Religious Freedom After the Sexual Revolution Helen Alvare,2022-06-24 Laws mandating cooperation with the state s new sexual orthodoxy are among the leading contemporary threats to the religious freedom of Catholic institutions in the United States These demand that Catholic schools health care providers or social services cooperate with contraception cohabitation abortion same sex marriage or transgender identity and surgeries But Catholic institutions responses seem thin and uninspiring to many They are criticized as legalistic authoritarian bureaucratic retrograde and hurtful to women and to persons who identify as LGBTQ They are even called un Christian They invite disrespect both for Catholic sexual responsibility norms and for religious freedom generally not only among lawmakers and judges but also in the court of public opinion which includes skeptical Catholics The U S Constitution protects Catholic institutions autonomy their authority over faith and doctrine internal operations and the personnel involved in personifying and transmitting the faith Other constitutional and statutory provisions also safeguard religious freedom if not always perfectly Catholic institutions could take far better advantage of all of these existing protections if they communicated first how they differ from secular institutions how their missions emerge from their faith in Jesus Christ and their efforts both to make his presence felt in the world today and to display the inbreaking of the Kingdom of God Second they need to draw out the link between their teachings on sexual responsibility and love of God and neighbor Drawing upon Scripture tradition history theology and empirical evidence Helen Alvar frames a more complete inspiring and appealing response to current laws attempts to impose a new sexual orthodoxy upon Catholic institutions It clarifies the ecclesial nature of Catholic schools hospitals and social services It summarizes the empirical evidence supporting the link between personnel decisions and mission and between Catholic sexual responsibility norms and human flourishing It grounds Catholic sexual responsibility teachings in the same love of God and neighbor that animate the existence operations and services of Catholic institutions

Catholics in the Vatican II Era Kathleen Sprows

Cummings, Timothy Matovina, Robert A. Orsi, 2018 For the first time this volume takes a global and comparative approach to the lived local history of Vatican II **A History of Catholic Moral Theology in the Twentieth Century** James F.

Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it s adequately biblical and Gerard Gilleman whether it s adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with Humanae vitae and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturatism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally **Christianity and Sexuality in the Early Modern World** Merry E. Wiesner, 2000 In this global survey of Christianity and sexuality in the early modern period Merry Wiesner Hanks assesses the role of personal faith and the Church itself in the control and expression of all aspects of sexuality **The Emplantation of Catholicism in Pre-modern Korea** Kevin N. Cawley, 2025-02-06 Tracing the development of Catholic ideas in Japan and China during the late sixteenth and early seventeenth century this book provides an overview of the evolution of the missionary strategy in East Asia while focusing on the early emplantation of Catholicism in Korea Kevin Cawley recreates the tumultuous period for gender relations and explores interreligious interactions between Confucians and Catholics Highlighting the textual production this period inspired this book examines writings such as the catechism of the Italian Jesuit Matteo Ricci 1552 1610 which went on to convert a group of elite Confucian scholars to the new religion It also underscores the importance of the vernacular catechism written by Chong Yakchong 1760 1801 a convert from a prominent Confucian family who was eventually executed Chong s text made Catholicism easily understandable for women as well as men from lower social classes who eventually converted in significant numbers effecting real social change Outlining the shift from rejection to

acceptance of new texts composed by early Korean converts this book explores emergent Catholicism in Japan China and Korea as well as the various challenges encountered and how the mission strategy changed as a result Exploring gender relations both in relation to Confucianism and Catholics during this period this book provides insight into this previously under researched aspect of East Asian Catholicism In this study we learn how religious persecution and political tactics manipulated terrified and exterminated converts to Catholicism From European Jesuits to Korean Confucians this book outlines a fascinating journey of intercultural engagement between Western and Eastern worldviews
