**Handbook of Contemporary Sociological Theory** Seth Abrutyn, 2016-06-22 This Handbook provides the hidden common threads that tie sociological inquiry together and featuring eminent scholars it separates itself from its predecessors in substance and organization Rather than rehashing old debates or longingly gazing at the past this book presents sociologists with new ways of conceptualizing the organization and presentation of sociological theory At the heart of this Handbook's vision is the twin goals of making theory a viable enterprise by reconceptualizing how we teach theory and keeping theory closely tied to its empirical applications Three strategies are offered 1 Elucidating how classic issues like integration or interaction are interrogated today 2 Presenting a coherent vision of the social levels of reality that theorists work on such as communities groups and the self as well as how the coherence of these levels speaks to the macro micro link and 3 Theorizing the social world rather than celebrating theorists or theories that is one can look at how theory is used holistically to understand the constraints the social world places on our lived experience or the dynamics of social change Hence in the second decade of the 21st century it has become clear that sociology is at a crossroads as the number of theorists and amount of theory available is increasingly unmanageable and unknowable by the vast majority of professionals and students As such this Handbook of Contemporary Sociological Theory presents the novice and the expert with the a roadmap for traversing this crossroad and building a more coherent robust and cumulative sociology

*Location, Space and Place in Religious Education* Martin Rothgangel, Kerstin von Brömssen, Hans-Günter Heimbrock, Geir Skeie, 2017 People form attachments to their home their neighbourhood and environment to the region and nation to which they belong They express feelings about space and place especially so in globalized times In religious studies in theology and in education there is a growing interest in spatial theories either as constructed within national borders or within international and transnational spaces The spatial turn has become an acknowledged term in interdisciplinary discourses Although every practice of religious education is situated and contextually dependent religious education RE research until now has not systematically paid attention to this fundamental insight This volume is devoted specifically to clarifying the close relationship between RE practice and spatial and situational conditions After clarifying the main concepts in Part 1 Part 2 includes chapters related to classroom studies while Part 3 focuses on studies about teachers of religious education Part 4 contains studies beyond the classroom such as school chapels churches and inner space All contributions to this volume were developed in the context of the European Network for Religious Education through Contextual Approaches ENRECA which has focused recently on the central issue of space and place

**Spatiality and Symbolic Expression** Bill Richardson, 2015-07-22 In this volume scholars from a wide range of fields within the humanities explore the links between space and place and their relation to

cultural expression This collection shows that a focus on the spatial can help elucidate important facets of symbolic expression and cultural production whether it be literature music dance films or art [Encyclopedia of Library and Information Sciences](#) John D. McDonald, Michael Levine-Clark, 2017-03-15 The Encyclopedia of Library and Information Sciences comprising of seven volumes now in its fourth edition compiles the contributions of major researchers and practitioners and explores the cultural institutions of more than 30 countries This major reference presents over 550 entries extensively reviewed for accuracy in seven print volumes or online The new fourth edition which includes 55 new entries and 60 revised entries continues to reflect the growing convergence among the disciplines that influence information and the cultural record with coverage of the latest topics as well as classic articles of historical and theoretical importance

[AMARTYA K. SEN](#) Santosh C. Saha, 2017-08-31 Professor Amartya K Sen a Nobel Laureate in developmental mathematical economics in 1998 currently Professor at Harvard is well known for his work on famine human development index welfare economics and basic causes of poverty and widespread hunger especially in the developing world However the social choice problems have for long bothered him and he has asked Equality of What 1980 and has elaborated the relation between facts and values My book examines Sen's philosophical attempt to theorize interstitiality and hybridity that takes us beyond culture as a specially localized phenomenon Profoundly influenced by European Enlightenment and Indian philosophical and ethical values he has reconceptualized space in the mode of interstitially and public culture and has created subjects beyond the limits of a border Alongside his collaborator Martha Nussbaum Sen has appeared as one of the preeminent spokespersons for the liberal sensibility By crossing a border Dr Sen has viewed philosophy as a guide to new learning in areas such human rights environmental ethics globality women's and men's agentic power to conclude that philosophy has a distinct role in our understanding the value of morality My book seeks a new course of his vision that might qualify him to be a man of destiny **Controlling Contested Places** Christine Shepardson, 2019-05-14 From constructing new buildings to describing rival controlled areas as morally and physically dangerous leaders in late antiquity fundamentally shaped their physical environment and thus the events that unfolded within it Controlling Contested Places maps the city of Antioch Antakya Turkey through the topographically sensitive vocabulary of cultural geography demonstrating the critical role played by physical and rhetorical spatial contests during the tumultuous fourth century Paying close attention to the manipulation of physical places Christine Shepardson exposes some of the powerful forces that structured the development of religious orthodoxy and orthopraxy in the late Roman Empire Theological claims and political support were not the only significant factors in determining which Christian communities gained authority around the Empire Rather Antioch's urban and rural places far from being an inert backdrop against which events transpired were ever shifting sites of and tools for the negotiation of power authority and religious identity This book traces the ways in which leaders like John Chrysostom Theodoret and Libanius encouraged their audiences to modify their daily behaviors and transform their interpretation of the

