Freedom Truth And History An Introduction To Hegels Philosophy

Stephen Houlgate

Freedom Truth And History An Introduction To Hegels Philosophy:

Freedom, Truth and History Stephen Houlgate, 1991-01-01 The philosopher G W F Hegel 1771 1831 is now recognized to be one of the most important modern thinkers His influence is to be found in Marx s conception of historical dialectic Kierkegaard s existentialism Dewey s pragmatism and Gadamer s hermeneutics and Derrida s deconstruction Until now however it has been difficult for the non specialist to find a reasonably comprehensive introduction to this important yet at times almost impenetrable philosopher With this book Stephen Houlgate offers just such an introduction His book is written in an accessible style and covers a range of topics the philosophy of history logic and phenomenology political philosophy aesthetics and the philosophy of religion In the course of the book the author relates Hegel s ideas to those of many other thinkers including Luther Descartes Kant and Thomas Kuhn *An Introduction to Hegel* Stephen Houlgate, 2005-02-11 This classic introduction to one of the most influential modern thinkers G W F Hegel 1770 1831 has been made even more comprehensive through the addition of four new chapters New edition of a classic introduction to Hegel Enables students to engage with many aspects of Hegel s philosophy Covers the whole range of Hegel s mature thought Relates Hegel s ideas to other thinkers such as Luther Descartes and Kant Offers a distinctive and challenging interpretation of Hegel s work

Hegel's Political Philosophy Thom Brooks, 2012-11-26 A new edition of the first systematic reading of Hegel s political philosophy *Elements of the Philosophy of Right* is widely acknowledged to be one of the most important works in the history of political philosophy This is the first book on the subject to take Hegel s system of speculative philosophy seriously as an important component of any robust understanding of this text Hegel and the History of Political Philosophy Gary Browning, 1999-02-26 This book relates Hegel to preceding and succeeding political philosophers The Hegelian notion of the interdependence of political philosophy and its history is demonstrated by the links established between Hegel and his predecessors and successors Hegel s political theory is illuminated by essays showing its critical assimilation of Plato and Hobbes and by studies reviewing subsequent critiques of its standpoint by Stirner Marx and Collingwood The relevance of Hegel to contemporary political philosophy is highlighted in essays which compare Hegel to Lyotard and Rawls **Hegel's Political Philosophy** Dr Thom Brooks, 2007 Hegel s *Elements of the Philosophy of Right* is widely acknowledged to be one of the most important works in the history of political philosophy It is broadly agreed that Hegel intended this work to be interpreted as a significant part of his greater system of speculative philosophy Where disagreement occurs is on the question of the relevance of Hegel s larger philosophical system to understanding his *Philosophy of Right* This is the first book on the subject to take Hegel s system of speculative philosophy seriously as an important component of any robust understanding of his *Philosophy of Right* It sets out the difference between systematic and non systematic readings of the text before discussing important relevant features of Hegel s system in particular the unique structure of his philosophical arguments The greater part of the book demonstrates the results of this systematic reading by exploring several areas of

Hegel's political philosophy his theories of property punishment morality law monarchy and war It is shown that by looking beyond the text to Hegel's larger philosophical system we can achieve an improved understanding of Hegel's Philosophy of Right Routledge Philosophy Guidebook to Hegel on History Joseph Mccarney,2012-12-06 Hegel's Introduction to the Philosophy of History remains one of the most profound and influential books on the philosophy of history In clear and cogent terms this book examines the ideas and arguments of the Introduction to the Philosophy of History explains key concepts of Hegel's system a knowledge of which is essential for fully understanding his philosophy of history assesses the continuing relevance of Hegel to the contemporary debate about the nature of history *Hegel and Aesthetics* William Maker,2000-05-11 Hegel's Lectures on Aesthetics present a systematic and historical overview of the nature and development of art in light of its meaning and philosophical significance This book considers Hegel's aesthetics from a variety of perspectives With a strong and clear introduction by William Maker the individual essays address Hegel's treatment of music painting comedy and architecture as well as his earlier writings on art his relations to Schiller and to Schlegel his treatment of romanticism the place of aesthetics in the system and his controversial claims about the overcoming of art Several perspectives focus specifically on the contemporary relevance of Hegel's aesthetics in light of developments in art since his time and especially in connection with modernism postmodernism and deconstruction

Encyclopedia of the Age of Political Revolutions and New Ideologies, 1760-1815 Gregory

