**The Consumer's Guide to Effective Environmental Choices** Michael Brower, Warren Leon, 2009-11-04 From one of the most prestigious nonprofit organizations devoted to environmental issues comes a clear practical and rational overview of the relationship between consumers and the environment Paper or plastic Bus or car Old house or new Cloth diapers or disposables Some choices have a huge impact on the environment others are of negligible importance To those of us who care about our quality of life and what is happening to the earth this is a vastly important issue In these pages the Union of Concerned Scientists help inform consumers about everyday decisions that significantly affect the environment For example a few major decisions such as the choice of a house or vehicle have such a disproportionately large affect on the environment that minor environmental infractions shrink by comparison This book

identifies the 4 Most Significant Consumer Related Environmental Problems the 7 Most Damaging Spending Categories 11 Priority Actions and 7 Rules for Responsible Consumption Learn what you can do to have a truly significant impact on our world from the people who are at the forefront of scientific research *Free-Choice Learning and the Environment* John H. Falk, Joe E. Heimlich, Susan Foutz, 2009-05-16 Most environmental learning takes place outside of the formal education system but our understanding of how this learning actually occurs is in its infancy By surfing the internet watching nature documentaries and visiting parks forests marine sanctuaries and zoos people make active choices to learn about various aspects of their environment every day Free Choice Learning and the Environment explores the theoretical foundations of free choice environmental education the practical implications for applying theory to the education of learners of all ages and the policy implications for creating new and sustainable environmental education opportunities Connecting People to Their Oceans: Issues and Options for Effective Ocean Literacy Angel Borja, Francesca Santoro, Gail Scowcroft, Stephen Fletcher, Pierre Strosser, 2020-03-25 While there is growing evidence of the importance of marine ecosystems for our societies evidence shows also that pressures from human activities on these ecosystems are increasing putting the health of marine ecosystems at stake worldwide Hence Blue Economy is becoming an important component of future socio economic development strategies e g this is called Blue Growth in Europe that eventually can result in increasing pressures at sea and despite the current regulatory framework in particular with the Oceans Act in USA or Canada and the Marine Strategy Framework Directive in Europe it is likely that this situation will continue in the future Ensuring all those connected to the sea directly or indirectly gain a better understanding of the importance of the seas the human sea interactions and opportunities to act better and reduce impacts from human pressures is central to Ocean Literacy OL Receiving increasing attention in Europe and USA OL is a challenge for all parts of society educators 2 the role OL could play in interaction with innovation regulation economic incentive social norms to support human capital development as key component of sustainable growth and 3 pre conditions for effective OL for different sectors and target groups Questions relevant to OL include Which knowledge produced by whom to share and how Who to target and how to effectively reach those targeted How to design OL initiatives including by mobilizing those targeted via living lab approaches e g to ensure effective OL and pave the way for behavior change What are the knowledge gaps that limit our capacity to design effective OL As scientists it is likely you have many more questions to offer and discuss **Taxing Choices for Managing Natural Resources, the Environment, and Global Climate Change** Anwar Shah, 2023-02-21 This book reviews taxing choices to protect the local and global environment and preserve and sustain natural resources Alternative economic instruments such as carbon taxes and tradable permits to combat global climate change are also examined Strategies and practices for the managing and sharing of revenues from natural resources are highlighted Also roles of various orders of government in managing taxing and sharing natural resources in selected countries are documented to highlight the impact of such division of

responsibilities in preserving natural resources and the environment The susceptibility of resource revenue dependent economies to corruption and malfeasance and the Dutch disease is also highlighted This book could serve as a supplementary reference book for graduate and undergraduate courses and as a sourcebook for journalists researchers policymakers and government practitioners **The Environment, Issues and Choices for Society** Penelope ReVelle, Charles ReVelle, 1981

**Environmental Decision-Making in Context** Chad J. McGuire, 2017-09-25 Because of the complexity involved in understanding the environment the choices made about environmental issues are often incomplete In a perfect world those who make environmental decisions would be armed with a foundation about the broad range of issues at stake when making such decisions Offering a simple but comprehensive understanding of the critical roles science economics and values play in making informed environmental decisions *Environmental Decision Making in Context A Toolbox* provides that foundation The author highlights a primary set of intellectual tools from different disciplines and places them into an environmental context through the use of case study examples The case studies are designed to stimulate the analytical reasoning required to employ environmental decision making and ultimately help in establishing a framework for pursuing and solving environmental questions issues and problems They create a framework individuals from various backgrounds can use to both identify and analyze environmental issues in the context of everyday environmental problems The book strikes a balance between being a tightly bound academic text and a loosely defined set of principles It takes you beyond the traditional pillars of academic discipline to supply an understanding of the fundamental aspects of what is actually involved in making environmental decisions and building a set of skills for making those decisions *Conscious Consumption: Teaching Kids About Ethical Choices in Food, Clothes, and Entertainment* Silas Mary, 2025-01-30 In today's consumer driven world teaching children about ethical consumption is more important than ever *Conscious Consumption* provides parents with the tools to help their kids make thoughtful responsible choices when it comes to food clothes and entertainment This book explores how to introduce children to the concepts of sustainability fair trade and the environmental impact of consumption From understanding where food comes from to choosing brands that support ethical practices this book offers simple age appropriate ways to help children become mindful consumers Through engaging discussions fun activities and family friendly ideas *Conscious Consumption* helps parents instill values of responsibility empathy and environmental awareness You'll learn how to encourage your children to make choices that align with their values helping them understand the impact of their decisions on the planet and the people who live on it This book empowers families to adopt conscious consumption habits that contribute to a more sustainable ethical world **Energy Decisions and the Environment** Benjamin F. Hobbs, Peter Meier, 2012-12-06 Planning operating and policy making in the electric utility and natural gas sectors involves important trade offs among economic social and environmental criteria These trade offs figure prominently in ongoing debates about how to meet growing energy demands and how to restructure the world's power industry *Energy Decisions and the*

Environment A Guide to the Use of Multicriteria Methods reviews practical tools for multicriteria also called multiobjective decision analysis that can be used to quantify trade offs and contribute to more consistent informed and transparent decision making These methods are designed to generate and effectively communicate information about trade offs to help people form articulate and apply value judgments in decision making and to promote effective negotiation among stakeholders with competing interests Energy Decisions and the Environment A Guide to the Use of Multicriteria Methods includes explanations of a wide range of methods tutorial applications that readers can duplicate a detailed review of energy environment applications and three in depth case studies

### **Energy Storage Options and Their Environmental Impact**

R E Hester,R M Harrison,2018-10-18 Recent decades have seen huge growth in the renewable energy sector spurred on by concerns about climate change and dwindling supplies of fossil fuels One of the major difficulties raised by an increasing reliance on renewable resources is the inflexibility when it comes to controlling supply in response to demand For example solar energy can only be produced during the day The development of methods for storing the energy produced by renewable sources is therefore crucial to the continued stability of global energy supplies However as with all new technology it is important to consider the environmental impacts as well as the benefits This book brings together authors from a variety of different backgrounds to explore the state of the art of large scale energy storage and examine the environmental impacts of the main categories based on the types of energy stored A valuable resource not just for those working and researching in the renewable energy sector but also for policymakers around the world
