making as the broad range of visual art activities for which he is renowned including the Walking Woman series and the film Wavelength Conversely many of the texts included in this anthology are as significant visually as they are at the level of content they are meant to be looked at as well as read Situated somewhere between a repository of contemporary thought by one of our leading Canadian artists and a history book as it brings to light some important moments in the cultural life of Canada since the 1950s these texts tell their own story marking the passage of time ideas and attitudes The works included here ranging from essays and interviews and record album cover notes to filmscripts and speeches which in Snow s hands often fall into the category of performance art are not only built for browsing they offer insights into both the professional and the private Snow Together they expand the context of Snow s work and show the evolution of a great Canadian artist beginning with his early attempts at defining art to his emergence and recognition on the international art scene This book is one of four books that are part of the Michael Snow Project Initiated by the Art Gallery of Ontario and The Power Plant Gallery the project also includes four exhibitions of his visual art and music **Guido Molinari** Guido Molinari, Robert Mélançon, Fernand Ouellette, Maison de Radio-Canada (Montréal, Québec). the seemingly obscure murders of two men in the quiet Danish city of Odense it soon becomes apparent that he is in a race against time where the very existence of Europe as we know it is at stake **Guido Molinari, 1951-1961** Guido

Molinari,1989 **The Last Art College** Garry Neill Kennedy,2012-02-24 The long awaited history of the art college that became an unlikely epicenter of the art world in the 1960s and 1970s How did a small art college in Nova Scotia become the epicenter of art education and to a large extent of the postminimalist and conceptual art world itself in the 1960s and 1970s Like the unorthodox experiments and rich human resources that made Black Mountain College an improbable center of art a generation earlier the activities and artists at Nova Scotia College of Art and Design aka NSCAD in the 1970s redefined the means and methods of art education and the shape of art far beyond Halifax A partial list of visiting artists and faculty members at NSCAD would include Joseph Beuys Sol LeWitt Gerhard Richter Dan Graham Mel Bochner Lucy Lippard John Baldessari Hans Haacke Yvonne Rainer Robert Frank Jenny Holzer Robert Morris Eric Fischl and Dara Birnbaum Kasper Koenig and Benjamin Buchloh ran the NSCAD Press publishing books by Hollis Frampton Lawrence Weiner Donald Judd Daniel Buren Michael Asher Martha Rosler and Michael Snow among others The Lithography Workshop produced early works by many of today s masters including John Baldessari Vito Acconci and Claes Oldenburg With The Last Art College Garry Kennedy the college s visionary president at the time gives us the long awaited documentary history of NSCAD during a formative era From gallery openings to dance performances to visiting lectures to exhibitions to classroom projects the book gives a rich historical and visual account of the school s activities supplemented by details of specific events reminiscences by faculty and students accounts of artists talks and notes on memorable controversies **Literature's**

Elsewheres Annette Gilbert,2022-04-05 An examination of a series of diverse radical and experimental international works from the 1950s to the present What is a literary work In Literature s Elsewheres Annette Gilbert tackles this question by deploying an extended concept of literature examining a series of diverse radical experimental works from the 1950s to the present that occupy the liminal zone between art and literature These works by American Artist Allison Parrish Natalie Czech Stephanie Syjuco Fiona Banner Elfriede Jelinek Dan Graham Robert Barry George Brecht and others represent a pluralized literary practice that imagines a different literature emerging from its elsewheres Investigating a work s coming into being its transition from text to work as a social object and pragmatic category of literary communication Gilbert probes the assumptions and foundations that underpin literature including the ideologies and power structures that prop it up She offers a snapshot from a period of recent literary and art history when such central concepts as originality and authorship were questioned and experimental literary practices ranged from concrete poetry and Oulipo to conceptual writing and appropriation literature She examines works that are dematerialized site specific unique copies of other works and institutional critiques Considering the inequalities exclusions and privileges inscribed in literature she documents the power of experimental literature to attack these norms and challenges the field s canonical geographic boundaries by examining

artists with roots in North and South America East Asia and Western and Eastern Europe The cross pollination of literary and art criticism enriches both fields With Literature s Elsewheres Gilbert explores what art can t see about the literary and what literature has overlooked in the arts Contemporary Artists Colin Naylor,1989 Toward a Science Campus in Milan Pier Francesco Bortignon,Giuseppe Lodato,Emanuela Meroni,Matteo G.A. Paris,Laura Perini,Alessandro Vicini,2018-12-08 This book is a collection of multidisciplinary papers presented at the Department of Physics of Milan University s congress on 28 and 29 June 2017 which was also intended as a kick off meeting for the design of a novel science campus at the Expo site in Milan The congress presented a snapshot of the department s research to the academic community the media policymakers and authorities as well as the public at large and also provided an opportunity to strengthen interdisciplinary collaborations between the members of the department and other communities This book is a valuable resource for scientists looking for synergetic projects policymakers wanting to grasp scientists points of view and for prospective graduate students seeking expanding areas of research
