Freedom To Roam Peak District Eastern Moors And The South:

A History of the Peak District Moors David Hey, 2014-01-09 A superb new book explores the history of Britain's first National Park from the Stone Age to the modern day lavishly illustrated *Reflections Magazine* The moors of the Peak District provide some of the finest walking country in England The pleasure of rambling across them is enhanced by a knowledge of their history ranging from prehistoric times and the middle ages to their conversion for grouse shooting and the struggle for the right to roam in modern times This distinctive landscape is not an untouched natural relic for it has been shaped by humans over the centuries Now it is being conserved as part of Britain's first National Park much of it is in the care of The National Trust The book covers all periods of time from prehistory to the present for a typical moorland walk might take in the standing stones of a prehistoric stone circle a medieval boundary marker a guide stoup dated 1709 the straight walls of nineteenth century enclosure a row of Victorian grouse butts a long line of flagstones brought in by helicopter and very much more besides This is no desk based study but the product of a lifetime of living working and researching in or immediately adjacent to the moors The Local Historian David writes with a contagious enthusiasm This generously illustrated book roams amongst the best and lesser known moorland features a guide par excellence *Peak Advertiser* Few tomes can have been quite as comprehensive as David's Within these pages are Romans and Vikings railways and canals ramblers and World War Two soldiers The *Star Sheffield*

Freedom to Roam Howard Hill, 1980 Rambling walking and mountaineering are among the most popular of outdoor activities and although for instance the Alps have always been free for all to walk on Britain has a long history of restrictions to its open moors and mountains Nowadays we have National Parks long distance footpaths nature trails and country parks but these have only come about through determined battles both in Parliament and on the moors themselves The nineteenth century saw the growth of the industrial towns with the poor housing crowded factories and long working hours To provide some escape the working people and many enlightened intellectuals as well turned to the countryside but they soon came into conflict with the hunting and game shooting activities of the landowners of the Home Counties Scotland and especially the Peak It was in the Peak District surrounded by the conurbations of the industrial north and with Manchester and Sheffield on its doorstep that the access struggles began reaching their greatest intensity during the depression of the 1930s when five men were jailed for trespassing on the moors of Kinder Scout Despite the many attempts in Parliament from the end of the nineteenth century to restore the ancient right to walk without let or hindrance over uncultivated land it was not until 1949 that a workable Act was put on the Statute Book and National Parks by far the most advanced in this respect has still access agreements for only one third of its open land

while there is no free legal access to Snowdonia despite being in a National Park and invaded by climbers and walkers Exmoor Forest of Bowland and many other areas The countryside is coming under increasing pressure from industry urban development new farming techniques and especially the increased leisure needs of people Now more than ever before the formidable task of preserving the countryside and making it accessible for the benefit of everyone is one of our greatest challenges This book is the first comprehensive history of the open air movement It tells the story of the conflicts with landowners and politicians the battles for access that have been fought in the past of those that remain Front and back flaps of book jacket
