Ether Cosmic:

Cosmic Evolution John Elof Boodin,1925 **Speculations Concerning the Ether and Its Functions** John Benjamin Penniston,1928 **Radionics Interface With The Ether-Fields** David V Tansley,2011-08-31 This book explores the interface that exists between the human energy field and the Universal Field of energy in which we live It shows how these fields can be utilised for distant diagnosis and treatment It also illustrates that the surest and most effective way to ameliorate a defect in any biological system is to modulate the interacting and interdependent energy fields by way of the chakras The same energy fields can be used to take photographs of distant objects particularly the energy structures of living human tissues and pathological states existing in them The vibratory patterns and potencies of homoeopathic remedies can also be drawn from the ether fields and impregnated into neutral substances such as water or alcohol solutions which have a capacity for memory Radionics is a healing art that links the physical world with the unseen worlds lying beyond the physical senses Diagnostically it probes to the levels of causation of disease therapeutically it is gentle and non invasive **Cosmic Christianity** Willi Sucher,1993 Cosmic Christianity describes the relationship between the earthly and supra earthly cosmic worlds by showing the relationship between the cosmos as expressed in the movements of the stars and the activities of Christ during his three years of ministry on Earth The gesture of each astrological planet during those years is worked out and correlated with specific acts of the Christ as recorded in the Gospels The apparent looping movements of Mercury for example are connected with the seven signs of St John s gospel The author goes on to explore the many ways in which these healing acts which have been inscribed in the heavens continue to work in evolution through the events of history and through our individual human lives By studying this we begin to understand our responsibility for developing the new Christian mysteries and consequently renewing the starry cosmos Sucher presents a real foundation for modern star wisdom Topics include the evolution of cosmology the origins of the planetary symbols our new relationship to the stars as revealed in human lives and historical events and the role of the Archangel Michael in our individual relationship to the stars This is an excellent place to begin one s study of the stars and their meaning for both our individual lives and for the world To purchase other books by Willi Sucher please visit the Astrosophy Research Center where you will find some of his most important works on star wisdom Included are Isis Sophia I Introducing Astrosophy Isis Sophia II Outline of a New Star Wisdom Isis Sophia III Our Relationship With the Stars Drama of the Universe Living Universe Studies in Astrosophy Practical Approach I Star Journals One Practical Approach II Star Journals Two Practical Approach III Letters COSMIC FORCE COSMOLOGY SOLATLE LU,2023-06-01 LIGHT the primordial eternal pure almighty energy is the brightest as well as darkest riddle that has been puzzling to all earthlings for millennia Whoever truly knows light has already cracked the greatest mystery of the cosmos Surprisingly This riddle has been actually cracked independently by three thinkers of different ages Heraclitus the Hellenic thinker 2500 years ago is the first cracker of the riddle with his doctrines that things

are constantly changing universal flux that opposites coincide and that fire is the source and nature of all things We just decode his Fire into LIGHT 2400 years later there comes the second cracker Nikola Tesla the modern Heraclitus who in 1899 explicitly declares that Everything is LIGHT Matter is created from the original and eternal energy that we know as LIGHT Solatle Lu is the third cracker the first narrator of the riddle He explicitly declares in 2019 in his An Outline of Force Cosmology that All particles are derived from photons and live forever substantially honors LIGHT as the Creator of all things hence elevates the common idea of the three to the Highest Knowledge of 21st century the Primary Cause the First Principle This event marks a great leap in the continuous rational movement of mankind a new start **From the Mysteries**

