobia the book asks why empire prefers liberalising African orifices rather than attending to African demands for restitution restoration and reparations Noting that empire opposes African sovereignty autonomy and centralisation of power while paradoxically promoting transnational corporations centralisation of power over African economies the book challenges contemporary discourses about shared sovereignty distributed governance heterarchy heteronomy and onticology Arguing that colonialists similarly denied Africans of their human essence the tome problematises queer sexualities homosexuality ecosexuality cybersexuality and humanoid robotic sexuality all of which complicate supposedly fundamental distinctions between human beings and animals and machines Provocatively questioning queer sexuality and liberalised orifices that serve to divert African attention from the more serious unfinished business of repossessing material resources the book insightfully compares Robert Gabriel Mugabe

Thomas Sankara and Julius Kambarage Nyerere who emphasised the imperatives of African autonomy ownership control and sovereignty over natural resources Observing Africans interest in repossessing ownership and control over their resources the book wonders why so much queer international attention is focused on foisting queer sexuality while downplaying more burning issues of resource repossession human dignity equality and equity craved by Africans for whom life is not confined to sexuality With insights for scholars in sociology development studies law politics African studies anthropology transformation decolonisation and decoloniality the book argues that liberal democracy is a faade in a world that is actually ruled through criminocracy

R. Madhava Menon, Marie-Claire Cordonier Segger, Vincent O. Mngomezulu, 2012-01-01 The main objective of this book is to establish the salient reasons why higher education was developed in East Africa and specifically why the Federal University of East Africa was constituted The book will identify the factors responsible for the collapse of this regional institution in June 1970 Another objective of this book is to demonstrate

how the history of the University of East Africa sheds light on colonial and post colonial policies on education especially higher education as a contribution to educational planning in contemporary Africa      **Afrikan Mind Reconnection & Spiritual Re-Awakening** Dr. Lumumba Umunna Ubani, 2011-01-17 The need for Afrikan mind regeneration and spiritual reawakening A people who have lost these two principal inner qualities of mind can hardly find their through selves in life This book is an attempt to begin the processes of African self rediscovery The ending of slavery and colonialism removed only our physical agony but the trauma of long and extended torture left deep rooted anguish within the psyche of African race The effects of this imprint legacy will continue until we start addressing these negative effects In an effort to do this the book has provided several suggestions Some of the program are being provided at the Institute of Mind Talk Afrika      **WHY LEADERS FAIL AND PLUNGE THE INNOCENT INTO A SEA OF AGONIES** AGOLA AUMA-OSOLO, 2013-11 This book is a diagnosis of the cause effects of leadership failure endemic that has often plunged the innocent mankind globally into a sea of various agonies throughout all generations Because of the criticality of the failures of leadership and the crucial aim of science and professional ethic to save humanity from every danger of insecurity the book employs an interdisciplinary approach in order to not only achieve the aim but also be exhaustively thorough vis vis the identity and behavior of the mysteries surrounding the root cause of this particular problem that seems to have always evaded full recognition of previous etiological efforts It does so in order that the root cause may no longer continue to cause further havoc to humanity with total impunity on the strength of this approach and also being cognizant to the fact that man always perishes due to either lack of knowledge or to his despise of knowledge Hosea 4 6 the book discovers that since antiquity during our patriarch Adam to the present agonies of destruction of life property and the environment caused by leadership poverty abound and is globally increasing very alarmingly on the equal proportion with the growth of our civilization which could easily lead to a global catastrophe the given presence of the monuclear weaponry These agonies arise from intra and interstate strifes and displaced persons exodus madly in search of a safe haven kleptocracy justice sale contrary to a leader s oath of office and professional ethics etc which consequently leads to the innocent s frustration anger and retaliation in the form of strikes terrorism coup d etat etc against the source of their frustration But although mankind has to date achieved commendable discoveries in both bioscience and physical science for reliable remedies to human agonies caused by both natural and man made disasters unfortunately such substantive achievements have not been witnessed in both social and behavioral sciences against the root cause of bad governance which has been the principal causal factor to perpetual man made agonies to humanity Consequently from its etiology of this bad governance the book unearths man s habitual dishonesty and disobedience to his own oath of office and God s commandment to every leader contained in the Holy Bible under 2 Samuel 23 2 4 ordering that one must be just to all that one rules over in conformity to one s oath of office as actual root causes the book confirms these as being responsible for all leadership failures ranging from the patriarch Adam s leadership to

leadership failures of various kingdoms of Old Israel and during our own generation today the latter include the colonial leaders followed by leaders of independent Africa who like Judas Iscariot paradoxically continue to betray and sentence their innocent African continent people to perpetual agonies of poverty diseases corruption and other various symptoms of underdevelopment and dependency in a contravention of their own original promises during their struggle for independence from colonialism and imperialism and also their own vow during their oath of office as leaders of Independent Africa Thus the significance of this book to both academia and total humanity for their etiological efforts against the vice
