The background of the image is a dense, overlapping collage of various US dollar bills. Visible denominations include \$100, \$50, \$20, and \$10. The bills are oriented in different directions, creating a textured, chaotic pattern of green, yellow, and blue. A semi-transparent dark rectangle is centered over the image, serving as a backdrop for the title text.

They Don't Teach You How To Get Rich At School-2 (1, #2) Laura Maya,2018-11-13 Debunk all those assumptions that you will be Rich if you study hard and work hard They Don't Teach You How To Get Rich At School 2 It is all about the importance of money The premise of the book clearly distinguishes the difference between the thinking of the rich and the poor In essence the only limitation between you and the rich is in your own mind and achieving success lies in breaking these walls You can't just graduate and leave formal education and expect yourself to be financially well equipped Many people think that having a good education is

sufficient to the roads to acquire new wealth well they can't be any more wrong. It is having the mindset of the wealthy that will make you rich. That is why many lotto winners who become instant millionaires lose most of their money because they don't have the proper mindset to maintain or grow their money. You'll discover why some of your money beliefs might be wrong and that could be holding you back. You need to consider what are the principles and what behaviors the rich have that you do not have. Laura Maya takes this idea and breaks it into sixteen chapters. You wouldn't find a recipe to turn rich overnight. Rather, the book provides a solid foundation for setting the psychological stage for strong financial habits. Studying hard, getting nice grades, and getting a job is not enough to be rich. That's one lie which we have been fed with since our childhood. There is a difference between scholastic, professional, and financial education. The book further analyzes the root cause of why you are not rich. It all boils down to your education. You were never taught about how to be rich at school. Forget that you never even learned personal finance or how to handle money. It further touches upon how you can get smart with personal finance. Perhaps the biggest argument Laura makes is the fact that everything can change if you change your mindset. Buying that expensive dress, impulsive buying, etc. are all signs of a poor mentality. If you make changes to your lifestyle and spending habits today, you will reap the benefits tomorrow. On making money, Laura's approach is simple: she emphasizes on investing, spend less, and plan for a long term. This isn't something new. We have all heard it. But we never implement it. Laura gives real-life examples of how you can start your journey to being rich by investing for a long term, planning your finances, and by staying on a budget. Last but not the least, she focuses on self-investment by developing your mental, financial, and emotional intelligence. To sum up, Laura has come up with a book that truly focuses on the core problem: today, financial planning and money making is simply not taught at schools. The book truly provides a step-by-step guide to change your thinking about money, set realistic goals, and embark on a journey towards riches.

Millionaire Financial Freedom Success Money Habits: Powerful Lessons On How To Get Rich And Building Wealth M. D. Hope, From Rock Bottom to Real Riches It's Your Time to Rise The cold hard reality of the eviction notice in my hand was a gut punch At 28 I was drowning in debt my fledgling entrepreneur dreams circling the drain and the roof over my head about to be ripped away This wasn't the life I envisioned when I first dove into those entrepreneurship books fueled by the stories of self-made millionaires This wasn't the success promised in all those business books for entrepreneurs that lined my shelves the ones I'd practically memorized hoping to decode the secret to building wealth I felt like a fraud a failure a living testament to the chasm between aspiration and reality My relationship with money was toxic built on a foundation of scarcity and fear Growing up extra was a four letter word My parents worked themselves to the bone yet there was always that underlying anxiety about personal finance It wasn't their fault they were doing their best But it instilled in me a deep seated belief

making money real money was for other people People with connections with privilege with some secret knowledge I clearly didn't possess I read all the finance books and even investment books that I could get my hands on but the concepts seemed abstract disconnected from my reality I lacked true financial literacy My entrepreneurial journey started with a spark of hope I launched a small online business selling handcrafted jewelry I imagined myself as one of those inspiring stories you read about in entrepreneur books a testament to the power of hard work and ingenuity But the reality was brutal My efforts felt like throwing pebbles into the ocean I didn't understand marketing my sales were dismal and the weight of my mounting debt was crushing Then came that eviction notice It was my rock bottom But in that moment of despair something shifted My father's words etched in my memory from childhood echoed in my mind Son you can do anything you set your mind to A surge of defiance of determination coursed through me I refused to be a victim of my circumstances I decided right there and then that I would learn how to become rich not for the sake of luxury but for the freedom and security it represented I would master my financial intelligence That decision marked the beginning of my transformation I devoured every money making book I could find but this time with a laser focus and a hunger to truly understand I immersed myself in the world of online marketing studying successful entrepreneurship books and courses I wasn't just reading I was implementing experimenting and learning from every mistake I began to see patterns to understand the principles behind building wealth principles that went far beyond get rich quick schemes This entrepreneurship book is different Slowly painstakingly I started to see results My little jewelry business began to gain traction The first month I made a real profit I cried tears of joy It wasn't just about the money it was about proving to myself that I could do it It was about rewriting my story This book is the culmination of that journey It's the roadmap I wish I'd had when I was starting out lost and overwhelmed It's a step by step guide to building wealth by transforming your mindset skills and assets It's about mastering your relationship with money and developing the financial intelligence you need to thrive It's about showing you how to become rich not through luck or magic but through proven Millionaire Financial Freedom Success Money Habits This is not just another finance book or investment book This is the distillation of years of struggle learning and ultimately triumph This entrepreneurship book is a guide It's a testament to the fact that no matter where you're starting from no matter how many times you've stumbled you have the power to change your financial destiny It's time to break free from the shackles of limiting beliefs and build the life you deserve Let's begin this journey together It is my sincere hope that this money making book will be an asset to you on your journey

Create Wealth with Private Equity and Public Companies Norman Meier, 2014-04-14

Getting the money you need to finance your business with Private Equity. When starting a new business you will need money. Depending on your business idea you may not have the necessary funds to realize your idea. Most people think that going through a bank and getting a loan is the only way to get started. They soon realize that banks are not willing to lend money on an idea. Too often this is the end of the dream. Another way to finance your business idea is to raise money from private investors. There are many great business ideas that struggle to find investors willing to invest. Either they don't have a clear strategy on how the investor can invest or there is concern that the investor will take over control of the business. Investors may be wary if there isn't an exit strategy. The solution to the above problems is Private Equity. Private Equity can be defined as investments in companies that are not yet publicly traded on a stock exchange. A business should be set up in a way that there is a structure and plan for investors to be able to buy shares of the company. There needs to be a clear share structure in place so that the owner of the business does not lose control of the company but at the same time allows investors to participate. This book will teach you the basics of Private Equity and will explain how to structure a company to get it financed. It also covers the advantages on taking a company public and how to do it.