Hermann Beckh,2020-06-03 In the early part of the last century Professor Hermann Beckh began a search to discover the truth about the Mystery wisdom of antiquity As a recognized authority on Buddhist texts he knew that complete knowledge of such Mysteries was not to be found within the limitations of waking consciousness sense perception and logic Beckh was already aware that Gautama Buddha had indicated the stages of higher knowledge Furthermore his studies of Rudolf Steiner s anthroposophical teachings revealed that such knowledge could be experienced directly given disciplined meditation Clairvoyant cognition included the conscious penetration of sleep consciousness the dream state and an experience of pre natal consciousness Both the Mysteries and Rudolf Steiner s major books he concluded were founded on the same perceptions Beckh a worldwide expert on Tibetan Sanskrit Pali and Avestan texts quickly became disenchanted with Madame Blavatsky s Theosophy as it displayed little precise academic knowledge of primary records At the same time university departments showed scant trace of understanding the texts they analysed through philology and sociology Thus based on comprehensive studies and personal experience he resolved to present his own perceptions and vision to the public The results are to be found in this invaluable book bringing together for the first time in English three groundbreaking publications Our Origin in the Light Genesis 1 9 1924 Zarathustra 1927 and From the World of the Mysteries 1927 as well as five of Beckh s articles from contemporary periodicals *The Cosmic Journey in the Book of Revelation* Joel M.

Rothman,2023-05-18 Joel M Rothman considers the significance of cosmology in biblical and extra biblical texts and the role of the cosmic journey in many apocalyptic narratives He posits that Revelation s narrative likewise takes the hearer on a virtual journey through a cosmic story space of great theological significance While scholarship commonly assumes a three tiered cosmos in Revelation Rothman argues that Revelation s narrative operates in a four tiered cosmos with the hyper heaven sitting above the sky heaven earth and abyssal depths a cosmic story space that is recreated in the imagination of the hearers Beginning with a methodology of visual narrative reading Rothman then discusses the assumptions and existing conceptions regarding heaven and earth He stresses that Revelation does not exhibit tension in its portrayal of heaven between heaven as a site of conflict and heaven as the realm in which God truly reigns but rather shows readers a sky heaven characterised by archetypal conflict between powerful sky beings and a hyper heaven defined by full recognition of

the Throne In journeying through the sky structure and God space and by analysing the four cosmic layers in operation the distinct nature of the two sky spaces cosmic change and the ideological import of the cosmic structure Rothman demonstrates that the existence of the hyper heaven in contradistinction with the limited lived cosmos of earth and sky heaven is a present guarantee of the final cosmic transformation that creates a new space for human life exclusive of imperial draconian elements *In resonance with cosmic energies: terrorism and marketing* Николай Конюхов, 2018-09-23 This book is about the facts of fundamental dependency between the mankind development and cosmic energies both electromagnetic and non electromagnetic ones The facts are systematized in graphs Beyond the Universe Patrick DELSAUT, 2017-02-16 Human beings have always wanted to know what comes after death Some people who can voluntarily get out of their body went to the other side The testimonies of these explorers of the Beyond revealed that there are countless Worlds on other vibratory planes in other Dimensions where live the souls of the deceased living beings But the author of this book went even further and discovered that these countless Worlds are in reality countless planets belonging to other Cosmic Universes located in other Spaces and other Times on other vibratory planes in other Dimensions The Beyond is not nebulous but Cosmic The famous Gate of Heaven which allows the souls to pass into the Beyond is in reality a Vortex a Tunnel of Light which crosses the Space and Time a StarGate which leads the soul on another planet in another world in another Cosmic Universe in another Space in another Time in another vibratory plane in another Dimension **The Riddle of the Universe at the close of the nineteenth century** Ernst Haeckel, 2021-05-18 Monism is the metaphysical and theological view that all is one that there are no fundamental divisions and that a unified set of laws underlie all of nature which author Ernst Haeckel brilliantly examines *The Synthesis of Yoga* Sri Aurobindo, 1992 Truth of philosophy is of a merely theoretical value unless it can be lived and we have therefore tried in The Synthesis of Yoga to arrive at a synthetical view of the principles and methods of the various lines of spiritual self discipline and the way in which they can lead to an integral divine life in the human existence Index **The Secrets of Astrology** Vashisht Vaid, 2012-04-04 This book The Secrets of Astrology explains the reader deep secrets of these polarity relationships which exist between cosmic conscious entitles and beings whose bodies are these manifested planets solar systems and constellations which exist in the spherical brahmanda Universe Who trying to harmonize the continous flow of energies which keeps the continuation of conscious expansion of the superme being known as the cosmic fire Antariksh Agni who is the thinker for this grand experiments spherical existance in time and space through spiral cyclic rotational movement The spiral aspect is due to the electric dynamic will known as Shiva Father aspect the cycle is due to the Vishnu Son aspect and the rotation is due to the mother Holy Ghost aspect *Planetary orbits are perpetually shifting their position and form* Helena Petrovna Blavatsky, 2023-01-01 Why do celestial orbits perpetually shift their position and form Speculations galore enough for every taste and brain power on the origin of rotation and of the seven planes and comets Science lies on a Procrustean bed of its

