Friars Libraries:

The Friars' Libraries Kenneth William Humphreys, 1990 Part of a series devoted to British medieval library catalogues a comprehensive and systematic edition of all extant catalogues and cognate documents relating to medieval libraries in Great Britain This volume concerns the friars libraries **Old English Libraries** Ernest Albert Savage, 1912 The Other Friars Frances Andrews, 2006 A concise and accessible history of four of the monastic orders in the middle ages In 1274 the Council of Lyons decreed the end of various new orders of Mendicants which had emerged during the great push for evangelism and poverty in the thirteenth century Latin Church The Franciscans and Dominicans were explicitly excluded while the Carmelites and Austin friars were allowed a stay of execution These last two were eventually able to acquire approval but other smaller groups in particular the Friars of the Sack and Pied Friars were forced to disband This book outlines the history of those who were threatened by 1274 tracing the development of the two larger orders down to the Council of Trent and following the fragmentary sources for the brief histories of the discontinued friaries For the first time these orders are treated comparatively the volume offers a total history from their origins spirituality and pastoral impact to their music buildings and runaways FRANCES ANDREWS is Professor in Mediaeval History at the University of St Andrews **Oxf. Words that Tear the Flesh Stephen Alan Baragona, Elizabeth Louise Rambo, 2018-01-22 The rhetorical trope of irony is well trod territory with books and essays devoted to its use by a wide range of medieval and Renaissance writers from the Beowulf poet and Chaucer to Boccaccio and Shakespeare however the use of sarcasm the flesh tearing form of irony in the same literature has seldom been studied at length or in depth Sarcasm is notoriously difficult to pick out in a written text since it relies so much on tone of voice and context This is the first book length study of medieval and Renaissance sarcasm Its fourteen essays treat instances in a range of genres both sacred and secular and of cultures from Anglo Saxon to Arabic where the combination of circumstance and word choice makes it absolutely clear that the speaker whether a character or a narrator is being sarcastic Essays address among other things the clues writers give that sarcasm is at work how it conforms to or deviates from contemporary rhetorical theories what role it plays in building character or theme and how sarcasm conforms to the Christian milieu of medieval Europe and beyond to medieval Arabic literature The collection thus illuminates a half hidden but surprisingly common early literary technique for modern readers

Theological Libraries and Library Associations in Europe , 2022-08-15 During the past 50 years theological libraries have confronted secularisation and religious pluralism along with revolutionary technological developments that brought not only significant challenges but also unexpected opportunities to adopt new instruments for the transfer of knowledge through the automation and computerisation of libraries This book shows how European theological libraries tackled these challenges how they survived by redefining their task by participating in the renewal of scholarly librarianship and by networking internationally Since 1972 BETH the Association of European Theological Libraries has stimulated this process by enabling contacts among a growing number of national library associations all over Europe

The Norman Conquest in English History George Garnett, 2020 At a time when the Battle of Hastings and Magna Carta have become common currency in political debate this study of the role played by the Norman Conquest in English history between the eleventh and the seventeenth centuries is both timely and relevant

A Companion to Josephus in the Medieval West Karen M. Kletter, Paul C. Hilliard, 2024-10-07 The works of Titus Flavius Josephus ben Matthias on biblical history and the Jewish war were read and studied throughout the Latin West during the Middle Ages Each generation of Christian scholars had to contend with the Jewish writer's text reputation and content This volume demonstrates the complex relationship between Josephus' legacy and his readers who sought to make use of that legacy across the period of 500 to 1300 Contributors Carson Bay Susan Edgington Anthony Ellis Paul C Hilliard Karen M Kletter Justin Lake Richard M Pollard Graeme Ward and Julian Yolles

Short O.F.M. **A History of Franciscan Education (c. 1210-1517)** Bert Roest, 2000-09-06 The history of

education within the Franciscan order during the medieval period is presented here in a new light This comprehensive volume offers a new synthesis of Franciscan education showing the dynamic development of the Franciscan school network between the early thirteenth and the early sixteenth century The organisation of study houses throughout the many Franciscan order provinces are discussed as well as the relationship between these Franciscan study houses and the medieval universities and the various study programs offered to Franciscan students Separate chapters are devoted to related issues such as library formation the instruction of homiletic techniques and the formation of Franciscan theological schools of thought The work emphasises the dynamics of the Franciscan school network and the importance of extra curricular activities in the schools at convent and custodial levels **The Measure of Multitude** Peter Biller, 2000-12-14 By 1300 medieval men and women were beginning to measure multitude counting for example numbers of boys and girls being baptized Their mental capacity to grapple with population to get its measure was developing and this book describes how medieval people thought about population through both the texts which contained their thought and the medieval realities which shaped it They found many topics such as the history of population and variations between polygamy monogamy and virginity through theology Crusade and travel literature supplied the themes of Muslim polygamy military numbers the colonization of the Holy Land and the populations of Mongolia and China Translations of Aristotle provided not only new themes but also a new vocabulary with which to think about population In this innovative new study Peter Biller challenges

the view that medieval thought was fundamentally abstract He investigates medieval thought's capacity to deal with concrete contemporary realities and sets academic discussions of population alongside the medieval facts of birth and copulation and death

Memoirs of Libraries, of Museums, and of Archives Edward Edwards, 1901 *The Destruction of Medieval Manuscripts in England* Krista A. Milne, 2025-03-28 The Dissolution of the Monasteries 1536-40 is widely held as the single most significant event in England's history of the destruction and loss of medieval manuscripts Despite this consensus the ultimate impact of the Dissolution and of medieval manuscript destruction during the centuries that followed remains unclear How did Reformation era losses compare to those which preceded the Reformation and to those that followed it How did the losses caused by sectarian conflicts compare to more quotidian kinds of loss such as improper storage or deliberate de-acquisition Which manuscripts were targeted when were they targeted and how should one account for the inevitably skewed record In *The Destruction of Medieval Manuscripts in England* Krista A Milne asks these questions to better understand literary taste behavioural patterns and the circulation of knowledge throughout the medieval period Milne explores methods drawn from quantitative codicology to explore the most significant moments of manuscript loss in the history of England The evidence suggests that this destruction was much more limited in its targets but far more extensive in scope than is usually acknowledged Overwhelmingly throughout the investigation the manuscripts most at risk were those considered too new to qualify as antique but too old to be au courant

This pattern of destruction which Milne describes as the principle of age without vintage remains apparent in many different domains today