world and landscape around them Shepardson argues that examples from Antioch were echoed around the Mediterranean world and similar types of physical and rhetorical manipulations continue to shape the politics of identity and perceptions of religious orthodoxy to this day

**The Killing of Cambodia: Geography, Genocide and the Unmaking of Space** James A. Tyner, 2017-05-15 Between 1975 and 1978 the Khmer Rouge carried out genocide in Cambodia unparalleled in modern history Approximately 2 million died almost one quarter of the population Taking an explicitly geographical approach this book argues whether the Khmer Rouge s activities not only led to genocide but also terracide the erasure of space In the Cambodia of 1975 the landscape would reveal vestiges of an indigenous pre colonial Khmer society a French colonialism and American intervention The Khmer Rouge however were not content with retaining the past inscriptions of previous modes of production and spatial practices Instead they attempted to erase time and space to create their own utopian vision of a communal society The Khmer Rouge s erasing and reshaping of space was thus part of a consistent sacrifice of Cambodia and its people a brutal justification for the killing of a country and the birth of a new place Democratic Kampuchea While focusing on Cambodia the book provides a clearer geographic understanding to genocide in general and insights into the importance of spatial factors in geopolitical conflict

**Regional Worlds: Advancing the Geography of Regions** Martin Jones, Anssi Paasi, 2017-10-02 A key concern in the debate and empirical research on the geography of regions is the evolution of the conceptualizations and practical uses of the idea of region This idea prioritises both the intellectual and the practical development of regional studies This book drives the discussion further It stresses the complex forms of agency advocacy involved in the production and reproduction of regional spaces and space of regionalism as well as the importance of geohistory and context The book moves beyond the territorial relational divide that has characterized debates on regions and regional borders since the 1990s The contributors answer key questions from different conceptual and concrete contextual angles and to motivate readers to reflect on the perpetual significance of regional concepts and how they are mobilized by various actors to maintain or transform the contested spatialities of societal power relations This book was based on a special issue of Regional Studies

**Education Policy and Contemporary Theory** Kalervo N. Gulson, Matthew Clarke, Eva Bendix Petersen, 2015-06-12 This book aims to posit theory as a central component to the study of education and education policy Providing clear introductory entries into contemporary critical theories and their take up in education policy studies the book offers a generative invitation to further reading thought and exploration Instead of prescribing how theory should be used the contributors elaborate on a set of possibilities for researching and critiquing education policy Education Policy and Contemporary Theory explores examples of how theoretical approaches generate a variety of questions for policy analysis demonstrating the importance of theory as a necessary and inevitable resource for exploring and contesting various policy realms and dominant discourses Each chapter provides a short overview of key aspects of a particular theory or perspective followed by suggestions of methodological implications and recommended readings to extend the outlined ideas Organized

around two parts the first section focuses on theorists while the second section looks at specific theories and concepts with the intention that each part makes explicit the connection between theory and methodology in relation to education policy research Each contribution is carefully written by established and emerging scholars in the field to introduce new scholars to theoretical concepts and policy questions and to inspire extend or challenge established policy researchers who may be considering working in new areas

