PLOTINUS Ennead IV.3-4.29 John Blumenthal H.J. Dillon, 2015-03-18 For Plotinus the nature and status of the human soul is one of the central problems of philosophy Ennead IV.3-4.29 constitutes his most penetrating enquiry into this topic addressing the issues of the relation of the individual soul to the World Soul the descent of the soul into body its relations with that body problems of personal identity and the nature of memory sense perception and the true seat of the emotions many of which still have a resonance today The treatise is an excellent example of Plotinus' distinctive method of enquiry not dogmatic though he is no sceptic but worrying away at questions until he has uncovered their complexities to the best of his ability Such a work requires detailed commentary such as is provided here to tease out fully the fascinating convolutions of his thought [The Enneads: Psychic and physical treatises, comprising the 2d and 3d Enneads](#) Plotinus, 1921

Marsilio Ficino as Reader of Plotinus: The 'Enneads' Commentary Stephen Gersh, 2024-07-22 This book represents the first ever systematic philosophical study of Marsilio Ficino's Commentary on Plotinus' Enneads first published in Florence 1492 this work of Ficino being arguably as definitive for the Florentine thinker's later work as the Platonic Theology was for his earlier Publication of the present study uniquely illuminates the extent to which Plotinus had always been the crucial influence over Ficino's revolutionary projects of introducing Platonic thought based on original Greek sources to western Europe correcting certain features of late medieval and Renaissance Aristotelianism and laying the foundations of a new Christian Platonism The study can be read both as an independent introduction to Ficino's later philosophy and as the complement to the first modern edition and translation of the Commentary on the Enneads itself also by Stephen Gersh I Tatti Renaissance Library 2017

Schroeder,1992-04-13 The Platonic Form is often presented as an instrument of explanation and as a cause in ontology epistemology and ethics As such it is usually approached from the perspective of its relations to the particulars of the sensible world Frederic Schroeder contends that Plotinus argues for the sovereignty of the Platonic Form both as a ground of being and as an intrinsically valuable object of intellectual and spiritual vision These two aspects coalesce in the thought of Plotinus for whom the Form is apart from its philosophical uses an object of enjoyment Schroeder argues also that the particular must be seen as having an intrinsic character distinct from its relationship to the Form or to other particulars The particular thus becomes a window on the world of Form In the course of his exploration of the sovereignty of Form Schroeder examines the themes of illumination silence language and love He undertakes an immanent interpretation of the Plotinian text showing how Plotinian vocabulary displays intricate internal connections and genetic relationships Schroeder shows that Plotinus thought is not susceptible to organization into a closed linear synthesis but has its own order centred on the conviction that Form is of intrinsic value and that it is only from the perspective of this intrinsic value that we can understand its uses and significance in explanation and causation Rather than trying to construct such a synthesis Schroeder starting from this basic insight into Plotinus understanding of the Platonic Form leads the reader to a greater understanding of Plotinus manner of philosophizing *Dictionary of the Later New Testament & Its Developments* Ralph P.
