Ethics, Justice, and International Relations Peter Sutch, 2001 This topical and timely book critically explores contemporary liberal international relations theory Essential reading for students and scholars in politics international relations political theory and ethics

Ethics, Justice and International Relations Peter Sutch, 2013-04-15 This topical and timely book critically explores contemporary liberal international relations theory In the fifty years since the declaration of human rights the language of international relations has come to incorporate the language of justice and injustice The book argues that if justice is to become the governing principle of international politics then liberals must recognise that their political preferences cannot be the preconditions of global ethics The hierarchy of international political ethics must be constructed afresh so that the first principles of justice are accessible to all agents as political and ethical equals This book will be essential reading for students and scholars in politics international relations political theory and ethics

*The Politics of Conflict Economies* Morten Bøås, 2014-08-21 Conflict economies cannot be approached in isolation but must instead be contextualised socially and historically These economies did not emerge in vacuum but are part and parcel of the history of people and place This book explores the informal and illicit extraction and trade of minerals and other types of natural resources that takes place in the borderlands during periods of conflict This type of extraction and marketing often referred to as conflict trade depends on a weak state and works alongside the structures of the state and its officials The book emphasises that conflicts do not start as competition over natural resources and in turn suggests that the integration of the extraction and marketing of natural resources only starts once fighting is well under way Boas argues that although economic agendas are an integral part of African conflicts the desire to accumulate is not the only motivation Thus in order to present a more comprehensive analysis of conflict we need to take into account political cultural and historical factors in addition to the economic dimensions of conflict This book will be of very strong interest to students and scholars of political economy conflict studies international relations and development

**Constituting Human Rights** Mervyn Frost, 2003-08-29 Global civil society and the society of democratic states are the two most inclusive and powerful global practices of our time In this book Frost claims that without an understanding of the role that individual human rights play in these practices no adequate understanding of any major feature of contemporary world politics from globalisation to new wars is possible Constituting Human Rights therefore argues that a concern with human rights is essential to the study of International Relations

**Capitalism, Democracy and the Prevention of War and Poverty** Peter Graeff, Guido Mehlkop, 2008-11-20 This book seeks to explore and understand the causes of war and poverty drawing on the theory of democratic peace and the theory of capitalistic peace It discusses democracy conflict resolution economic development and industrial modernization

**Transformations of Security Studies** Gabi Schlag, Julian

Junk, Christopher Daase, 2015-10-30 This volume brings together a group of distinguished scholars to engage in a dialogue on key developments in the study of security The book provides a comprehensive overview of theoretical empirical and methodological developments within security studies whose political and societal importance has grown significantly in recent years By bringing together scholars who hold differing perspectives on security this volume provides insights into a variety of approaches and their newest developments including mainstream as well as heterodox perspectives on security Thus it aims to build bridges of communication between different camps by initiating a dialogue on the identity and diversity of security studies It does so in three parts The first part of the book includes paradigmatic approaches to security that are closely connected to major debates in International Relations such as realism institutionalism constructivism as well as approaches to the culture ethics of security and critical security studies The second part places emphasis on the broadening and deepening of the concept of security in recent decades It discusses key empirical frontiers including the continued centrality of the state the link between democracy and security environmental security as well as financial security The third part of the book presents various methodological approaches to the question of security and peace It provides an overview of new approaches such as the visual turn quantifying security and method combinations This book will be of much interest to students of critical security studies international relations and research methods *Global Civil Society* Gideon Baker, David Chandler, 2004-11-23 For many commentators global civil society is revolutionising our approach to global politics as new non state based and border free expressions of political community challenge territorial sovereignty as the exclusive basis for political community and identity This challenge from below to the nation state system is increasingly seen as promising nothing less than a reconstruction or a re imagination of world politics itself Whether in terms of the democratisation of the institutions of global governance the spread of human rights across the world or the emergence of a global citizenry in a worldwide public sphere global civil society is understood by many to provide the agency necessary for these hoped for transformations Global Civil Society asks whether this idea is such a qualitatively new phenomenon after all whether the transformation of the nation state system is actually within its reach and what some of the drawbacks might be The Politics of Protection Jef Huysmans, Andrew Dobson, Raia Prokhovnik, 2006-05-17 This new book shows how from the end of the Cold War the security agenda has been transformed and redefined academically and politically It focuses on the theme of protection It moves away from the dominant question of whom or what is threatening to the crucial questions of who is to be protected and in the case of conflicting claims who has the capacity to define whose needs prevail It also poses the question of political agency in relation to some of the most significant questions raised in relation to the governance of insecurity and protection in the contemporary world The authors identify and explore issues that challenge or raise a number of questions about the traditional notion that states are to protect their citizens through retaining a monopoly over the legitimate use of violence New Norms and Knowledge in World Politics Preslava Stoeva, 2009-10-16 This book examines the process of