**Routes, Roads and Landscapes** Brita Brenna, Janike Kampevold Larsen, 2016-12-05  
Routes and roads make their way into and across the landscape defining it as landscape and making it accessible for many kinds of uses and perceptions Bringing together outstanding scholars from cultural history geography philosophy and a host of other disciplines this collection examines the complex entanglement between routes and landscapes It traces the changing conceptions of the landscape from the Enlightenment to the present day looking at how movement has been facilitated imagined and represented and how such movement in turn has conditioned understandings of the landscape A particular focus is on the modern transportation landscape as it came into being with the canal the railway and the automobile These modes of transport have had a profound impact on the perception and conceptualization of the modern landscape a relationship investigated in detail by authors such as Gernot Böhme Sarah Bonnemaïson Tim Cresswell Finola O Kane Charlotte Klonk Peter Merriman Christine Macy David Nye Vittoria Di Palma Charles Withers and Thomas Zeller

*International Perspectives and Empirical Findings on Child Participation* Tali Gal, Benedetta Duramy, 2015-03-20  
The 1989 UN Convention on the Rights of the Child has inspired advocates and policy makers across the globe injecting children's rights terminology into various public and private arenas Children's right to participate in decision making processes affecting their lives is the acme of the Convention and its central contribution to the children's rights discourse At the same time the participation right presents enormous challenges in its implementation Laws regulations and mechanisms addressing children's right to participate in decision making processes affecting their lives have been established in many jurisdictions across the globe Yet these worldwide developments have only rarely been accompanied with empirical investigations The effectiveness of various policies in achieving meaningful participation for children of different ages cultures and circumstances have remained largely unproven empirically Therefore with the growing awareness of the importance of evidence based policies it becomes clear that without empirical investigations on the implementation of children's right to participation it is difficult to promote their effective inclusion in decision making This book provides a much needed first broad portrayal of how child participation is implemented in practice today Bringing together 19 chapters written by prominent authors from the United States Canada the United Kingdom Ireland New Zealand Australia and Israel the book includes descriptions of programs that engage children and youth in decision making processes as well as insightful findings regarding what children their families and professionals think about these programs Beyond their contribution to the empirical evidence on ways children engage in decision making processes the volume's chapters contribute to the theoretical

development of the meaning of participation citizenship inclusiveness and relational rights in regards to children and youth There is no matching to the book s scope both in terms of its breadth of subjects and the diversity of jurisdictions it covers The book s chapters include experiences of child participation in special education child protection juvenile justice restorative justice family disputes research and policy making

### **The Routledge Handbook of Literary Geographies**

Neal Alexander,David Cooper,2024-08-09 The Routledge Handbook of Literary Geographies provides a comprehensive overview of recent research and a range of innovative ways of thinking literature and geography together It maps the history of literary geography and identifies key developments and debates in the field Written by leading and emerging scholars from around the world the 38 chapters are organised into six themed sections which consider differing critical methodologies keywords and concepts literary geography in the light of literary history a variety of places spaces and landforms the significance of literary forms and genres and the role of literary geographies beyond the academy Presenting the work of scholars from different disciplinary backgrounds each section offers readers new angles from which to view the convergence of literary creativity and geographical thought Collectively the contributors also address some of the major issues of our time including the climate emergency movement and migration and the politics of place Literary geography is a dynamic interdisciplinary field dedicated to exploring the complex relationships between geography and literature This cutting edge collection will be an essential resource for undergraduate and postgraduate students in both Geography and Literary Studies and scholars interested in the evolving interface between the two disciplines

*Digital Diversities* Garry Robson,Malgorzata Zachara,Małgorzata Zachara,2014-10-21 Digital Diversities is a groundbreaking interdisciplinary study of the social social psychological philosophical and political ramifications of the digital turn in human affairs Focusing in particular on connections between the saturation of everyday life by digital communication technologies and 21st century global mobility it offers fresh and original accounts of the interface between online communication practices and the negotiation of increasingly complex social experience It provides critical studies of among other things the consequences of the widespread shift to remote rather than embodied relationships the day to day management of intercultural encounters in unprecedentedly diverse social settings new and emerging forms of political expression and cultural diplomacy and the relationship between posthuman ideology and the googleisation of everything As such Digital Diversities is a collection that makes a timely and thought provoking contribution to the expanding field of studies of the abrupt and still poorly understood transformation of everyday life in the early 21st century by the gadgets and communication platforms of the digital global hive

**Literature and the Peripheral City** Jason Finch,Markku Salmela,2015-05-27 Cities have always been defined by their centrality But literature demonstrates that their diverse peripheries define them too from suburbs to slums rubbish dumps to nightclubs and entire failed cities The contributors to this collection explore literary urban peripheries through readings of literature from four continents and numerous cities

