## Introduction

This adventure uses the *GURPS Black Ops* setting. Game Masters running conspiracy, secret-agent or Mythos campaigns under a different setting or mechanics may be able to adapt it to their needs. Those intending to play characters in *A Minor Emergency* should not read past *The Mission*.

## History

In its half-century of exploring and destroying the paranormal, the Company has dealt with bizarre circumstances more often than not. Things often happen that “never could happen,” but not all of these originate in the shadowy world of Greys and evil psis. Two of the Company’s own black ops, Nolan and Mia Mathers, created one of the stranger crises in 1985. They announced that they planned to have a child.

This, to say the least, violated Company policy. From day one, ops have been under orders to avoid procreation unless assigned one of the handful of outside secret identities requiring a family as cover. Neither of the Mathers – who had been romantically involved for about two years at the time – could claim this loophole. Both also were valued, veteran agents who graduated from the Academy in 1982. Nolan had forged a reputation in the Combat department with his macho charm and knife-across-the-throat tactics. Science op Mia’s colossal, no-nonsense intellect and huge telepathic potential had set her apart – though her cold manner and inability to communicate with Greys limited her standing among her fellow active ops and the administration, respectively.
