Enter Dying:

The Art of Dying and Living Kerry Walters, 2011 Earlier generations of Christians studied classic ars moriendi manuals on the art of dying to help them face and embrace morality They learned from these books something our own generation is in danger of forgetting that the manner in which one dies very much depends on the manner in which one has lived The author explores the connection between living and dying well by recounting the stories of seven exemplary people of our time and the particular virtues they embodied

The Art of Living and Dying Osho, 2017-06-06 Death cannot be denied by repeating that death does not exist Death will have to be known it will have to be encountered it will have to be lived You will have to become acquainted with it Osho Why are we afraid of death How do I relax in the certainty of death Is the theory of reincarnation true How can I celebrate death as you suggest With depth clarity compassion and even humor Osho answers these questions and many others shedding new light on this most sacred of mysteries and providing practical guidance for meditation and support In *The Art of Living and Dying* Osho not only reveals that our fear of death is based on a misunderstanding of its nature but that dying is a tremendous opportunity for inner growth Death is not an event but a process and one that begins with birth Each exhalation is a small death each inhalation a rebirth When life is lived consciously and totally death is not a catastrophe but a joyous climax

John Angell James, 1856 **Final Days** Susan Orpett Long, 2005-07-31 In postindustrial societies people must consciously define their individuality through the choices they make Recently death has become yet another realm of personal choice making a good death one in which we die in our own way Does culture matter in these decisions Final Days represents a new perspective on end of life decision making arguing that culture does make a difference but not as a checklist of customs or as the source of a moral code Grounded in rich ethnographic data the book offers a superb examination of how policy and meaning frame the choices Japanese make about how to die As an essay in descriptive bioethics it engages an extensive literature in the social sciences and bioethics to examine some of the answers people have constructed to end of life issues Like their counterparts in other postindustrial societies Japanese find no simple way of handling situations such as disclosure of diagnosis discontinuing or withholding treatment organ donation euthanasia and hospice Through interviews and case studies in hospitals and homes Susan Orpett Long offers a window on the ways in which ordinary people respond to serious illness and the process of dying Moving beyond stereotypes of stylized samurai violence and Buddhist meditation as Japanese cultural models of dying Long offers fresh insights into how experiential and social factors mediate between formal cultural rules and what people do Given the existence of various culturally legitimate scripts on how to die well and the complex nature of human relationships she makes a convincing and original argument that ambivalence need not be viewed as anomalous Indeed ambiguity and a diversity of views are not obstacles to the moral life of a society but rather are the raw material in postindustrial societies from which people construct meaningful deaths and thus meaningful lives **The Everlasting Word** Frans Bakker, 2007-01-01 With great pleasure we offer this daily devotional of meditations from the late Rev Frans Bakker 1919 1965 His devotionals and meditations proved to be comforting and edifying to many of God's people in the Netherlands Writing in a simple but penetrating style Bakker emphasized the fullness of Christ for needy sinners In The Everlasting Word all of Bakker's published meditations have been translated and compiled with additional selections from his sermons We trust that the result is a collection filled with great nuggets of spiritual wisdom that you will enjoy May this devotional be both an encouragement that edifies God's people and an admonition for a life with Christ in the present age Understanding Death and Dying Frank E. Religion, Belief and Unbelief Antoon Vergote,2024-03-11 This book focuses attention on the central elements of human religious existence Vergote s primary aim and viewpoint are clear to examine empirically and to interpret dynamically the psychological factors at work in the field of religion Vergote consistently adheres to the position that psychology is neither philosophy nor theology and that its task is not to explain religion In this work he situates religion as a cultural fact and studies how persons orient themselves to it positively and or negatively Rather than emphasise and juxtapose belief and unbelief as alternative positions he sees them as threads of experiences interwoven throughout the human existence of persons and institutions In this context he studies motivations and their ambivalences religious experiences and their ambiguities conflicts between religious belief and unbelief and the various expressions and practices of religion Poet and Orator Andreas Markantonatos,Eleni Volonaki,2019-04-01 This multiauthored volume as well as bringing into clearer focus

the notion of drama and oratory as important media of public inquiry and critique aims to generate significant attention to the unified intentions of the dramatist and the orator to establish favourable conditions of internal stability in democratic Athens We hope that readers both enjoy and find valuable their engagement with these ideas and beliefs regarding the indissoluble bond between oratorical expertise and dramatic artistry This exciting collection of studies by worldwide acclaimed classicists and acute younger Hellenists is envisaged as part of the general effort almost unanimously acknowledged as valid and productive to explore the impact of formalized speech in particular and craftsmanship rhetoric in general upon Attic drama as a moral and educational force in the Athenian city state Both poet and orator seek to deepen the central tensions of their work and to enlarge the main themes of their texts to even broader terms by investing in the art of rhetoric whilst at the same time through a skillful handling of events evaluating the past and establishing standards or ideology