Fremont-Barnes,2007-09-30 By giving rise to new ideologies that in time transformed the political structure of much of the world the American and French Revolutions stand as two of the most important political events in global history The American establishment of a Republican government and the gradual expansion of democracy that ensued altered traditional political and social thought thus shaping the later French Revolution and creating the core ethic of later American political values The Enlightenment ideals of the French Revolution as later spread by the armies of Napoleon dissolved most traditional European notions of political authority This encyclopedia offers current detailed information on the people events movements and ideas that defined the revolutions in France and America as well as in other parts of the world during the late eighteenth century Age of Revolutions Besides numerous entries on various countries of Europe whose histories were affected by the French Revolution such as Austria Belgium Germany Poland and Russia the many entries covering the people events groups and ideologies of Revolutionary and Napoleonic France include the following Civil Constitution of the Clergy Georges Jacques Danton The Directory Guillotine Josephine Empress of France Law of Suspects The Mountain Prairial Insurrection Tennis Court Oath White Terror Besides various entries covering American colonies states such as Maryland New Jersey North Carolina and Virginia the numerous entries covering the figures events and ideologies of the American Revolution and Early Federal Period of the United States include the following Abigail Adams Boston Massacre Constitutional Convention William Franklin Lexington and Concord Actions at Loyalists Massachusetts Government Act Edmund Randolph

Signers of the Declaration of Independence Finally the encyclopedia offers various entries covering important revolutionary figures and movements that were active in other parts of the world during the period 1760-1815 including the following: Simon Bolivar, Dutch Revolutions, Haitian Revolution, Hispaniola, Latin American Revolutions, Mexican Revolution, Pugachev Rebellion, Toussaint l'Ouverture. Besides over 450 clearly written and highly informative entries, the encyclopedia also includes primary documents, a chronology, an extensive introductory essay, a bibliography, a guide to related topics, and a series of useful maps.

The Routledge Guidebook to Hegel's Phenomenology of Spirit Robert Stern, 2013-02-11

The *Phenomenology of Spirit* is arguably Hegel's most influential and important work and is considered to be essential in understanding Hegel's philosophical system and his contribution to western philosophy. The Routledge Guidebook to Hegel's *Phenomenology of Spirit* introduces the major themes in Hegel's great book and aids the reader in understanding this key work, examining the context of Hegel's thought and the background to his writing. Each separate part of the text is related to its goals, meaning, and significance. The reception the book has received since its publication, the relevance of Hegel's ideas to modern philosophy, with a helpful introductory overview of the text, end of chapter summaries, and further reading included throughout, this text is essential reading for all students of philosophy and all those wishing to get to grips with Hegel's contribution to our intellectual world.

Hegel's Logic Clark Butler, 1996-12-18

Clark Butler presents an innovative analysis of Hegel's most challenging work in Hegel's *Logic*, the first major English language treatment of Hegel's *Science of Logic* to appear in nearly fifteen years. Although earlier commentators on the *Logic* have considered standard analytical philosophy and with it modern logic in opposition to Hegel, Butler views it as a legitimate approach in terms of which Hegel needs to be understood. This interpretation allows him to address the rigor of Hegel's thought on several levels, as at once an exercise in purely conceptual redefinition and a full-bodied work in metaphysical ontology and even theology. The result is an account of the *Logic* intelligible to analytical philosophers as well as non-specialists.

Finite Transcendence Steven A. Burr, 2014-05-01

Absurdity, time, death, each poses a profound threat to Being, compelling us to face our limits and our finitude. Yet what does it mean to fully realize and experience these threats? *Finite Transcendence: Existential Exile and the Myth of Home* presents a thoughtful and thorough examination of these challenges and questions, arguing the universality of the realization of finitude in the experience of exile. By tracing the historical presence and experience of notions of faith and exile in Western thought from the Ancient Greeks to the present, Steven A. Burr demonstrates the character of each as fundamental constitutive components of what it means to be human. The book discusses essential elements of each, culminating in a compelling account of existential exile as a definitive name for the human experience of finitude. Burr follows with a comprehensive analysis of the writings of Albert Camus, demonstrating an edifying articulation of engagement with and reconciliation of the condition of existential exile. Finally, based on the model suggested in Camus's approach, Burr discusses responses to exile and articulates the meaning of home as the transcendence of exile. *Finite Transcendence* is a work that will

be of great value to anyone working in or studying existentialism philosophy of religion hermeneutics and social theory as well as to anyone interested in questions of faith and society religion or secularity **Time and History in Hegelian**

Thought and Spirit Sally Sedgwick,2023 Sally Sedgwick examines a conspicuous feature of Hegel's major works that they are progressive narratives She shows the extent to which we can understand Hegel as holding that human reason and the freedom it affords us are determined by the temporal order of nature and history Schelling versus Hegel John

