Enigma Sol Bloomenkranz, 2012-07-10 This intriguing chronicle follows the life of Charles Bedaux a self made man who played an important but little known behind the scenes role during the most tumultuous years of the 20th century Although his first job was as an apprentice pimp in the streets of Paris Bedaux always thought big He built the worlds leading consulting firm of his time allowing him access to the highest levels of government and society He was a friend of the Duke of Windsor and Wallis Simpson even hosting their wedding at his private chateau in France However his penchant for deceit and his activities for the Third Reich led to his ultimate demise as he was about to launch his most ambitious project the conquest of the Sahara You will be fascinated and perhaps frightened by the events and people Charles Bedaux was able to influence during his lifetime [A Passion for Democracy](#) Tzvetan Todorov, 2007 The French Revolution rang the death knell not only for a form of society but also for a way of feeling and of living and it is still not clear as yet what did we gain from the changes Benjamin Constant was one of the first to draw up this dark diagnosis We no longer know how to love neither to believe nor to want As a result Heaven no longer offers hope the earth dignity the heart refuge But is it enough to deplore it Constant does not think so and having become the first French thinker of democracy he undertakes to seek remedies to the problem a political framework that guarantees the dignity of the individual without dissolving the social bond a religion stripped of its oppressive forms a love finding the place which is due to values higher than all the thrones of the earth

Boom - Crisis - Heritage Lars Bluma, Michael Farrenkopf, Torsten Meyer, 2021-10-11 Boom Crisis Heritage these terms aptly outline the history of global coal mining after 1945 The essays collected in this volume explore this history with different emphases and questions The range of topics also reflects this broad approach The first section contains

contributions on political social and economic history They address the European energy system in the globalised world of the 20th and 21st centuries as well as specific social policies in mining regions The second section then focuses on the medialisation of mining and its legacies also paying attention to the environmental history of mining The anthology which goes back to a conference of the same name at the Deutsches Bergbau Museum Bochum thus offers a multi faceted insight into the research field of modern mining history *Murder in the Métro* Gayle K. Finley-Croswhite,2010-05-01 On the evening of May 16 1937 the train doors opened at the Porte Dor e station in the Paris M tro to reveal a dying woman slumped by a window an eight inch stiletto buried to its hilt in her neck No one witnessed the crime and the killer left behind little forensic evidence This first ever murder in the Paris M tro dominated the headlines for weeks during the summer of 1937 as journalists and the police slowly uncovered the shocking truth about the victim a twenty nine year old Italian immigrant the beautiful and elusive Laetitia Toureaux Toureaux toiled each day in a factory but spent her nights working as a spy in the seamy Parisian underworld Just as the dangerous spy Mata Hari fascinated Parisians of an earlier generation the mystery of Toureaux s murder held the French public spellbound in pre war Paris as the police tried and failed to identify her assassin In *Murder in the M tro* Gayle K Brunelle and Annette Finley Croswhite unravel Toureaux s complicated and mysterious life assessing her complex identity within the larger political context of the time They follow the trail of Toureaux s murder investigation to the Comit Secret d Action R volutionnaire a secret right wing political organization popularly known as the Cagoule or hooded ones Obsessed with the Communist threat they perceived in the growing power of labor unions and the French left wing the Cagoule s leaders aimed to overthrow France s Third Republic and install an authoritarian regime allied with Italy With Mussolini as their ally and Italian fascism as their model they did not shrink from committing violent crimes and fomenting terror to accomplish their goal In 1936 Toureaux at the behest of the French police infiltrated this dangerous group of terrorists and seduced one of its leaders Gabriel Jeantet to gain more information This operation the authors show eventually cost Toureaux her life The tale of Laetitia Toureaux epitomizes the turbulence of 1930s France as the country prepared for a war most people dreaded but assumed would come This period therefore generated great anxiety but also offered new opportunities and risks to Toureaux as she embraced the identity of a modern woman The authors unravel her murder as they detail her story and that of the Cagoule within the popular culture and conflicted politics of 1930s France By examining documents related to Toureaux s murder documents the French government has sealed from public view until 2038 Brunelle and Finley Croswhite link Toureaux s death not only to the Cagoule but also to the Italian secret service for whom she acted as an informant Their research provides likely answers to the question of the identity of Toureaux s murderer and offers a fascinating look at the dark and dangerous streets of pre World War II Paris **Mysteries and Conspiracies** Luc Boltanski,2014-10-10 The detective story focused on inquiries and in its wake the spy novel built around conspiracies developed as genres in the late nineteenth and early twentieth centuries

During the same period psychiatry was inventing paranoia sociology was devising new forms of causality to explain the social lives of individuals and groups and political science was shifting the problematics of paranoia from the psychic to the social realm and seeking to explain historical events in terms of conspiracy theories In each instance social reality was cast into doubt We owe the project of organizing and unifying this reality for a particular population and territory to the nation state as it took shape at the end of the nineteenth century Thus the figure of conspiracy became the focal point for suspicions concerning the exercise of power Where does power really lie and who actually holds it The national authorities that are presumed to be responsible for it or other agencies acting in the shadows bankers anarchists secret societies the ruling class Questions of this kind provided the scaffolding for political ontologies that banked on a doubly distributed reality an official but superficial reality and its opposite a deeper hidden threatening reality that was unofficial but much more real Crime fiction and spy fiction paranoia and sociology more or less concomitant inventions had in common a new way of problematizing reality and of working through the contradictions inherent in it The adventures of the conflict between these two realities superficial versus real provide the framework for this highly original book Through an exploration of the work of the great masters of detective stories and spy novels G K Chesterton Arthur Conan Doyle John Le Carr and Graham Greene among others Boltanski shows that these works of fiction and imagination tell us something fundamental about the nature of modern societies and the modern state
