*The Question of God* Armand Nicholi,2002-04-03 This elegantly written and compelling comparison of the worldviews of Sigmund Freud and C S Lewis provides a riveting opportunity to consider the most important questions mankind has ever asked Is there a God Does he care about me This profound book is for anyone who is earnestly seeking answers about truth the meaning of life and God s existence Francis Collins Director National Human Genome Research Institute Many of history s greatest thinkers have wrestled with the ultimate question of belief and nonbelief in God Though it might seem unlikely that any new arguments could possibly be raised on either side the twentieth century managed to produce two men who each made brilliant new and lasting arguments one in favor of belief and one opposed Few spokesmen have ever championed their respective positions better than Sigmund Freud and C S Lewis Sadly as far as we know they never met or debated each other directly In *The Question of God* their arguments are placed side by side as if they were standing at podiums in a shared room Both thought carefully about the flaws and alternatives to their positions each considered the other s views Both men considered the problem of pain and suffering the nature of love and sex and the ultimate meaning of life and death Here with their debate made explicit we can take ringside seats at one of history s most profound encounters For more than twenty five years Armand Nicholi has studied the philosophical writings of both men and has taught a popular course at Harvard that compares the two worldviews In *The Question of God* he presents the fruits of years of labor among the published and unpublished writings of Lewis and Freud including an extensive exploration of their private letters He allows them to speak for themselves on every major question of belief and nonbelief but also skillfully draws conclusions from their own lives Why did Freud have such difficulty maintaining lifelong friendships How did Lewis s friendships change after his transition from atheism to belief Why was Freud unable to willfully ignore his own internal moral sense even though he believed it to be purely a product of socialization and not in any way eternally true *The Question of God* may be the best book about belief and nonbelief ever written since it does not presuppose which answer is correct Instead it uses two of history s most articulate spokesmen to present arguments on both sides In the end readers must join Nicholi s hundreds of former students in deciding for themselves which path to follow      **FREUD AND THE PROBLEM OF GOD. Hans Küng,1979      **A Concise Encyclopedia of the Philosophy of Religion** Anthony C. Thiselton,2014-10-01 Covering thinkers from Plato to Freud offering detailed explanations of key themes such as evil and outlining clear definitions of complex ideas like the doctrine of analogy this is a comprehensive reference tool for all those studying or interested in the philosophy of religion      *On the Way* Les L. Steele,1998-08-10      *Dialogue with the Other* David Tracy,1990 *Dialogue with the Other* expresses David Tracy s ongoing interest in the other and *The Other* His reflections enter into dialogue with figures as diverse as Meister Eckhart and William James and traditions as different as those of Buddhism Christianity and

Judaism David Tracy is Distinguished Service Professor at the University of Chicago He is Professor of Theology at the Chicago Divinity School and Professor in the Committee on the Analysis of Ideas and Methods Among his better known are Blessed Rage for Order 1975 The Analogical Imagination 1981 and Plurality and Ambiguity 1987 Integrative Approaches to Psychology and Christianity, Fourth Edition David N. Entwistle, 2021-11-03 Since the first edition of Integrative Approaches to Psychology and Christianity was published in 2004 this has become the standard textbook on the topic Now in its fully revised fourth edition Dr Entwistle's book elucidates historical philosophical and practical issues in the integration of psychology and Christianity As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate New content ranges from information about the contrasting views of Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration This book is ideal as a textbook for students of psychology and other behavioral and social sciences social work sociology theology counseling pastoral counseling at both the graduate and undergraduate level It is also written for the broader readership of psychologists counselors pastors and others who are interested in integration

and non academic fields Simon Critchley's aim in this book is to provide a less familiar more troubling and hopefully truer account of Levinas's work A new dramatic method for reading Levinas is proposed where the fundamental problem of his work is seen as the attempt to escape from the tragedy of Heidegger's philosophy and the way in which that philosophy shaped political events in the last century Extensive and careful attention is paid to Levinas fascinating but often overlooked work from the 1930s where the proximity to Heidegger becomes clearer Levinas's problem is very simple how to escape from the tragic fatality of being as described by Heidegger Levinas's later work is a series of attempts to answer that problem through claims about ethical selfhood and a series of phenomenological experiences especially erotic relations and the relation to the child These claims are analyzed in the book through close textual readings Critchley reveals the problem with Levinas's answer to his own philosophical question and suggests a number of criticisms particular concerning the question of gender In the final speculative part of the book another answer to Levinas's problem is explored through a reading of the Song of Songs and the lens of mystical love