norm development and knowledge creation in international politics and assesses these processes in case studies on protection from torture intellectual property rights and climate change Drawing on the theories of constructivism and the sociology of scientific knowledge author Preslava Stoeva demonstrates that international norms are a product of a sequence of closures and consensus reached at different social levels She contends that it is this process which makes norms permeate the social and political fabric of international relations even before they become official principles of state behaviour Proposing a theoretical model which indicates the stages of the development of norms she studies the roles that various actors play in that process together with the interplay of various types of power Through this endeavour this book succeeds in providing the reader with a better understanding of the social processes that lead to normative change in international relations *New Norms and Knowledge in World Politics* will be of interest to students scholars and practitioners of international relations comparative politics globalization sociology and anthropology *The History and Politics of UN Security Council Reform* Dimitris Bourantonis, 2004-08-02 This is a penetrating analysis of UN Security Council reform It presents an overview of the current debates emphasising the potential for and modalities of adjustment in the post Cold War era through a systematic investigation of the various reform proposals and the attitudes of member states This is essential reading for all students and scholars of the United Nations and international relations *Russia and NATO since 1991* Martin Smith, 2006-06-16 This is the first comprehensive analysis of the development of relations between Russia and NATO since 1991 Since the re emergence of Russia as an independent state in December 1991 debates and controversies surrounding its evolving relations with NATO have been a prominent feature of the European security scene This is the first detailed and comprehensive book length analysis of Russia NATO relations covering the years 1991 2005 This new volume investigates the nature and substance of the partnership relations that have developed between Russia and NATO since the end of the Cold War It looks at the impact that the Kosovo crisis September 11th the Iraq War and the creation of the NATO Russia Council have on this complex relationship The author concludes that Russia and NATO have so far developed a pragmatic partnership but one that may potentially develop into a more significant strategic partnership This book will appeal to students and scholars of international relations European politics and European security *The Scourge of Genocide* Adam Jones, 2013-06-26 *The Scourge of Genocide* collects essays reviews and reportage on the subjects of genocide and crimes against humanity by Adam Jones recently selected as one of Fifty Key Thinkers on the Holocaust and Genocide The volume includes a number of previously unpublished essays and explores a range of debates and approaches in comparative genocide studies such as Genocide pedagogy and visual representation Gender and gendercide The role of media and communications in genocide The historiography of genocide studies Subaltern genocide or genocides by the oppressed Strategies of genocide prevention and intervention Covering a broad spectrum of theoretical perspectives as well as case studies from the former Yugoslavia Rwanda Guatemala Afghanistan Iraq and Israel Palestine this book is essential

reading for all scholars and students of genocide studies political violence and international relations *U.S. Security Cooperation with Africa* Robert J. Griffiths, 2016-04-14 As Africa's strategic importance has increased over the past decade and a half United States security cooperation with the continent has expanded The most visible dimension of this increased engagement was the establishment of the U S Military Command for Africa AFRICOM Some critics are skeptical of AFRICOM's purpose and see the militarization of U S Africa policy while others question its effectiveness Recognizing the link between development and security AFRICOM represents a departure from the traditional organization of military commands because of its holistic approach and the involvement of the Department of State as well as other U S government stakeholders Nevertheless AFRICOM's effort to combine security and development faces formidable conceptual and operational challenges in trying to ensure both American and African security interests The human security perspective's emphasis on issues that go beyond traditional state centered security to include protecting individuals from threats of hunger disease crime environmental degradation and political repression as well as focusing on social and economic justice is an important component of security policy At the same time the threat of violent extremism heavily influences U S security cooperation with Africa In this examination of the context of U S African security relations Robert J Griffiths outlines the nature of the African state traces the contours of African conflict surveys the post independence history of U S involvement on the continent and discusses policy organization and implementation and the impact of U S experiences in Iraq and Afghanistan on the U S Africa security relationship Africa's continuing geostrategic significance the influence of China and other emerging markets in the region and America's other global engagements especially in light of U S fiscal realities demonstrate the complexity of U S African security cooperation **On Rawls, Development and Global Justice** H.

