Freedom The Courage To Be Yourself:

Freedom Osho,2007-04-01 Learn how to set yourself free with the philosophies of one of the twentieth century s greatest spiritual teachers in Freedom The Courage to Be Yourself In Freedom Osho outlines three stages of freedom The first is freedom from which is a freedom that comes from breaking out of what he calls the psychological slavery imposed by outside forces such as parents society or religion The next stage is freedom for a positive freedom that comes from embracing and creating something a fulfilling relationship for example or an artistic or humanitarian vision And lastly there is just freedom the highest and ultimate freedom This last freedom is more than being for or against something it is the freedom of simply being oneself and responding truthfully to each moment This book helps readers to identify the obstacles to their freedom both circumstantial and self imposed to choose their battles wisely and to find the courage to be true to themselves Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness He has been described by the Sunday Times of London as one of the 1000 Makers of the 20th Century and by Sunday Mid Day India as one of the ten people along with Gandhi Nehru and Buddha who have changed the destiny of India Since his death in 1990 the influence of his teachings continues to expand reaching seekers of all ages in virtually every country of the world *Glimpses of Freedom* Katya Buchleitner,2010 This book presents the creative

approach of Theatre of the Oppressed and its liberating potential within the rigid structures of prisons Can inner freedom be experienced in oppressive outer circumstances Is there a kind of freedom that cannot be curtailed by external oppressors Can a physical space that allows trust and inspires creative expression open spaces of inner freedom The book seeks to integrate a transrational world view with political activism combining the understandings of freedom from spiritual teachers Osho and Krishnamurti with those of two revolutionaries of pedagogy and theatre Paulo Freire and Augusto Boal

The Tragedy of Human Freedom Martien E. Brinkman, 2021-11-15 Human freedom has been the source of both the high points of humanity as well as of its low points thus giving rise to the impression that it is a somewhat ambivalent concept According to Martien Brinkman the major factor in this ambivalence is the rather narrow meaning that the concept has received in the course of history Freedom is for the most part understood as freedom from or freedom to but only rarely as freedom for However it is precisely this latter understanding that is closest to the Christian understanding of freedom which Brinkman defines as internal attachment In his view Christian freedom is at bottom characterized by that to which one commits oneself in trust He sees primarily the Christian theology of baptism with its accent on dying and rising with Christ as the model for the way in which one acquires freedom Brinkman illustrates this in this study by means of a great number of biblical images and images borrowed from the historical debates between Augustine and Pelagius and Luther and Erasmus

Freedom, Responsibility and Obligation Rem Blanchard

Edwards,2012-12-06 This work is conceived as a modem study of the relationships of the concept of human freedom with the moral concepts of responsibility and obligation and other closely allied notions One pitfall into which writers on my sub jects have occasionally fallen has been that of spending too much time in critically examining positions and arguments which no sane philosopher has ever offered In order to guard against the danger of debating with straw men I have attempted to engage in critical conversations with several twentieth century writers on my theme I have attempted to pay special attention to a handful of writers who have written extremely important and influential discussions and who are representatives of a diversity of per spectives on the issues involved In particular I have taken note of the work of two determinists Sir David Ross and Hastings Rashdall a libertarian C A Campbell and a reprel entative of the more recent linguistic analytic approach P Nowell Smith Many other important writers have been brought in at crucial points in the conversation But this is not a history of the problem in the 20th century Rather it is a critical systematic study of a problem or set of related problems This work may be divided roughly into two parts a metaphysical psycho logical part comprising the first three chapters and a metaethical ethical part consisting of the last three chapters