own making Count de Maistre and William Herschel cut the Gordian knot by saying that the planets rotate because they are made to rotate for a will is needed to impart a circular motion and another will to restrain the former under the perturbing influence of the Sun The planetary orbits are far from immutable on the contrary they are subject to a perpetual mutation in their position and form As orbits are alternately widening and narrowing their great axis lengthens and diminishes or oscillates at the same time from right to left around the Sun raising and lowering itself periodically while pivoting around itself with a kind of tremor Gravity is an obsolete law in starry heaven and mother earth A comet whose tail defies the law of gravity right in the Sun's face can hardly be credited with obeying that law Science is like C's wife she must not be suspected but she can be respectfully criticised nevertheless It is hardly surprising that many learned astronomers favour the Kabbalah and ancient systems to the modern dreary and contradictory expositions of the Universe Spirit is the first differentiation of eternal Being or That It is the Causeless Cause of Cosmos manifesting through a plurality of Creative and Intelligent yet contrary Forces centripetal and centrifugal possessing inherent powers of their own Intra Cosmic Forces are not suppositions and abstractions they are acting realities whose attributes can be determined by direct observation and induction Deity is Life and Law and vice versa Deity is a Soul in an orbicular Fire Democritus That Fire is the Sun which is the image of divine Intelligence Iamblichus and an immortal Living Being Plato whose visible parts are its organs *The visible Sun in our Solar System is a ball of electromagnetic forces, glowing but not burning* Helena Petrovna Blavatsky, 2023-01-01 The Visible Sun is a veil of the Invisible Central Spiritual Sun of Truth The Invisible Sun is the ever concealed Central Point of all Universes and Solar Systems from which all emerged and toward which all gravitates It is the Central Sun's passive emissions of Creative Light that impart Motion and awaken Life in the numberless Solar systems of the Infinite Kosmos manifested worlds The Atoms of Science are the Vibrations of Occultism they keep the wheels of life going The extra cosmic God has killed the belief in intra cosmic Intelligent Forces that govern the rotatory motion in the infinitudes of Space Cosmic Motion circular and perpetual is Attraction and Repulsion not as understood by modern physics and the law of gravity but in harmony with the Immutable Laws of Manvantaric Motion regulated by interhuman not supernatural Intelligences within the Cosmic Soul The Solar Flames are reflections of the Central Spiritual Sun the Life giver to Kosmos radiating from the Central Point which is everywhere and nowhere from whence emanates and whither returns the Cosmic Intelligence sentient Beings scattered throughout the manifested worlds The visible Sun is the Father of the physical man the Moon is his Mother The visible Sun is a ball of electromagnetic forces glowing but not burning It is not even the proximal source of visible light and heat in our solar system It is the focus reflector and veil of the ever Concealed Central Spiritual Sun therefore mere illusion Our Sun will become a comet in future manvantaras The Central Spiritual Sun is the storehouse of Vital Force noumenon of Electricity those life currents which thrill through Space as through every creature on Earth The Vital Force intelligently guided radiates around man like a luminous sphere Suspended like a fetus within the Macrocosm

