Papalas,2005 Icaria a long craggy and destitute isle in the Aegean Sea is visible from Turkey The toil and travail of its people symbolizes the journey all Greek People made to achieve a modern society But unlike other Greeks the Icarians often chose a dead end path Never in agreement with those around them the story of the Icaraians shows the best and the worst of Greek society The Icarians were loyal subjects of the Ottoman Empire who because of poverty and lack of resources were not expected to pay heavy taxes while most Ottoman Greeks were dissatisfied with Turkish rule and dreamed of independence But just before World War I when the Greek government did not want to annex the island because of international complications the Icarians expelled the Turks and demanded inclusion in the Greek State At that time the bulk of the young men were escaping the grinding poverty of the island by immigrating to the United States Although the majority of these men stayed in America and brought wives from the island to the New World they maintained local ties Their influence both positive and negative affected many qualities of Icarian life The Icarians did not find their expectations fulfilled as part of Greece and remained disenchanted with their conditions through the twenties and thirties of the 20th century The forties brought first the Italians then the Germans and finally the British After the turmoil many Icarians supported radical political solutions to their problems sympathizing with a native guerrilla movement and rejecting efforts to improve their island seeing only the great Capitalistic conspiracy at work In the last decades of the 20th century the Icarians finally entered the modern but at a too rapid rate leaving the people unable to cope with some aspects of modernity Anthony J Papalas has assembled a true peoples history by bringing together unusual documents such as dowry agreements and Ottoman court records memoirs and accounts of Icaria by people who were involved in the events he describes all interwoven with informative and perceptive descriptions from forty years of interviews with Icarians from all areas and conditions Here is a history on the social level not grand politics or great battles but rather the everyday existence and immediate choices which once made shape succeeding events *In The Steps Of St. Paul* H.v. Morton,v Morton,2008-12-15 In the Steps of St Paul dazzlingly retraces the apostle s famed journey of faith through Israel Greece and Italy using the Bible itself as a guide With an ear for good stories and an eye alert to detail Morton creates a compulsively readable narrative that will satisfy the most curious traveler as well as the

War and Competition between States Philippe

Contamine, 2000-11-23 In the five hundred years covered by this volume there was scarcely a year which passed without either war or some open demonstration of hostility between the many sovereign powers which governed Europe States and peoples lived under the shadow of war were ceaselessly prompted to consider the possibility of war had to find ways of dealing with the consequences of war This volume in the Origins of the Modern State in Europe series focuses on the crucial role of war in the formation of state systems It starts from the assumption that interstate rivalries and conflicts were at the heart not only of the demarcation of territories but also of the ever growing need to mobilize resources for warfare Institutionalization was consequently highly dependent on such competition It was for military reasons and with military aims that the state secured control of time and space both at sea and on land The Origins of the Modern State in Europe series arises from an important international research programme sponsored by the European Science Foundation The aim of the series which comprises seven volumes is to bring together specialists from different countries who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders
