Ethical Dimensions Of Marxist Thought:

Ethical Dimensions of Marxist Thought Cornel West, 1991 Esteemed American philosopher Cornel West tackles the ethics of the Marxism agenda In this fresh original analysis of Marxist thought Cornel West makes a significant contribution to today s debates about the relevance of Marxism by putting the issue of ethics squarely on the Marxist agenda West professor of religion and director of the Afro American studies program at Princeton University shows that not only was ethics an integral part of the development of Marx s own thinking throughout his career but that this crucial concern has been obscured by such leading and influential interpreters as Engels Kautsky Luk cs and others who diverted Marx s theory into narrow forms of positivism economism and Hegelianism *Ethical Dimensions of Marxist Thought* Cornel West, 1991 Esteemed American philosopher Cornel West tackles the ethics of the Marxism agenda In this fresh original analysis of Marxist thought Cornel West makes a significant contribution to today s debates about the relevance of Marxism by putting the issue of ethics squarely on the Marxist agenda West professor of religion and director of the Afro American studies program at Princeton University shows that not only was ethics an integral part of the development of Marx s own thinking throughout his career but that this crucial concern has been obscured by such leading and influential interpreters as Engels Kautsky Luk cs and others who diverted Marx s theory into narrow forms of positivism economism and Hegelianism

Cornel West's the Ethical Dimensions of Marxist Thought Monthly Review Foundation, 1993 **A Symposium on Cornel West's The Ethical Dimensions of Marxist Thought** Cornel West, 1993 *Toward a Postmodern Ethic of Radical Freedom* Darrell J. Wesley, 2023-09-08 *Toward a Postmodern Ethic of Radical Freedom* is one of the first if not the first to bring Cornel West and Michel Foucault together in a meaningful dialogue to formulate a postmodern ethic of radical freedom This dialogue begins with the practical posture of West more specifically his notions of truth and reality and work then goes back to his more theoretical work to explore the same notions As a project in constructive ethics this book examines Cornel West s epistemology notion of truth and metaphysics notions of reality as foundational components for a postmodern ethic of radical freedom These foundational components are then brought into a discursive conversation with aspects of Michel Foucault s archaeology and genealogy with a method called reconstruction This reconstruction results in two important trajectories radical ontology and radical epistemology which become the pillars for a postmodern ethic of radical freedom The last chapter of the book weaves together all components with the womanist work of Monica Coleman and Patricia Hill Collins as examples of this ethic of radical freedom Practically speaking this postmodern ethic of radical freedom serves as a platform to ensure transcendence so that all people regardless of race gender or sexuality can enjoy a flourishing and fulfilled life **Works Righteousness** Anna Lisa Peterson, 2020 *Works Righteousness* explores the ways that different ethical theories relate to what people actually do Peterson argues that the most dominant philosophical and religious approaches have largely ignored practice assuming that internal mental states are what matter for ethics and that ideas and

practices are related in a simple linear fashion However some alternative models including pragmatism Marxism and religious pacifism present a more complex view of the relations between values and practices These traditions show how attention to practices opens up new ways of thinking about moral theory and concrete issues like hate speech euthanasia and climate change

Lukács After Communism Eva L. Corredor,1997 Since the collapse of communism in Eastern Europe the validity of Marxism and Marxist theory has undergone intense scrutiny both within and outside the academy In Luk cs *After Communism* Eva L Corredor conducts ten lively and engaging interviews with a diverse group of international scholars to address the continued relevance of Gy rgy Luk cs s theories to the post communist era Corredor challenges these theoreticians who each have been influenced by the man once considered the foremost theoretician of Marxist aesthetics to reconsider the Luk csean legacy and to speculate on Marxist theory s prospects in the coming decades The scholars featured in this collection Etienne Balibar Peter B rger Terry Eagleton Fredric Jameson Jacques Leenhardt Michael L wy Roberto Schwarz George Steiner Susan Suleiman and Cornel West discuss a broad array of literary and political topics and present provocative views on gender race and economic relations Corredor s introduction provides a biographical synopsis of Luk cs and discusses a number of his most important theoretical concepts Maintaining the ongoing vitality of Luk cs s work these interviews yield insights into Luk cs as a philosopher and theorist while offering anecdotes that capture him in his role as a teacher mentor

Cornel West and the Politics of Prophetic Pragmatism Mark David Wood,2000 Wood evaluates the political consequences of a shift in West s position from an earlier revolutionary socialist stance to a later progressive reformist one Wood shows how West s subsequent reworking of Marxism supports his transition from a socialist to a