Universe or Spiritus Mundi i e Spirit of the visible Universe the Microcosm Mankind is vitalised and energised by the Arch us or Liquor Vit the Fluid of Life Nerve Aura through which the Cosmic Forces regulated and sustained by the never resting Breaths Agents of Cosmic Laws act upon the astral body of man curled in the spleen Pantheism was known and felt by the whole of antiquity It manifests itself in the vast expanse of the starry heavens in the breathing of the seas and oceans and in the quiver of life of the smallest blade of grass Esoteric Philosophy rejects the finite and imperfect God in our Universe as the anthropomorphic deity of the monotheist is represented by his followers The Vedic Aryans were as familiar with the mysteries of colour and sound as our physiologists are on the physical plane Moreover they had mastered the potencies of colour sound and number on planes inaccessible to the materialists The spiritual senses those that act on higher planes of consciousness are rejected by physiology because the latter is ignorant of the Sacred Science Yet mental as well as physical correlations of the senses seven on the physical and seven on the mental planes are clearly explained and defined in the Vedas The seven notes of the scale are the principles of sound The qualities of every element as of every sense are also septenary and to dogmatize upon them from their likewise septenary manifestation is whimsical It is only when Manas Higher Ego soars above the mists of ignorance that the qualities of objects of sense on their dual plane of manifestations visible and invisible can be clearly seen and comprehended The division of the physical senses into five comes to us from great antiquity But while adopting the number no modern philosopher has asked himself how these senses could exist i e be perceived in a self conscious way unless there was a sixth sense mental perception to register and record them and this for the Occultist is the Seventh Sense that preserves the spiritual fruition and remembrance thereof as in a Book of Life Nature shall unveil her mysteries only to those sincere and diligent students of Occult Philosophy who when pure impartial and unexpecting act as centres of benevolent work and shall lead them to the contemplation of celestial powers We keep cycling back and forward Having lost in spirituality pro rata what we had gained in physicality near the end of the Four Race Atlantean we are now cycling forward and upward until we reach the period that will bring the Sixth Race Enlightened on a parallel line with the spirituality of the Second Sweat born the long extinct Race of humanity Then by cutting the Tree of Life the slaves of birth life death shall be finally freed from the trammels and tyranny of matter Colours and sounds are associated with the Hierarchy of Compassion the Manifested Logos Colour is Spirit Atman sound is Voice Buddhi and proportion of numbers is Word Higher Manas Each prismatic colour is the Father of the Sound which corresponds to it Sound being the Word or Logos is his Father s Thought Thus the Creative Force produces colours sounds and numbers in the shape of rates of vibration which compound and dissociate atoms and molecules Perfect knowledge of the correspondences between colours sounds and numbers is the first requisite for the student of Occult Philosophy Who can assume the flower of power the plant of the golden stem and the azure blossom The calamitous error leading to the sum total of mistaken views among the materialists is this the so called Nervous Ether is not an animal product it is the living animal itself It is the lowest principle

of Primordial Essence which is Life that animal vitality diffused all around Nature the flowers of self consciousness unfolding from within outwardly are its products But beware under every flower there is a serpent coiled Even when death arrives the Fluid of Life does not abandon the body It only changes its state from activity to passivity assuming dormancy because of the morbid state of tissues upon which it has no more hold Once the rigor mortis has set in the Liquor Vit reactivates and begins its work on the atoms chemically The Vital Force radiates within and around a person like a luminous aura It can be made to act at a distance to poison a fellow human being or conversely to heal the sick and restore health **Madame Blavatsky on the Theosophy of Dr. N.I. Pirogov** Helena Petrovna Blavatsky, 2019-05-30 Metaphysical mystical and philosophical excerpts from Dr N I Pirogov Problems of Life The Diary of an Old Physician Selected and translated from the Russian by H P Blavatsky with extensive annotations and commentary The thoughts of the false I or personality are mere shadows of the true Individuality and Higher Ego The records of past events and passing thoughts even the most trifling ones are impressed on the imperishable waves of Astral Light not in the brain alone Intuition is divine but faith is human and the misapplication of inner intuition Personality being the illusion of separateness is the root cause of all selfishness and evil It has to be conquered and crushed before the lower is united with its higher counterpart Loss of mind is due to the paralysis of the higher functions in Kama Manas the physical mind and in cases of incurable insanity to the severance of the lower self from the Higher Self during a person's lifetime thus preventing the reunion of the two When one falls into a love of self and love of the world with its pleasures losing the divine love of God and of the neighbour he falls from the illusionary life and fear of death to real death The higher principles which constitute the essential elements of his humanity perish and he lives only on the natural plane of his faculties The atoms of Science are not of this earth but belong to quite a different plane And the atomic theory is on a par only with the undulatory theory of light The Ether of Space is considerably different from the medium of Science The chasm between mind and matter is impassable No theory of evolution or heredity will ever cover or explain the mystery The incessantly rolling and waving Ocean of Life of Dr Pirogov is the triply manifested Deity of the Occultists two opposing forces of spirituality and animalism eternally reacting upon each other Universal Mind and Eternal Atom The immortal Higher Ego Nous is man's true Individuality that keeps reincarnating in a new personality at every birth Dr Pirogov's purely natural idealism is a spiritual perception of eternal truths that no scientific sophistry could destroy or even blunt He esteems Truth higher than Science Physical Science calls atoms that which the Occultists regard as particles or molecules The real Atoms are the inner principles and the intelligent spiritual guides of the cells and particles they inform Man is produced in the image of God or Divine Nature Every cell in the human organism corresponds with a like cell in the divine organism or the manifested universe The I of man or Microcosm and the Universe or Macrocosm are illusions inseparable and interdependent but illusion nevertheless The human mind or lower manas is a direct ray or reflection of a Higher Principle the Noetic Mind The latter is the reincarnating Ego which old Aryan philosophers call Manasaputras the