**The City in the Hebrew Bible** James K Aitken,Hilary F.

Marlow,2018-10-18 These essays explore the idea of the city in the Hebrew Bible by means of thematic and textual studies The essays are united by their portrayal of how the city is envisaged in the Hebrew Bible and how the city shapes the writing of the literature considered In its conceptual framework the volume draws upon a number of other disciplines including literary studies urban geography and psycho linguistics to present chapters that stimulate further discussion on the role of urbanism in the biblical text The introduction examines how cities can be conceived and portrayed before surveying recent studies on the city and the Hebrew Bible Chapters then address such issues as the use of the Hebrew term for city the rhythm of the city throughout the biblical text as well as reflections on textual geography and the work of urban theorists in relation to the Song of Songs Issues both ancient and modern historical and literary are addressed in this fascinating collection which provides readers with a multi faceted and interdisciplinary view of the city in the Hebrew Bible

**Geography, Topography, Landscape** Marios Skempis,Ioannis Ziogas,2013-12-12 By introducing a multifaceted approach to epic geography the editors of the volume wish to provide a critical assessment of spatial perception of its repercussions on shaping narrative as well as of its discursive traits and cultural contexts Taking the genre specific boundaries of Greco Roman epic poetry as a case in point a team of international scholars examines issues that lie at the heart of modern criticism on human geography Modern and ancient discourse on space representations revolves around the nation shaping force of geography the gendered dynamics of landscapes the topography of isolation and integration the politics of imperialism globalization environmentalism as well as the power of language and narrative to turn space into place One of the major aims of the volume is to show that the world of the Classics is not just the origin but the essence of current debates on spatial constructions and reconstructions

**Doing Spatial History** Riccardo Bavaj,Konrad Lawson,Bernhard Struck,2021-12-30 This volume provides a practical introduction to spatial history through the lens of the different primary sources that historians use It is informed by a range of analytical perspectives and conveys a sense of the various facets of spatial history in a tangible case study based manner The chapter authors hail from a variety of fields including early modern and modern history architectural history historical anthropology economic and social history as well as historical and human geography highlighting the way in which spatial history provides a common forum that facilitates discussion across disciplines The geographical scope of the volume takes readers on a journey through central western and east central Europe to Russia the Mediterranean the Ottoman Empire and East Asia as well as North and South America and New Zealand Divided into three parts the book covers particular types of sources different kinds of space and specific concepts tools and approaches offering the reader a thorough understanding of how sources can be used within spatial history specifically but also the different ways of looking at history more broadly Very much focusing on doing spatial history this is an accessible guide for both undergraduate and postgraduate students within modern history and its related fields

*Language Learning Environments* Phil Benson,2021-06-04 This book is the first in depth examination of the application of theories of space to

issues of second language learning The author introduces the work of key thinkers on the theory of space and place and the relevance of their ideas to second language acquisition SLA He also outlines a new conceptual framework and set of terms for researching SLA that centre on the idea of language learning environments The book considers the spatial contexts in which language learning takes place and investigates how these spatial contexts are transformed into individualised language learning environments as learners engage with a range of human and nonhuman and physical and nonphysical resources in their daily lives Revisiting linguistics and language learning theory from a spatial perspective the book demonstrates that the question of where people learn languages is equally as important as that of how they do so This work is essential reading for any researcher wishing to research the role of the environment as an active player in SLA

**Strengthening Intangible Infrastructures** Andreas Koch, Clemens Sedmak, 2014-06-26 The term infrastructure commonly refers to the partly naturally given partly manmade constitutive conditions that affect enable and ensure our everyday lives This concept is generally used in an economic sense and highlights the material and institutional facilities of our environment that can be summed up as the tangible means which our societies are based upon Consequently talking about intangible infrastructures may appear to be a somewhat unusual concept The term intangible includes areas of our lives that are not or are not primarily represented physically it points to invisible realms of the human existence both intellectually or knowledge based to cultural and even ethical matters and to the social adhesives and cultural techniques that civilizations are being built on As intangible infrastructures we regard them as fundamental for our well being and for a good quality of life This volume is a result of a two day conference held in December 2012 in Salzburg Austria which brought together researchers and practitioners from manifold scientific backgrounds including sociology philosophy social geography economics urban studies political science history communication sciences and public communication The text draws a map of current discourse on intangible infrastructures and provides strategies of strengthening intangible infrastructures