progressivist politics BOOK JACKET Building Beloved Community in a Wounded World Jacob L. Goodson, Brad Elliott Stone, Philip Rudolph Kuehnert, 2022-10-27 Is the beloved community local national global or universal What kind of love is required for the beloved community Is such a community only an ideal or can it be actualized in the here and now Tracing the phrase beloved community from Josiah Royce through Martin Luther King Jr to a variety of contemporary usages Goodson Kuehnert and Stone debate answers to the above questions The authors agree about the importance of beloved community but disagree on the details These differences come out through arguments over the local vs the universal the type of love the beloved community calls for and what it means to conceptualize community Ultimately they argue the purpose of beloved community involves responding to the cries of the wounded and those who suffer in the wounded world **The Poverty of Ethics** Anat Matar, 2022-07-12 Why the left should reclaim ethics and morality for itself The Poverty of Ethics stands the usual moral political dichotomy on its head It argues that moral principles do not in fact underlie or inform political decisions It is rather the conceptual primacy of political discourse that rescues ethics from its poverty Our ethical convictions receive their substance from historical narratives political analyses empirical facts literary educational models political activity and personal experience Yet morality essentially doesn't leave room for relativity not every ethos deserves to be titled moral Hence the book argues further it is the left ethos as it has evolved over years which forms the basis for ethics morality is left wing Clarifying and justifying this seemingly odd statement is the main purpose of this essay Appealing to philosophical ideas on the essence of language on meaning on understanding and persuasion this book scrutinizes the system of concepts and attitudes informing our common view of the relationship between the moral and the political It argues that the traditional conception of morality is far too narrow to form a basis for political thought and political action Its carefully unfolded argument concludes that none of the current philosophical accounts of morality can be translated into terms of political will much less into direct political action Being too general and elastic neither abstract moral principles ethical aesthetic sensibilities nor the ethical demand emanating from an Other can fulfill these tasks Instead the false primacy of the ethical over the political and the infinite flexibility of vacuous moral discourse are often mobilized to launder wrongs and delegitimize radical left politics Gratification of the moral high ground becomes an implement of depoliticization and thus a powerful political instrument in the hands of those seeking to shore up the existing order *Economy, Difference, Empire* Gary Dorrien, 2010-11-02 Sourcing the major traditions of progressive Christian social ethics social gospel liberalism Niebuhrian realism and liberation theology Gary Dorrien argues for the social ethical necessity of social justice politics In carefully reasoned essays he focuses on three subjects the ethics and politics of economic justice racial and gender justice and antimilitarism making a constructive case for economic democracy along with a liberationist understanding of racial and gender justice and an anti imperial form of liberal internationalism In Dorrien's view the three major discourse traditions of progressive Christian social ethics share a fundamental commitment to transform the structures of society in the direction of

social justice His reflections on these topics feature innovative analyses of major figures such as Walter Rauschenbusch Reinhold Niebuhr James Burnham Norman Thomas and Michael Harrington and an extensive engagement with contemporary intellectuals such as Rosemary R Ruether Katie Cannon Gregory Baum and Cornel West Dorrien also weaves his personal experiences into his narrative especially his involvement in social justice movements He includes a special chapter on the 2008 presidential campaign and the historic candidacy of Barack Obama

Marx and We Sun Zhengyu, 2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations

John Ruskin and the Ethics of Consumption David Melville Craig, 2006 The first book on the Victorian critic and public intellectual John Ruskin by a scholar of religion and ethics this work recovers both Ruskin's engaged critique of economic life and his public practice of moral imagination With its reading of Ruskin as an innovative contributor to a tradition of ethics concerned with character culture and community this book recasts established interpretations of Ruskin's place in nineteenth century literature and aesthetics challenges nostalgic diagnoses of the supposed historical loss of virtue ethics and demonstrates the limitations of any politics that eschews common purpose as vital to individual agency and social welfare Although Ruskin's moralistic efforts did not always allow for democratic individuality equality and contestation his eclecticism Craig argues helps to correct these problems Further Ruskin's interdisciplinary explorations of beauty work nature religion politics and economic value reveal the ways in which his insights into the practical connections between aesthetics and ethics and culture and character might be applied to today's debates about liberal modernity today With the triumph of global capitalism and the near silence of any opposing voice Ruskin's model of an engaged reading of culture and his public practice of moral imagination deserve renewed attention This book provides students in religion politics and social theory with a timely reintroduction to this timeless figure

Building a Social Democracy Robert Danisch, 2015-11-06 Building a Social Democracy examines the various types of communication practices that are necessary to build a social democracy Danisch contends that rhetorical pragmatism improves our sociopolitical circumstances by turning questions about epistemology into questions about communication practices

From Hegel to Marx Sidney Hook, 1994 In this classic work originally published in 1932 Hook set out to demonstrate to the radical and conservative philosophers and activists of the 1920s and 1930s that Marx was a systematic thinker who developed a sound set of philosophical principles

A Theology of Gratitude Mona Siddiqui, Nathanael Vette, 2022-12-22 How from a theological standpoint should we make sense of gratitude This rich

interdisciplinary volume is the first concertedly to explore theologies of gratitude from both Christian and Muslim perspectives While the available literature has tended to rhapsodize gratitude to God and others as both a virtue and an obligation this book by contrast offers something new by detailing ways in which gratitude is complicated by inequality even to the point of becoming a vice Gratitude now emerges as something more than a virtue and other than merely transactional It can be a burden bringing about indebtedness and an imbalance of power but it may also be a resonant source of reconciliation and belonging Topics discussed cover the personal and political dimensions of gratitude including such issues as justice multiculturalism racism imperialism grief memory and hope The book assembles from different traditions some of the leading theologians of our times We're Not Going to Take it Anymore Gerald G.