**Does God Exist?** Hans Kung, 2006-09-22 Does God exist Who is God And can we ultimately trust in any reality These questions have been among the greatest subjects of human speculation since history began but not until modern times has the reality of God been so strongly called into doubt In this monumental study written for men and women of all faiths and of none Hans Kung the most renowned and controversial theologian in the world today first traces the rise of modern atheism in the works of such great thinkers as Descartes Pascal Feuerbach Marx Nietzsche and Freud and then demonstrates brilliantly and in terms that make sense to us today why a yes to God remains a more reasonable and responsible belief than its alternative nihilism

**Imagining the Jewish God** Leonard Kaplan, Ken Koltun-Fromm, 2016-09-09 Jewish art has always been with us but so has a broader canvas of Jewish imaginings in thought in emotion in text and in ritual practice Imagining the Jewish God was there in the beginning as it were engraved and embedded in the ways Jews lived and responded to their God This book attempts to give voice to these diverse imaginings of the Jewish God and offers these collected essays and poems as a living text meant to provoke a substantive and nourishing dialogue A responsive living covenant lies at the heart of this book a covenantal reciprocity that actively engages the dynamics of Jewish thinking and acting in dialogue with God The contributors to this volume are committed to this form of textual reasoning even as they all move us beyond the text as foundational for the imagined people of the book That people we submit lives and breathes in and beyond the texts of poetry narrative sacred literature film and graphic mediums We imagine the Jewish people and the covenant they respond to as provocative intimations of the divine The essays in this volume seek to draw these vocal intimations out so that we can all hear their resonant call *The North American Review* James Russell Lowell, Charles Eliot Norton, Henry Adams, Allen Thorndike Rice, Lloyd Stephens Bryce, George Brinton McClellan Harvey, Joseph Hilton Smyth, Robert Dana, Robley Wilson, Vicente F. Gotera, Rachel Morgan, J. D. Schraffenberger, Grant Annis George Tracey, 1980

**The Truly Infinite Universe** David James Stewart, 2019-06-14 The discoveries of general relativity and quantum mechanics in the 20th century provide the perfect opportunity for Hegel's thought to become more topical than it has ever been By bringing speculative philosophy into conversation with quantum cosmology this book develops Hegel's metaphysics of true infinitude and Hawking's theory on the origins of spacetime in tandem providing a compelling rationale for the idea that the universe is a self-generating self-organizing self-enclosed whole Ever sensitive to the complex relationship of scientific philosophical and theological issues in theoretical cosmology the study brings a fresh perspective to the unique brand of metaphysical theology underlying speculative philosophy and offers a new way of conducting transdisciplinary work involving Hegelian thought This is essential reading for Hegel scholars Hawking scholars those interested in philosophical cosmology the ontology of the quantum void the realism vs idealism debate infinitude imaginary time and dialectical materialism and those compelled by post-classical approaches to theology

*Violence* Richard J. Bernstein, 2018-03-08 We live in a time when we are overwhelmed with talk and images of violence Whether on television the internet films or the video screen we can't escape representations of actual or fictional violence another murder another killing spree in a high school or movie theatre another action movie filled with images of violence Our age could well be called The Age of Violence because representations of real or imagined violence sometimes fused together are pervasive But what do we mean by violence What can violence achieve Are there limits to violence and if so what are they In this new book Richard Bernstein seeks to answer these questions by examining the work of five figures who have thought deeply about violence Carl Schmitt Walter Benjamin Hannah Arendt Frantz Fanon and Jan Assmann He shows that we have much to learn from their work about the meaning of violence in our times Through the critical examination of their writings he also brings out the limits of violence There are compelling reasons to commit ourselves to non violence and yet at the same time we have to acknowledge that there are exceptional circumstances in which violence can be justified Bernstein argues that there can be no general criteria for determining when violence is justified The only plausible way of dealing with this issue is to cultivate publics in which there is free and open discussion and in which individuals are committed to listen to one other when public debate withers there is nothing to prevent the triumph of murderous violence