Sons of Mind or Mahat the Universal Cosmic Mind Dr Pirogov can hardly be taken to task and declared unscientific in accepting the existence of a seven dimensional space in co ordination with the seven states of consciousness In the course of natural evolution our brain mind will be replaced by a finer and more spiritually receptive organism helped by the sixth and the seventh senses A Higher Principle may be independent of the matter it rules but only when outside of space and time God is the centre the Intellectual Principle an unmoving circle Soul a circle in motion As our mind is but the product of Universal Mind so is the latter but a differentiated ray of the Absolute Mind or No Mind a state of Perfect Unconsciousness Atom is not the smallest constituent unit of matter not even a mathematical point it is an immutable Entity a reality within an appearance the molecule being in Occult Philosophy but a figment of maya illusion It may be described as a compact or crystallized point of divine Energy and Ideation Occultism affirms that there is no such thing as inert dead or even inorganic matter Time is abstract motion in space i e force acting in space and transforming itself by this very action into substance In philosophy the term empirical is the product of experience and observation plus Science The sensing principle in us is an entity capable of acting outside as inside its material body and it is certainly independent of any organ in particular in its actions although during its incarnation it manifests itself through its physical organs Our Higher Ego is a ray of the Universal Mind individualized for the span of a cosmic life cycle during which time it gets experience through almost numberless reincarnations or rebirths before returning to its Parent Source There are two minds in man two aspects of the same divine principle the higher or true Individuality and the lower or Personality It is these two that during our lifetime are in incessant struggle the one trying to gravitate heavenward the other dragged down by its animal nature to the earth earthy Nothing that takes place no manifestation however rapid or weak can ever be lost from the skandhic records of a man s life The Universal Memory preserves every motion the slightest wave and feeling that ripples the waves of differentiated nature whether of man or of Universe The metaphysician and the theosophist will applaud almost every word Dr Pirogov says regretting only that men of such profoundly intuitional nature should be so rare among the men of science Pages from Isis Unveiled Helena Petrovna Blavatsky, 2025-02-07 Part 1 The Fiery Waters of Aether is Divine Substance expanding from within without the Garment of God woven from its own Essence The Fiery Waters of Aether is Divine Substance expanding from within without the Garment of God veil and cloak of Truth woven from its own Essence There is nothing new except what is forgotten Miracles are perfectly natural acts always in accordance with natural law Kurios is Mercury Divine Wisdom and Mercury is the Sun from whom Thoth Hermes received his divine wisdom Hercules is also the Sun the celestial storehouse of Universal Magnetism ther is the Celestial Virgin the spiritual mother of every existing form and being from whose bosom as soon vivified and fructified by the Divine Spirit are called into existence Matter and Life Force and Action All ancient legends begin with that period when nascent vapours and Cimmerian darkness lay brooding over a fluid mass ready to start on its journey of activity at the first flutter of the breath of Him who is the Unrevealed One Him they felt yet they saw