Laughland,2016-04-01 In tracing Friedrich von Schelling's long philosophical development John Laughland examines in particular his disentanglement from German idealism and his reaction later in life against Hegel He argues that this story has relevance beyond the facts themselves and that it explains much about the direction philosophy took in the century between the French Revolution and the rise of Communism Schelling's development turned principally on the related questions of human liberty and the creation Following a sharp disagreement with his old friend Hegel over the Phenomenology in 1807 Schelling wrote a short but brilliant essay on human freedom in 1809 after which he never published another word In the remaining decades of his life d 1854 Schelling developed in an increasingly conservative and Christian direction preoccupied with the relationship between Christianity and metaphysics In numerous lectures and unpublished works he attacked what he saw as the hubris and artificiality of Hegelian rationalism However the path against which Schelling warned was the one which philosophy finally took Schelling was determined to show how philosophy especially ontology explained and was explained by Christianity and that both had been damaged by modern rationalism But Hegel's Marxist epigones who attended his later lectures scoffed and Hegelianism triumphed This is an elegantly written and engaging study in the history of ideas of a philosopher on the losing side The Oxford Handbook of the History of Ethics Roger Crisp,2013-01-31

Philosophical ethics consists in the human endeavour to answer rationally the fundamental question of how we should live The Oxford Handbook of the History of Ethics explores the history of philosophical ethics in the western tradition from Homer until the present day It provides a broad overview of the views of many of the main thinkers schools and periods and includes in addition essays on topics such as autonomy and impartiality The authors are international leaders in their field and use their expertise and specialist knowledge to illuminate the relevance of their work to discussions in contemporary ethics The essays are specially written for this volume and in each case introduce the reader to the main lines of interpretation and criticism that have arisen in the professional history of philosophy over the past two or three decades

The Historical Present Walter Kudrycz,2011-01-13 Medievalism has become a central concern for those studying and teaching medieval history It can be distinguished from traditional medieval history because it is not directly concerned with the study of the Middle Ages themselves but rather it looks at how ideas about the medieval era operate in modern culture This volume breaks new ground by moving beyond the arena of contemporary popular culture by interpreting modern academic attitudes towards the Middle Ages as themselves forms of medievalism What is presented as refined historical truth

is no more than a construction of truth derived from the larger philosophical and cultural trends of our own day This volume argues that modernity's sense of the medieval past is the product of the dominant intellectual movements of the nineteenth century Romanticism and Idealism and that nineteenth century attitudes have continued to inform current understandings of the Middle Ages This is a narrative that combines the main themes of modern scholarship on the medieval age with a subtly portrayed picture of the philosophical culture which produced them **Northern Spirits** Robert C. Sibley,2008-02-08

Canadians have devoted considerable thought to Hegel a proposition born out by the work of John Watson George Grant and Charles Taylor three major Canadian political philosophers of the last century In *Northern Spirits* Robert Sibley examines how Watson Grant and Taylor found in Hegel the theoretical tools needed to respond to Canada's uncertain existence

Reading Hegel's Phenomenology John Russon,2004-10-19 In *Reading Hegel's Phenomenology* John Russon uses the theme of reading to clarify the methods premises evidence reasoning and conclusions developed in Hegel's seminal text Russon's approach facilitates comparing major sections and movements of the text and demonstrates that each section of *Phenomenology of Spirit* stands independently in its focus on the themes of human experience Along the way Russon considers the rich relevance of Hegel's philosophy to understanding other key Western philosophers such as Aristotle Descartes Kant Husserl Heidegger and Derrida Major themes include language embodiment desire conscience forgiveness skepticism law ritual multiculturalism existentialism deconstruction and absolute knowing An important companion to contemporary Hegel studies this book will be of interest to all students of Hegel's philosophy **Tillich: A Guide for the**

Perplexed Andrew O'Neill,2008-11-25 A new addition to the *Guides for the Perplexed* series this new book on Tillich will analyse clarify and connect the most central and difficult of Tillich's theological concepts **Theology of Wagner's Ring Cycle II** Richard H Bell,2021-09-30 Wagner's *Ring* addresses fundamental concerns that have faced humanity down the centuries such as power and violence love and death freedom and fate Further the work seems particularly relevant today addressing as it does the fresh debates around the created order politics gender and sexuality In this second of two volumes on the theology of the *Ring* Richard Bell argues that Wagner's approach to these issues may open up new ways forward and offer a fresh perspective on some of the traditional questions of theology such as sacrifice redemption and fundamental questions about God A linchpin for Bell's approach is viewing the *Ring* in the light of the Jesus of Nazareth sketches which he argues confirms that the artwork does indeed address questions of Christian theology both for those inside and those outside the church **Hegel: Philosophy of History: Oxford Bibliographies Online Research Guide** David Duquette,2010-06

This ebook is a selective guide designed to help scholars and students of social work find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and
