What Do Principals Do? Jonathan Hurst,2021-04-01 What Do Principals Do provides a comprehensive and expansive look into a high school principal's job Rather than a survey asking principals how much time they spend on various tasks this work provides empirical evidence of exactly what a principal does every day of the year and how much time he spends doing it Based on the results of a three year longitudinal study conducted by a California High School Principal of the Year Association of California School Administrators 2012 this book reveals precisely what a principal does when he does it and how much time he spends doing it The study identifies 72 discrete tasks performed by principals and examines how much time disaggregated by day week month and year they spend on each of those 72 tasks The results of the data collection are the foundation of the book The findings are supplemented with explanations and analyses that reveal the workings of K 12 education and give readers a glimpse of life in a comprehensive high school This is a must read for everyone considering a life in public school administration The author Dr Jonathan Hurst the longest running principal in Elsinore High School's 130 year history provides insightful commentary and relevant anecdotes from a rich and rewarding career served in a large comprehensive high school in Southern California This book provides detailed quantitative evidence and an explanation for just what a principal does and how much time he spends doing it In the process it demonstrates the requisite skills for effective school governance administrative multi tasking and productive principal behavior Data collected covers three years and encompasses over 20 500 tasks and 7 500 hours of work This is a useful augmentation to existing administrative credential course readings as it provides evidence for what the research and authors are saying and demonstrates those skills procedures and operations that are an everyday part of a school administrator's job But the appeal for What Do Principals Do goes beyond those seeking knowledge about educational administration Besides the facts and figures about how a principal spends his time Dr Hurst offers explanations for why and how the time is spent and he provides insight into the educational scene This book has appeal for students in teacher education programs because it explains school communities and life in a school system and that also makes it appealing to the lay person or parent who wants to understand how schools work

African Fireside Stories Olaotse Obed Gabasiane,2013-09-25 This African story book is based on

true happenings in the African experience involving mainly young African children In this volume the reader not only learns of the vibrant characters of these children but also gets a glimpse of the culture tradition and way of life of Africans The general setting for these stories is in the distant rural areas not yet tainted by the intricacies of modern life In these places people still rely on simple modes of transport such as riding on donkeys or donkey carts But these stories also reflect how resolute and determined African children can be in their attempts to be obedient to their parents teachers relatives and the village elders Parents instill the values of community upon their children Many of the characters in this story are young believers in the Christian faith Some of the children have demonstrated that raw faith which made sure nothing stood between them and what they believed in The stories reflect the reality of the African adventurous life They contain lessons of life and the values that any serious parents would desire to see developing in their children This volume will certainly be a good read for anybody who enjoy readings about what is happening on the other side of the world or all around it Countless African children have enjoyed stories such as these told by the fireside by a grandmother or other elderly person as the evening wastes into the night Enjoy *A Lousy Start* Jacobaris, 2010-11 Prior to the stock market crash in 1929 Holland was a prosperous country where its people enjoyed secure futures or so they thought After the world's economic collapse millions were forced into a poverty stricken existence where every day was a struggle to survive *A Lousy Start* shares one family's vivid impressions of living in Holland during the Great Depression and the lasting impact those experiences had on their lives At the beginning of the twentieth century Arie Demerwe worked hard and was paid very little but still managed to put food on his table Sent to fight in the war of 1918 Arie finally returned to his hometown where he began working again only to see everything change again after the end of World War I As the people of Holland enjoyed wealth they assumed would last forever dark changes loomed ahead When the sun rose on October 23 1929 no one had a clue that tragedy would strike by day's end For the next ten years a hostile world would transform even the most religious people into thieves and liars As one family fought to stay alive in a bleak existence each of them learned valuable life lessons they would carry with them forever