Part 2 On the Invisible World of Elements Elementals and Elementaries God or the infinite and uncreated spirit a divine substance of the highest virtue and excellency produced everything else by emanative causality The world is underpinned by magnetic sympathy or attraction between men animals plants and even minerals More Each planet is inhabited by spiritual beings who exercise influences over other beings inhabiting more gross and material spheres than their own and especially over our earth There is only one magnet in the universe and this is the Central Spiritual Sun From It proceeds the magnetization of everything else There are two kinds of magnetic attraction sympathy and fascination the one is holy and natural the other unholy and unnatural The magnetism of pure love is the originator of every created thing In its ordinary sense love between the sexes is electricity Athanasius Kircher calls sensual love the fever of species liphas L vi an intoxication of the astral light Man is a little world inside the great universe Like a f tus he is suspended by three spirits in the matrix of the Macrocosmos The Pythagorean

Monas which lives in solitude and darkness may remain on this earth forever invisible and impalpable When by successive transformations throughout the ages this once impalpable Atom finds itself reclothed in that primordial essence which is identical with that of its Creator then the Sons of God will once more shout for joy at the return of the Pilgrim Man possesses a double celestial power and his triple nature stands in relationship to all things Being the mirror of the universe man is allied to heaven Music exercises a singular therapeutic power over certain diseases especially those of the nervous class Dire are the consequences of abusing magnetic powers Only the pure in heart can heal the ills of the body Magical powers are never possessed by those addicted to vicious indulgences It is not always the minds which are the most scientifically trained that are the best in matters of simple common sense and honest truth Have they not these Titans of thought dragged down God from His hiding place and given us instead a protoplasm A presumptuous scepticism that rejects facts without examination of their truth is in some respects more injurious than unquestioning credulity The perpetual lamps of alchemy stand for the incorruptible and immortal spirit The Egyptians more than any other people hoped that their ever burning lamp would help the material soul to part with its earthly dwelling and unite forever with its divine counterpart A Cypriote knight had both flax and linen made out of asbestos which were cleaned by simply throwing them in the fire A similarly made gown such as the Buddhist monks wear thrown into a large pit full of glowing coals and taken out two hours afterward was as clear as if it had been washed with soap and water Magic in prehistoric periods had a part in the mysteries The greatest phenomena the so called miracles rested on the arcane knowledge of the ancient priests of physics and all the branches of chemistry or rather alchemy The twins brothers Castor and Pollux are personifications of the twin polarity of electricity and magnetism The Dioscouri constantly die and return to life together for it is absolutely necessary that one should die that the other may live In their unbounded glorification of matter our physicists proclaim matter the sole and autocratic sovereign of a Boundless Universe If they could they would forcibly divorce matter from her consort and place the widowed queen on the great throne of nature made vacant by the exiled spirit The Platonic philosophy was one of order system and proportion It embraced the evolution of worlds and species the correlation and conservation of energy the transmutation of material form and the indestructibility of matter and of spirit Plato s method like that of geometry was to descend from universals to particulars In the same manner as lovers gradually advance from that beauty which is apparent to that which is divine so the ancient priests attributed the alliance and sympathy between natural things to the underlying interconnectedness of all things The Divine Proclus pointed out certain mysterious peculiarities of plants minerals and animals all of which are well known to our naturalists but none of which are explained Proclus who combined Theosophy and Theurgy also advocated a divine science that is firmly and solely based on the mysterious affinities between organic and inorganic bodies the visible productions of the four kingdoms and the invisible powers of the universe Persons have been known to fall sick simultaneously with the uprooting of a tree planted upon their natal day and dying when the tree died Alas The divine

intellect is veiled in man his animal brain alone philosophises In spiritually fertile periods the occult powers of plants animals and minerals magically sympathize with the superior natures and the divine soul of man is in perfect rapport with these inferior ones Formerly magic was a universal science entirely in the hands of the sacerdotal savant Though the focus was jealously guarded in the sanctuaries its rays illuminated the whole of mankind There is nothing new under the Sun Yet modern scientists have reaped more palms and laurels for their great discoveries than Lucretius Cicero Plutarch and Seneca had hairs on their heads Plutarch said that an idea has no subsistence by itself but gives figure and form to shapeless matter and becomes the cause of its manifestation

