Longo,2025-02-04 A groundbreaking guide to how fasting and nutraceuticals are revolutionizing the prevention and treatment of cancer from the bestselling author of The Longevity Diet Despite all our scientific advances which have allowed us to prevent and treat so many deadly diseases almost one in two people will develop cancer in the U S In Fasting Cancer Dr Valter Longo one of the leading scientists in the field of nutrition and cancer reveals the results of decades of research on the fasting and nutrition technology based studies to defeat cancer in the body making only tumor cells much more vulnerable to therapy while protecting the healthy cells Fasting Cancer creates a new path in which the patient is an active codriver of the therapy by turning on the body's ability to fight cancer Dr Longo's studies show that the fasting mimicking diet is beginning to make cancer therapies potentially more effective and less toxic to patients thus providing an evidence based complementary approach to mainstream treatments The book also describes how the everyday Longevity Diet and plant based ketogenic diet can support cancer therapies Rich in patient stories and clinical data Fasting Cancer is a read that invites everyone doctors healthcare professionals patients and family members to understand the extraordinary potential of a new approach to help fight cancer Gastrointestinal Cancers: An Interdisciplinary Approach Nima Rezaei,2024-01-01

Gastrointestinal cancers are among the most prevalent malignancies worldwide with high rate of global cancer incidence and cancer related death Gastrointestinal cancers include esophageal cancer gastric cancer colorectal cancer pancreatic cancer and liver cancer which all except the last one are covered in this volume The fourth volume of the Interdisciplinary Cancer Research series entitled Gastrointestinal Cancers An Interdisciplinary Approach publishes comprehensive volumes on mechanisms of gastrointestinal cancers and novel immunotherapy opportunities and presents the most updated and peer reviewed chapters on gastrointestinal cancers therapy This interdisciplinary series is of special value to researchers working on cell biology immunology biochemistry genetics and practitioners working on oncology and gastroenterology This is the main concept of Cancer Immunology Project CIP which is a part of Universal Scientific Education and Research Network USERN This interdisciplinary book will be of special value for researchers oncologists and gastroenterologists who wish to extend their knowledge on gastrointestinal cancers Anger Kills Dr. Redford Williams,2012-11-14 Anger kills We re

speaking here not about the anger that drives people to shoot stab or otherwise wreak havoc on their fellow humans We mean instead the everyday sort of anger annoyance and irritation that courses through the minds and bodies of many perfectly normal people If your immediate impulse when faced with everyday delays or frustrations elevators that don't immediately arrive at your floor slow moving supermarket lines dawdling drivers rude teenagers broken vending machines is to blame somebody If this blaming quickly sparks your ire toward the offender If your ire often manifests itself in aggressive action then for you getting angry is like taking a small dose of some slow acting poison arsenic for example every day of your life And the result is often the same Not tomorrow perhaps or even the day after but sooner than most of us would wish your hostility is more likely to harm your health than will be the case for your friend whose personality is not tinged by the

tendencies to cynicism anger and aggression just described In Anger Kills learn how to recognize the symptoms of chronic anger in yourself avoid feelings of hostility and deal with hostility from others Strategies For Health Steven Horne, RH (AHG),2022-01-14 If you re looking to solve your own health problems help someone you love or you re searching for answers to assist customers or clients this practical guide to natural remedies will help you succeed This book is the result of the healing journey I started fifty years ago when I failed to find answers to my own chronic respiratory problems After years of getting worse with allopathic treatments I discovered a different approach I started studying and applying the use of herbs diet and other natural modalities I went from being a sickly teenager to a healthy young adult For the past forty years I have been consulting writing and teaching sharing what I have learned to help other people experience the same health transformation I wrote Strategies for Health to share this knowledge so that anyone who is struggling with poor health can move beyond symptomatic relief and start learning how to achieve lasting health To get better results this book teaches you to find and adopt strategies to correct the underlying root causes of disease such as nutritional deficiencies exposure to toxins unresolved stress and poor lifestyle habits Because when you look beyond treating disease symptoms and correct these root causes the body returns to its natural state health This is the approach that I have taken to successfully care for myself and my family It has also helped me transform the lives of my clients and teach hundreds of successful natural health consultants to do the same And I hope the information in this book will help bring the same health and wellbeing to you and many others Steven Horne RH AHG DHS DHM *Approaches to Advance Cancer Vaccines to Clinical Utility* An M. T. Van Nuffel,Caroline Boudousquié,Sandra Tuyaerts,2019-12-27 Although cancer vaccines have yielded promising results both in vitro and in animal models their translation into clinical application has not been very successful so far Through the success of immune checkpoint inhibitors the tumor immunotherapy field revived and led to important new insights A better understanding of the functional capacity of different dendritic cell DC subsets and the immunogenicity of tumor antigens more particularly of neoantigens have important implications for the improvement of cancer vaccines These insights can guide the development of novel strategies to enhance the clinical utility of cancer vaccines The aim of this Research Topic is therefore to provide a comprehensive overview of current issues regarding cancer vaccine development with an emphasis on novel approaches toward enhancing their efficacy **Cancer** ,1923 Sustainable Nanomaterials for Biomedical Engineering Junaid Ahmad Malik,Megh R. Goyal,Mohamed Jaffer M. Sadiq,2023-05-12 In recent years nanomaterials have become one of the most dynamic exploration fields in the areas of engineering technology and science This new volume focuses on the use of various bionanomaterials that can be introduced into the body as clinical devices for various medical purposes The book also provides examples of cost effective sustainable alternatives to traditional medical procedures The volume discusses how these materials have diverse applications in the biomedical fields such as for cancer treatment for orthopedic joint replacements for medical diagnosis for making bone plates for wound healing for nerve regeneration for

breast implants in dental procedures and so on In addition the book also covers some nonbiomedical applications of nanobiomaterials such as for example to grow cells in a culture medium as a blood protein test in laboratories etc

Hyperthermia in Oncology Clifford L. K. Pang,2015-05-26 Hyperthermia in oncology is the application of heat to a patient's body for the purpose of cancer treatment In recent years its use has seen rapid development with a large amount of clinical data becoming available Hyperthermia in Oncology synthesizes the current research on the topic and provides treatment protocols for using localized as well *Journal of the National Cancer Institute* ,2009 *TRP Channels* Michael X.

Zhu,2016-04-19 The rapid expansion of the TRP field has generated a large amount of excellent original work across many different research fields However investigators are not necessarily familiar with the pros and cons of the variety of methods used to study TRP channels Because of functional and genetic diversity as well as the different physiological roles
