Bonjour mes chers étudiants de français,

Comme vous le savez si vous avez ouvert ma lettre d'info de la semaine dernière, je suis à Tenerife, dans les îles Canaries. Au milieu de cette île se trouve un très haut Volcan, le Mont Tiede, dont le sommet domine l'île à trois-mille-sept-cent-quinze mètres.

*As you know if you opened my newsletter from last week, I am in Tenerife, in the Canary Islands. In the middle of this island is a very high volcano, Mount Tiede, which summit dominates the island at 3715 meters.*

Autour du volcan, il y a des paysages lunaires, des plaines de graviers de différentes couleurs, des coulées de lave et de gros rochers aux formes étranges formées par la lave.

*Around the volcano there are lunar landscapes, plains of gravels of different colors, lava flows and large rocks with strange shapes formed by lava.*

Je ne suis pas montée tout en haut du volcan cette fois-ci, mais j'ai fait une longue randonnée dans les paysages lunaires, et j'ai bien pensé à notre voyage à l'ouest des États-Unis en septembre 2022. Que de souvenirs !

*I didn't go up to the very top of the volcano this time, but I did a long hike in the lunar landscapes, and I thought carefully about our trip to the western United States in September 2022. So many memories!*

**A History of the French Language Through Texts**

Wendy Ayres-Bennett,2005-06-27 This new history of the French language allows the reader to see how the language has evolved for themselves It combines texts and extracts with a readable and detailed commentary allowing the language to be viewed both synchronically and diachronically Core texts range from the ninth century to the present day highlight central features of the language whilst a range of shorter texts illustrate particular points The inclusion of non literary as well as literary texts serves to illustrate some of the many varieties of French whether in legal scientific epistolary administrative or liturgical or in more popular domains including attempts to represent spoken usage This is essential reading for the undergraduate student of French

**French Today 1** Raymond Hunt,Simone Oudot,Houghton Mifflin Company,1982

**French Dislocation** Cécile de Cat,2007-08-23 The pervasive use of dislocations as in *Le chocolat c est bon* is a key characteristic of spoken French This book offers various new and well motivated insights based on tests conducted by the author on the syntactic analysis prosody and the interpretation of dislocation in spoken French It also considers important aspects of the acquisition of dislocation by monolingual children learning different French dialects The author argues that

spoken French is a discourse configurational language in which topics are obligatorily dislocated. She develops a syntactically parsimonious account which maximizes the import of interfaces involved with discourse and prosody. She proposes clear diagnostics following a reexamination of the status of subject clitics and a reevaluation of the characteristic prosody of dislocated constituents. The theoretical arguments throughout the book rest on data that comes from corpora of spontaneous production and from various elicitation experiments. This book throws new light on French syntax and prosody and makes an important and original contribution to the study of linguistic interfaces. Clearly expressed and tightly argued, it will interest scholars and advanced students of French and of its acquisition as a first language as well as linguistic theorists interested in the interfaces between syntax, discourse and phonology.

This book provides a penetrating analysis of the social, political and economic conditions in France. It explores how Amara founded NPNS and much more.
