Freedom Convoy:

Insurrections Henry A. Giroux, 2023-01-26 With this book Henry A Giroux argues that insurrection has become a dominant motif for the USA and other countries torn between the promises and ideals of democracy and an emergent authoritarianism He argues that education is central to the idea of insurrection showing how on the one hand it contributes to an insurrectional authoritarianism wedded to a fascist legacy that calls for racial purity militarism ultra nationalism and state terrorism On the other hand he presents the idea of insurrectional democracy which has a long legacy in the battle for racial justice economic equality and a politics of inclusion The book explores how both positions are motivated by specific visions values and particular understandings of education and agency He also shows how powerful images social media and the internet are in merging political education power and cultural politics Giroux makes an impassioned call for an insurrectional democracy that makes education central to politics and produces an anti capitalist consciousness as the basis for developing a mass movement in defence of a radical democracy

The Canadian Far-Right and Conspiracy Theories Ahmed Al-Rawi, Carmen Celestini, Nicole K. Stewart, Joseph M. Nicolai, Nathan Worku, 2024-12-31 This book provides an empirical analysis mapping and assessment of Canadian right wing extremist RWE groups and their conspiracy theories While the majority of studies on RWE groups focus on American and European actors this book critically examines conspiracies disseminated by Canadian actors on different online sites and social media platforms The authors deploy a mapping metaphor to chart the conspiratorial ideas that RWE groups create and share online The book also examines the infrastructural terrain that supports mainstream and alternative platforms and the dark monetization structures that act as important conduits for this negative messaging Theoretically the study is situated within the concepts of dark social movements where dark participation on dark platforms often occurs A conceptualization of conspiracy theories is developed by exploring four specific aspects 1 topics 2 targets 3 concerns and 4 actors This concept is operationalized by applying it to BitChute and Telegram The book also offers a historical understanding of different RWE groups and their ideological positions In addition it provides an empirical investigation of Google s autocomplete feature Amazon books the Dark Web and several other alternative social media sites It will be of interest to researchers of Canadian politics conspiracy theories and the far right

Settler, 2nd Edition Emma Battell Lowman, Adam J. Barker, 2025-04-17T00:00:00Z A decade ago the

first edition of this defining book explained what it meant to be Settler acknowledging that Canada has been forged through ongoing violence displacement and assimilation of Indigenous communities and Nations and argued that accepting this identity is an important first step towards changing relationships with Indigenous Peoples The national conversation about settler colonialism has advanced significantly since that time thanks to Indigenous struggles that have resulted in high profile official apologies and inquiries into the devastating inequity between Indigenous and Settler lives in Canada However this progress is not enough many of the same problems persist due to the underlying inequities at the core of Canadian identity politics and society In this revised second edition Battell Lowman and Barker reflect on the term s changing more nuanced and continued importance Touching on the rise of right wing nationalism the power and limitations of social media and ten years of federal Liberal government this new edition of Settler considers the successes and failures of Settler Canadians in supporting decolonization and charting our next steps towards transformative change

Pandemic Panic Joanna Baron,Christine Van Geyn,Ernest Preston Manning,2023-11-07 In October 2022 the economist Emily Oster wrote a plea for a pandemic amnesty After detailing various ill conceived public health policies throughout the pandemic Oster concluded that The standard saying is that those who forget history are doomed to repeat it But dwelling on the mistakes of history can lead to a repetitive doom loop as well She reasoned that many admittedly poor public health decisions were made in an information vacuum and that the salubrious thing to do going forward would be to forgive and forget Oster was concerned about the fraying social fabric because of polarizing online discourse and urged the need to move forward However our anecdotal experience has shown a second common response to pandemic mishaps going blank entirely on what occurred during the pandemic We have observed a phenomenon of the surreal sometimes inane often unprecedented and unusual public health measures taken over the roughly three year pandemic period being a memory hole where the mind completely fogs over Many times in the course of writing this book we have messaged one another upon unearthing one public policy absurdity upon another the City of Toronto taping off cherry blossoms Quebec requiring unvaccinated people to be chaperoned in plexiglass carts through the essential aisles of big box stores We are not psychologists but no doubt there is an evolutionary benefit to allowing a collective trauma to dissolve into the slip stream it is unproductive to dwell on how we got by and how our government coped in real time Our memories are warped first by the primacy effect our tendency to remember firsts exemplified by people universally naming George Washington when asked to recall former U S presidents Most people have a crystal clear memory of the moment their plague year started in earnest for us and many others it was March 11 2020 the day the NBA suspended games for the rest of the season