Uncommon Knowledge Al McDowell, 2012-10-26 This book develops new science of gravity and light based on the century old Le Sage theory of an ether that was replaced by Einsteins Theory of Relativity After presenting astrophysical data contradicting the theory that the universe is expanding from a Big Bang experiments believed to prove Relativity are shown to actually prove the ether theory instead Freedom from the speed limit of light enables a science of subatomic particles traveling faster than light to produce gravity electric and magnetic fields light and radio waves Major technical innovations include solving the two fundamental problems with the Le Sage gravity theory and extending this theory to electromagnetism and consciousness This is a theory of everything that explains the heretofore unknown causes of the forces of nature This book builds on the works of Zecharia Sitchin and other authors to explain how life developed on Earth and that evolution requires direction from intelligence that dwells in the subatomic particles on which this theory of gravity and light is based Our biblical God is shown to be a composite of Sitchins extraterrestrial gods who colonized Earth and the intelligence that dwells alongside our own mind in the particles from which the universe is constructed and powered

The Whole Person Roberta Vienneau, 2023-07-19 In a world where many are disillusioned with the highly drug dependent medical establishment integrative medicine is gaining popularity because of its more holistic approach Holism by definition implies greater than the sum of its parts and is a response to reductionism especially biological reductionism in medicine The holistic model widely accepted in integrative healthcare today is a biopsychosocial model that aims to treat the whole person It is a systems hierarchy model that includes the universe to a cell particle so one s understanding of holism will be reflected in what one considers relevant To a pulmonologist holism might mean the whole respiratory system to a geneticist holism might mean the whole family history but who is treating the whole person This groundbreaking book sheds light on the limitations of integrative healthcare in exploring the full potential of homeopathy in treating the whole person It argues that we don t need a new approach definition or understanding of holism We sometimes just need to step out of the systems hierarchy model of the reductionist paradigm itself to get a larger view and redefine the boundaries of what constitutes the wholeness of a person With a clear and engaging writing style the book takes readers on a journey through the history and evolution of the concept of whole and presents a compelling case for the adoption of an anthroposophic paradigm as a more comprehensive and effective approach to holism healing and homeopathy

Whether you are a homeopath a healthcare practitioner a patient or simply interested in holistic medicine this is a must read book that will challenge your assumptions and expand your understanding of what it means to treat the whole person

Symphonies of Creation Oskar Kürten, 2018-10-10 No true understanding of the world is possible without an understanding of the elementary kingdoms Oskar Kürten A hidden gem for students of Rudolf Steiner's spiritual scientific research Symphonies of Creation offers a breathtaking overview of the physical and metaphysical development of the world and humanity In describing the elementary kingdoms Kürten elucidates the exalted spiritual realms out of which all creation has arisen These are the formative forces that provide successive life waves of being with the subtle and physical forms through which their evolution becomes possible He traces the beginnings of creation an unformed thought seed in the elementary kingdoms that is elaborated by hierarchical beings at all levels through the planes of the spiritual soul and physical worlds to the manifold and evolving aspects of the human being What emerges is a picture of astonishing complexity and beauty in which all spiritual beings connected with the earth from the highest to the lowest work together in symphonic harmony Rudolf Steiner spoke on many occasions and in different places of these elementary kingdoms and the multiple processes that take place within them Kürten has sought out these references meditated on their content and re presents it here in an inwardly coherent synthesis Even for those who have been studying anthroposophy for decades this book can offer startlingly fresh insights Symphonies of Creation is the life's work of a man who due to severe deafness led a retiring existence His inner work however was full of life the results of which are presented in this inspiring study **Genesis of the Cosmos** Paul A. LaViolette, 2004-04-15 Paul LaViolette reveals astonishing parallels between cutting edge scientific thought and early creation myths and how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from chaos Exposing the contradictions of the Big Bang theory LaViolette leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century
