Whitaker, 1973 **Cambodian** John Haiman, 2011-09-29 Cambodian is in many respects a typical Southeast Asian language whose syntax at least on first acquaintance seems to approximate that of any

SVO pidgin On closer acquaintance however because of the richness of its idioms the language seems to be a forbiddingly alien form of Desesperanto a language of which one can read a page and understand every word individually and have no inkling of what the page was all about Like many of the languages of its genetic Austroasiatic family its basic root vocabulary seems to consist largely of sesquisyllabic or iambic words although there are an enormous number of unassimilated borrowings from Indic languages which seem to play the same role in Cambodian that Latinate borrowings do in English Morphologically Cambodian has a fairly elaborate system of derivational affixes and it is possible that the genesis of many of the most common of these affixes is related to and undoes the constant reduction of unstressed initial syllables in sesquisyllabic words Again like many of the languages of Southeast Asia Cambodian exhibits in its lexicon a penchant for symmetrical decorative compounding a phenomenon which is so marginally attested in Western languages that the phenomenon has received little attention in the typological literature

Training the Bodes Terry Smith, 2011-10-01 By the end of 1971 the hastily raised poorly trained and woefully led Cambodian army had suffered a string of defeats and heavy casualties inflicted by North Vietnamese army and Viet Cong units With many of its best infantry battalions and much of its armour transport and equipment destroyed only three of its 15 brigade groups were militarily effective In South Vietnam America and its allies were in the process of withdrawing and handing back to the Vietnamese full responsibility for the conduct of the war A small group of Australians which never numbered more than 30 officers warrant officers and non commissioned officers of the Australian Army Training Team Vietnam helped train 27 light infantry battalions of the Cambodian army in South Vietnam during 1972 This project was according to one historical study a classic example of using special forces as a force multiplier and had been recognised as one of the most successful foreign internal defence missions of the Vietnam War The story of these few men is told against the background of the war in South Vietnam and in particular Phuoc Tuy province as both sides fought to secure villages and hamlets during 1972 before the Peace Accords being negotiated in Paris to end the war were signed Training the Bodes is an

interesting and valuable book that tells a moving story The excerpts from letters and reports and the photographs are fascinating It fills a small gap in Australia s military history *Media Resource Catalog from the National Audiovisual Center* ,1988 **A List of Audiovisual Materials Produced by the United States Government for Foreign Language Instruction** National Audiovisual Center,1983 **Handbook for Teaching Khmer-speaking Students** ,1988