[The Right Path](#) Tasha Kheiriddin,2022-07-05 As Canadian Conservatives prepare to choose a new leader their party and conservatism itself stands at a crossroads A political movement inspired by the 18th century overthrow of French kings struggles to integrate its basic principles in a world of AI the gig economy social media and declining democracy This challenge is compounded by age old regional

economic and cultural divides for Canadian Conservatives Brian Mulroney's Progressive Conservative grand coalition of Quebec and the western provinces has long collapsed. Instead, in the minds of many voters, the party has become associated with anti-immigration, anti-vaccination, and anti-urban angst. So which path will the Tories take? Will members heed the siren song of populism and transform their party into a northern offshoot of the American right? Or will they choose to build a big tent party that eschews dog whistles and division in favour of unity and growth? A provocative new book by conservative author Tasha Kheiriddin examines how the Conservative party got here, where it is now, and how it can move forward to retake the government. She discusses how Prime Minister Justin Trudeau fanned the flames of the populist right and how this presents a trap for the Tories. How the recent Liberal-NDP deal can shift the political center of gravity in favour of Conservatives if they are smart enough to take it. What Conservative policies could look like on issues including climate change, digital privacy, the gig economy, automation, housing unaffordability, indigenous reconciliation, and more. Where and how Conservatives need to grow from geography to generations. How Conservatives need to think big to get Canadians' attention and how an integrated vision of energy, environment, indigenous, and economic policy could position Canada as the global energy superpower of tomorrow while helping tackle climate change. Tasha Kheiriddin is a public affairs consultant, political commentator, writer, and speaker based in Toronto. She is a principal with Navigator Ltd, a lecturer at the Max Bell School of Public Policy at McGill University, and a national political columnist with Postmedia. Named one of Canada's Top 100 Most Powerful Women for her two decades in media and communications. A proud member of the Conservative Party of Canada, she volunteered for fifteen years for the federal Progressive Conservative Party, serving as National Youth President and working for both federal and provincial cabinet ministers.

[Pandemic, Public Health, and the People of God](#) Melody Maxwell, 2023-04-12. What does public health have to do with Christianity? How should Christians and churches in Atlantic Canada and beyond respond to crises such as the COVID-19 pandemic? In this first volume of *East Coast Theology*, the faculty of Acadia Divinity College reflect biblically and theologically on these questions. Dr. Robert Strang, chief medical officer of health for Nova Scotia, offers his insights as well. This book provides church members and leaders with theological foundations and practical ideas for ministering through health care. As a result, we hope that followers of Christ will be at the forefront of efforts for relief and healing on Canada's East Coast, both today and in the future. As people called by God to care for others, our vision should be nothing less than this.

At a Loss for Words Carol Off, 2024-09-03. AN INSTANT 1 NATIONAL BESTSELLER. A HILL TIMES BEST BOOK 2024. Award-winning author and broadcast journalist Carol Off digs deep into six words whose meanings have been distorted and weaponized in recent years, including democracy, freedom, and truth, and asks whether we can reclaim their value. As co-host of CBC Radio's *As It Happens*, Carol Off spent a decade and a half talking to people in the news, five nights a week. On top of her stellar writing and reporting career, those 25,000 interviews have given her a unique vantage point on the crucial subject at the heart of her new book: how, in these polarizing

years words that used to define civil society and social justice are being put to work for a completely different political agenda Or they are being bleached of their meaning as the values they represent are mocked and distorted As Off writes If our language doesn't have a means to express an idea then the idea itself is gone even the range of thought is diminished And as she argues that's a dangerous loss In six wide ranging chapters Off explores the mutating meanings and the changing political impact of her six chosen words freedom democracy truth woke choice and taxes unpacking the forces from right and left that have altered them beyond recognition She also shows what happens when we lose our shared political vocabulary we stop being able to hear each other let alone speak with each other in meaningful ways This means we stop being able to reckon with the complexity of the crises we face leaving us prey to conspiracy theories autocrats and the machinations of greed At a Loss for Words is both an elegy and a call to arms *Clever Design in Critical Times* Guilherme Meyer, Teresa M. Dobson, Stan Ruecker, Milena Radzikowska, 2025-08-07 This edited volume identifies and establishes the idea of the Callidocene which the authors position as an epoch that both includes and extends beyond the current conception of the Anthropocene While the word Anthropocene has become strongly associated with concerns over humanity's impact on the planet contributors turn instead to the Callidocene intended to encompass human machine and system cleverness to emphasize the hopeful and positive aspects of human influence on the world Contributors posit that designers in particular have increasingly attempted to consider the impact of their work on society culture and the environment and this book will contribute to this conversation through its analyses of a wide range of topics including complexity in design media toxicity and community innovation in sustainability Collectively contributions to this volume highlight the potential of human cleverness to address or even reverse the damage we've inflicted on both ourselves and our planet Scholars of sociology environmental studies cultural studies media studies and communication will find this book of particular interest *Public Sector Perspectives on Biowarfare and Creative Capitalism* Covell, Caroline E., 2024-12-02 Public sector perspectives are crucial in navigating the complex landscape of national security and social responsibility in response to the challenges of biowarfare and new economic models As threats from biological agents evolve governments must adopt proactive strategies that not only defend against these risks but also leverage creative capitalism to foster resilience and public health The convergence of biowarfare preparedness and the entrepreneurial spirit emphasizes the need for collaborative frameworks where public institutions can partner with private entities to drive innovation enhance biosecurity and ensure economic growth aligns with societal well being Further exploration into these perspectives may allow businesses to understand the role of the public sector in creating secure and sustainable organizations *Public Sector Perspectives on Biowarfare and Creative Capitalism* explores the effects of corporatization on the public sector It examines the various political policies of capitalism and biological warfare in relation to policymaking and economic development This book covers topics such as biological weapons lobbying and public management and is a useful resource for government officials policymakers
