Women Dressing Women Melissa Huber, Karen Van Godtsenhoven, 2023-12-04 This beautifully illustrated book explores the considerable impact of fashions created by and for women by tracing a historical and conceptual lineage of female designers from unidentified dressmakers in eighteenth century France to contemporary makers who are leading the direction of fashion today. Stunning new photographs of exceptional garments from the unparalleled collection of The Metropolitan Museum of Art's Costume Institute complement insightful essays that consider notions of anonymity, visibility, agency and absence/omission, highlighting celebrated designers and forgotten histories alike to reveal women's impact on the field of fashion. The publication includes garments from French houses such as Vionnet, Schiaparelli and Mad-Carpentier, to American makers like Ann Lowe, Claire McCardell and Isabel Toledo, along with contemporary designers such as Rei Kawakubo, Iris van Herpen, Simone Rocha and Anifa Mvuemba. Situating the works within a larger social context, this overdue look at female led design is essential reading for anyone interested in the history of fashion.

Nineteenth-Century French Poetry Christopher Prendergast, 1990-01-26 This volume of essays written by scholars from a wide range of critical and theoretical viewpoints presents a fresh approach to the study of nineteenth century French poetry. Each of the eleven essays on different poets from Lamartine to Mallarmé and Laforgue focuses on the detailed organisation of a single poem. The method of close reading has been adopted in order to effect an introduction to the analysis of the basics of poetic language sound metre syntax etc and in order to explore and illustrate some of the claims and arguments about poetry arising from developments in the prevailing literary theory. Theoretical positions are posed and tested in the terms of practical analysis and interpretation. Christopher Prendergast's introduction to the volume situates the essays in a series of general perspectives and contexts and Clive Scott has provided an appendix on French versification.

Clothing and Fashion José Blanco F., Patricia Kay Hunt-Hurst, Heather Vaughan Lee, Mary Doering, 2015-11-23 This unique four volume encyclopedia examines the historical significance of fashion trends revealing the social and cultural connections of clothing from the precolonial times to the present day. This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear from the Native American moccasin to Manolo Blahnik's contribution to stiletto heels. Through four detailed volumes this work delves into what people wore in various periods in our country's past and why from hand crafted family garments in the 1600s to the rough clothing of slaves to the sophisticated textile designs of the 21st century. More than 100 fashion experts and clothing historians pay tribute to the most notable garments, accessories and people comprising design and fashion. The four volumes contain more than 800 alphabetical entries with each volume representing a different era. Content includes fascinating information such as that beginning in 1619 through 1654 every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England; what is known about the clothing of enslaved African Americans and that there were regulations placed on clothing design during World War II. The set also includes color inserts that better communicate the visual impact of clothing and fashion across eras.