Williams, 2011-03-08 John Rawls text *The Law of Peoples* has inspired extensive scholarly debate in the field of international political theory since its publication in 1999 Responding to the arguments of cosmopolitan theorists and Amartya Sen's recent critique this new work presents a fresh appraisal of the debate and argues that Rawls offers a persuasive and prescient moral perspective on issues of global poverty and development By elaborating one of Rawls' core ideas the duty of assistance the book offers a unique theoretical response to the ideal of global justice The duty is presented as a far reaching principle of justice one that advocates increasing the state capability of burdened societies and aims to compel the most powerful states to reform international structures and provide aid in a constructive and culturally sensitive manner The aim of assistance is the strengthening of democratic or decent indigenous institutions and the promotion of the freedom of peoples *On Rawls Development and Global Justice* is an original contribution to current debates on international redistribution democracy promotion and global poverty Profits, Security, and Human Rights in Developing Countries James Rochlin, 2015-06-19 The extractive sector is a particular area of expertise for Canada and more than half of Canada's mining assets abroad are located in Latin America specifically in Brazil Peru Chile and Colombia The Canada Colombia

accord was the first free trade agreement in the world to include annual Human Rights Impact Assessments HRIA and also includes a labour side accord where abuse complaints can be formally registered Using Colombia as a case study James Rochlin and his international and multidisciplinary line up of Canadian and Colombian scholars and activists working in the area of human rights and the judiciary explore What is the best way to identify and operationalize for mutual benefit the concentric space between the interests of extractive corporations in profit and security on the one hand and the interests of the host communities in the promotion of human rights and human security on the other What can the four emblematic and diverse cases in Colombia Meta Sergovia Marmato and Bolivar La Guajira tell us about how to fine tune and improve a newly implemented governmental HRIA to render it an increasingly useful global instrument to promote simultaneously corporate security and human security for host communities What is the most efficient and effective way to design and implement Corporate Social Responsibility Programs in a manner that promotes simultaneously corporate security and community human security Written in a clear and accessible style Profits Security and Human Rights presents practical lessons on how to promote both corporate security and human security in communities where the extractive sector operates in the Global South

**The Emerging Politics of Antarctica** Anne-Marie Brady, 2013 This book examines the post Cold War challenges facing Antarctic governance It seeks to understand the interests of new players in Antarctic affairs such as China India Korea and Malaysia and how other key players such as Russia and the USA or claimant states such as New Zealand or France are coping in the new global order Antarctica is the world's fifth largest continent and its territories are claimed by seven different states Since 1961 Antarctica has been managed under the Antarctic Treaty System ATS a regime which according to its critics by the terms of its membership effectively excludes most of the nations of the world This book examines the post Cold War challenges facing Antarctic governance and is organized thematically into three sections Part 1 considers the role of Antarctic politics in the current post Cold War post colonial era and the impact this new political environment is having on the ATS Part 2 looks at the competing foreign policy objectives of a representative range of countries with Antarctic activities Part 3 examines issues that have the potential to destabilise the order of the Antarctic Treaty System such as unrestricted tourism and new advances in science and technology The Emerging Politics of Antarctica will be of interest to students and scholars of international politics polar studies and foreign policy studies

**Postcolonial Politics, The Internet and Everyday Life** M.I. Franklin, 2006-05-02 This book explores the technical political economic and sociocultural implications of technological change Using an international political economy approach the author focuses on how the Internet is used by ethnic minorities to communicate

**The Politics of Place and the Limits of Redistribution** Melissa Ziegler Rogers, 2015-10-14 Numerous scholars have noticed that certain political institutions including federalism majoritarian electoral systems and presidentialism are linked to lower levels of income redistribution This book offers a political geography explanation for those observed patterns Each of these institutions is strongly shaped by geography and provides

incentives for politicians to target their appeals and government resources to localities Territorialized institutions also shape citizens preferences in ways that can undermine the national coalition in favor of redistribution Moreover territorial institutions increase the number of veto points in which anti redistributive actors can constrain reform efforts These theoretical connections between the politics of place and redistributive outcomes are explored in theory empirical analysis and case studies of the USA Germany and Argentina      *Urbicide* Martin Coward,2008-09-30 Developing the concept of urbicide the deliberate destruction of cities Martin Coward outlines a theoretical understanding of the urban condition at stake in such violence The first comprehensive analysis Coward argues that it is necessary to address the widespread and deliberate destruction of buildings as a distinct form of political violence
